The Copywriter's Handbook

Faith. Trust. Triumph. “I’m sorry,” the doctor said. “He is permanently and totally blind. There is nothing we can do for him.” George and Sarah Hingson looked at each other, devastated. Their six-month-old son, Michael was a happy, strawberry blond baby boy, healthy and normal in every way except one. When the Hingsons switched on a light or made silly faces, Michael did not react. Ever. “My best suggestion is that you send him to a home for the blind,” the doctor continued. “He will never be able to do anything for himself.” Forty-seven years later, a yellow Labrador retriever puppy was born in the whelping unit of Guide Dogs for the Blind in San Rafael, California. The puppy’s name was Roselle. On September 11, 2001, she saved Michael’s life. This is Roselle’s story too. —From the Introduction Every moment in Michael Hingson’s and Roselle’s lives seemed to lead up to this day. When one of four hijacked planes flew into the World Trade Center’s north tower on September 11, 2001, Michael Hingson, a district sales manager for a data protection and network security systems company, was sitting down for a meeting. His guide dog, Roselle, was at his feet. Paired for twenty-one months, man and dog spent that time forging a bond of trust, much like police partners who trust their lives to each other. Michael couldn’t see a thing, but he could hear the sounds of shattering glass, falling debris, and terrified people flooding around him and Roselle. However, Roselle sat calmly beside him. In that moment, Michael chose to trust Roselle’s judgment and not to panic. They were a team. Thunder Dog is a story that will forever change your spirit and your perspective. It illuminates Hingson’s lifelong determination to achieve parity in a sighted world and how the rare trust between a man and his guide dog can inspire an unshakable faith in each one of us.

An Autobiography Or The Story of My Experiments with Truth

NEW YORK TIMES BESTSELLER "This is history at its most immediate and moving...A marvelous and memorable book." —Jon Meacham
"Remarkable...A priceless civic gift...On page after page, a reader will encounter words that startle, or make him angry, or heartbroken." —The Wall Street Journal
"Viscerall repeatedly cried...This book captures the emotions and unspooling horror of the day." —NPR
"Had me turning each page with my heart in my throat...There's been a lot written about 9/11, but nothing like this. I urge you to read it." —Katie Couric
The first comprehensive oral history of September 11, 2001—a panoramic narrative woven from the voices of Americans on the front lines of an unprecedented national trauma. Over the past eighteen years, monumental literature has been published about 9/11, from Lawrence Wright's *The Looming Tower*, which traced the rise of al-Qaeda, to The 9/11 Commission Report, the government's definitive factual retrospective of the attacks. But one perspective has been missing up to this point—a 360-degree account of the day told through the voices of the people who experienced it. Now, in *The Only Plane in the Sky*, award-winning journalist and bestselling historian Garrett Graff tells the story of the day as it was lived—in the words of those who lived it. Drawing on never-before-published

transcripts, recently declassified documents, original interviews, and oral histories from nearly five hundred government officials, first responders, witnesses, survivors, friends, and family members, Graff paints the most vivid and human portrait of the September 11 attacks yet. Beginning in the predawn hours of airports in the Northeast, we meet the ticket agents who unknowingly usher terrorists onto their flights, and the flight attendants inside the hijacked planes. In New York City, first responders confront a scene of unimaginable horror at the Twin Towers. From a secret bunker underneath the White House, officials watch for incoming planes on radar. Aboard the small number of unarmed fighter jets in the air, pilots make a pact to fly into a hijacked airliner if necessary to bring it down. In the skies above Pennsylvania, civilians aboard United Flight 93 make the ultimate sacrifice in their place. Then, as the day moves forward and flights are grounded nationwide, Air Force One circles the country alone, its passengers isolated and afraid. More than simply a collection of eyewitness testimonies, *The Only Plane in the Sky* is the historic narrative of how ordinary people grappled with extraordinary events in real time: the father and son working in the North Tower, caught on different ends of the impact zone; the firefighter searching for his wife who works at the World Trade Center; the operator of in-flight telephone calls who promises to share a passenger's last words with his family; the beloved FDNY chaplain who bravely performs last rites for the dying, losing his own life when the Towers collapse; and the generals at the Pentagon who break down and weep when they are barred from rushing into the burning building to try to rescue their colleagues. At once a powerful tribute to the courage of everyday Americans and an essential addition to the literature of 9/11, *The Only Plane in the Sky* weaves together the unforgettable personal experiences of the men and women who found themselves caught at the center of an unprecedented human drama. The result is a unique, profound, and searing exploration of humanity on a day that changed the course of history, and all of our lives.

Part One: The Historical, Social and Economic Setting During the eight centuries covered in this volume, the new faith of Islam arose in Arabia and gradually spread eastwards and northwards, eventually affecting much of Central Asia, the southern fringes of Siberia and the eastern regions of China. These were also the centuries in which nomadic and military empires arose in the heart of Asia, impinging on the history of adjacent, well-established civilizations and cultures (China, India, Islamic Western Asia and Christian eastern and central Europe) to an unparalleled extent. Lamaist Buddhism established itself in the Mongolian region and in Tibet and Islam among the Turkish people of Transoxania, southern Siberia and Xinjiang. It was in Eastern Europe, above all in Russia, that the Turco-Mongol Golden Horde was to have a major, enduring influence on the course of the region's history.

What Were the Twin Towers?

Nearly three thousand people died in the terrorist attacks of September 11, 2001. In Lower Manhattan, on a field in Pennsylvania, and along the banks of the Potomoc, the United States suffered the single largest loss of life from an enemy attack on its soil. In November 2002 the United States Congress and President George W. Bush established by law the National Commission on Terrorist Attacks Upon the United States, also known as the 9/11 Commission. This independent, bipartisan panel was directed to examine the facts and circumstances surrounding the September 11 attacks, identify lessons learned, and provide recommendations to safeguard against future acts of terrorism. This volume is the authorized edition of the Commission's final report.

The New York Times Book of Crime

Erik Ronningen was on the 71st floor of the North Tower on September 11, 2001 when American Airlines Flight 11 struck the building. After an incredible, near miraculous journey down through the acrid, smoke-filled building, Erik tried to get to the Security Command Center in the South Tower. Unable to do so, he was the last person to make it out of the South Tower alive. Here is the story of his harrowing escape interwoven with the accounts of fourteen others who were lucky enough to be able to recount them. Altogether, these accounts document the bravery and heroism, selflessness and generosity demonstrated by hundreds of people when their normal everyday lives were suddenly plunged into a fiery scramble for survival. The astonishing photograph on the cover of this book was taken by survivor Jim Usher as he lay on the concrete outside the WTC losing consciousness, so his family could see what he saw during what he thought were the last moments of his life. And yes, that flag was really there! This photograph has never before been made public.

The 9/11 Terror Attacks

A timeless, “triumphant” (Entertainment Weekly) story of healing and recovery from the victim of a crime that shocked the nation: the Central Park Jogger. Shortly after 9:00 p.m. on April 19, 1989, a young woman jogs alone near 102nd Street in New York City's Central Park. She is attacked, raped, savagely beaten, and left for dead. Hours later she arrives at the emergency room—comatose—she has lost so much blood that her doctors believe it's a miracle she's still alive. Meet Trisha Meili, the Central Park Jogger. *I Am the Central Park Jogger* recounts the mesmerizing, inspiring, often wrenching story of human strength and transcendent recovery. Called “Hero of the Month” by Glamour magazine, Meili tells us who she was before the attack—a young Wall Street professional with a promising future—and who she has become: a woman who learned how to read, write, walk, talk, and love again and turn horrifying violence and certain death into extraordinary healing and victorious life. With “moments of unexpected grace and insights into life's challenges. . . . Meili's story—the story the public never knew—is unforgettable” (The Buffalo News).

"102 Minutes does for the September 11 catastrophe what Walter Lord did for the Titanic in his masterpiece, *A Night to Remember* . . . Searing, poignant, and utterly compelling."—Rick Atkinson, Pulitzer Prize-winning author of *An Army at Dawn* Hailed upon its hardcover publication as an instant classic, the critically acclaimed New York Times bestseller *102 Minutes* is now available in a revised edition timed to honor the tenth anniversary of the attacks of September 11, 2001. At 8:46 a.m. that morning, fourteen thousand people were inside the World Trade Center just starting their workdays, but over the

next 102 minutes, each would become part of a drama for the ages. Of the millions of words written about this wrenching day, most were told from the outside looking in. New York Times reporters Jim Dwyer and Kevin Flynn draw on hundreds of interviews with rescuers and survivors, thousands of pages of oral histories, and countless phone, e-mail, and emergency radio transcripts to tell the story of September 11 from the inside looking out. Dwyer and Flynn have woven an epic and unforgettable account of the struggle, determination, and grace of the ordinary men and women who made 102 minutes count as never before. 102 Minutes is a 2005 National Book Award Finalist for Nonfiction.

Last Man Down

An inspiring and groundbreaking work that brilliantly illuminates the eternal power of love and the unbreakable bond it creates. As a mother and former business executive, Bonnie McEaney was always skeptical of the spiritual world and all that it represents. When her husband, Eamon, died in the attacks on the World Trade Center, she thought she had lost him forever. Then Bonnie began to have experiences that convinced her that her husband, in spirit, was sending her signs—indeed messages—that he was still present and watching over his family. After talking to other families and friends of loved ones lost on 9/11, she realized she was not alone. In Messages, Bonnie shares the miraculous spiritual stories of numerous others connected to the tragedy while weaving in her heartfelt personal message of comfort and hope. For all who are searching for their own deeper connections, this extraordinary book is indispensable proof that love and relationships can continue . . . even after death.

Psychology for Teachers

Published to coincide with the Golden Globe Race's 50th Anniversary It lay like a gauntlet thrown down; to sail around the world alone and non-stop. No one had ever done it, no one knew if it could be done. In 1968, nine men - six Englishmen, two Frenchmen and an Italian - set out to try, a race born of coincidence of their timing. One didn't even know how to sail. They had more in common with Captain Cook or Ferdinand Magellan than with the high-tech, extreme sailors of today, a mere forty years later. It was not the sea or the weather that determined the nature of their voyages but the men they were, and they were as different from one another as Scott from Amundsen. Only one of the nine crossed the finishing line after ten months at sea. The rest encountered despair, sublimity, madness and even death.

The Lonely Soldier

Years in the making, this spellbinding, heartbreaking, and ultimately uplifting narrative is an unforgettable portrait of 9/11 This is a 9/11 book like no other. Masterfully weaving together multiple strands of the events in New York, at the Pentagon, and in Shanksville, Pennsylvania, Fall and Rise is a mesmerizing, minute-by-minute account of that terrible day. In the days and months after 9/11, Mitchell Zuckoff, then a reporter for the Boston Globe, wrote about the attacks, the victims, and their families. After further years of meticulous reporting, Zuckoff has filled Fall and Rise with voices of the lost and the saved. The result is an utterly gripping book, filled with intimate stories of people most affected by the events of that sunny Tuesday in September: an out-of-work actor stuck in an elevator in the North Tower of the World Trade Center; the heroes aboard Flight 93 deciding to take action; a veteran

trapped in the inferno in the Pentagon; the fire chief among the first on the scene in sleepy Shanksville; a team of firefighters racing to save an injured woman and themselves; and the men, women, and children flying across country to see loved ones or for work who suddenly faced terrorists bent on murder. Fall and Rise will open new avenues of understanding for everyone who thinks they know the story of 9/11, bringing to life—and in some cases, bringing back to life—the extraordinary ordinary people who experienced the worst day in modern American history. Destined to be a classic, Fall and Rise will move, shock, inspire, and fill hearts with love and admiration for the human spirit as it triumphs in the face of horrifying events.

Who They Were

“every one who wishes to gain true knowledge must climb the Hill Difficulty alone, and since there is no royal road to the summit, I must zigzag it in my own way. I slip back many times, I fall, I stand still, I run against the edge of hidden obstacles, I lose my temper and find it again and keep it better, I trudge on, I gain a little, I feel encouraged, I get more eager and climb higher and begin to see the widening horizon. Every struggle is a victory. One more effort and I reach the luminous cloud, the blue depths of the sky, the uplands of my desire.” HELEN KELLER was born on June 27, 1880 in Tuscumbia, Alabama. At nineteen months old an acute illness nearly took her life and left her deaf and blind. At the recommendation of Alexander Graham Bell, her parents contacted the Perkins Institute for the Blind in Boston, and Anne Sullivan was sent to tutor Helen. The story of their early years together, and of Helen’s remarkable psychological and intellectual growth, is told in *The Story of My Life*, which first appeared in installments in *Ladies’ Home Journal* in 1902. With Anne Sullivan, “Teacher,” at her side, Helen Keller graduated from Radcliffe College in 1904, an extraordinary accomplishment for any woman of her time. Helen was dedicated to helping the blind and handicapped, raising funds for the American Foundation for the Blind and lobbying for commissions for the blind in thirty states. A women’s rights activist, a Swedenborgian, a socialist, and a world-famous celebrity, Helen Keller received the Presidential Medal of Freedom and many honorary degrees. Her other books include *The World I Live In* (1908), *Midstream: My Later Life* (1929), *Helen Keller’s Journal* (1938), and *Let Us Have Faith* (1940). She died in 1968. Her burial urn is in the National Cathedral in Washington, D.C.

Approximately 21 million copies of the first three editions of "Alcoholics Anonymous" have been

distributed. It is expected that the new fourth edition will play its part in passing on A.A.'s basic message of recovery. This fourth edition has been approved by the General Service Conference of Alcoholics Anonymous, in the hope that many more may be led toward recovery by reading its explanation of the A.A. program and its varied examples of personal experiences which demonstrate that the A.A. program works.

Report From Ground Zero

When disaster struck at the World Trade Center on September 11, 2001, Dennis Smith was among the first to arrive on the scene. Report from Ground Zero is his insider's account of the heroic efforts of the firefighters, police and emergency workers who rushed to downtown New York to face the greatest challenge of their lives. In all, 343 firefighters gave their lives. Entire companies were lost. Among the dead were a father and son; the department's beloved chaplain; commanders and rookies. Smith, author of the classic bestseller Report from Engine Company 82 and once described as 'the Poet Laureate of firefighters' by the New York Post, tells their stories and those of their families, the camaraderie in their companies and the massive recovery efforts following the catastrophe. As the world tries to come to terms with the horror of what happened, the firefighters' courage and fortitude in the face of enormous personal danger and bereavement offers a beacon of hope and redemption. Report from Ground Zero is a tribute to those heroes for our troubled times.

More Awesome Than Money

In Who They Were, Dr. Robert C. Shaler, the man who directed the largest and most groundbreaking forensic DNA investigation in U.S. history, tells with poignant clarity and refreshing honesty the story behind the relentless effort to identify the 2,749 victims of the attacks on the World Trade Center. No part of the investigation into the 9/11 attacks has taken as long or been less discussed than the daunting task of identifying the victims -- and the hijackers -- from the remains in the rubble of Ground Zero. In Who They Were, Dr. Robert C. Shaler, former director of the Forensic Biology Department at the New York City Office of the Chief Medical Examiner, tells the inside story of the relentless process of DNA identification and depicts the victories and frustrations that he and his team of scientists experienced during more than three years of grueling work. On September 11, 2001, New York City was unprepared for the mass-fatality event that occurred at the World Trade Center. The Office of the Chief Medical Examiner had to completely reconfigure itself to process and identify the nearly 20,000 remains that would eventually come through its doors. Facing an astonishing array of obstacles -- from political infighting and an overwhelming bureaucracy to the nearly insurmountable task of corralling personnel and supplies to handle the work -- Shaler and his team quickly established an unprecedented network of cooperation among public agencies and private labs doing cutting-edge research. More than a story of innovative science at the frontiers of human knowledge, Who They Were also tells the very human story of how Dr. Shaler and his staff forged important and lasting bonds with the families of those who were lost. He shares the agony of mistakes made in the chaos and unintended misidentifications resulting in the excruciating difficulty of having to retrieve remains from families of the lost. Finally, Dr. Shaler shares how he and the dedicated team of scientists who gave up more than three years of their lives when the rest of the world had moved on had to face the limits of science in dealing with the appalling level of destruction at Ground Zero and concede that no more victims would be sent home to their families. As of April 2005, when the process was suspended, only 1,592 out of the 2,749 who died on that fateful day had been identified. With compelling prose and insight, Who They Were reveals

the previously untold stories of the scientists determined to bring closure to devastated families in the wake of America's largest disaster.

What Brothers Do

The remarkable story of a restaurant on top of the world--built by a legend, destroyed in tragedy--and an era in New York City it helped to frame In the 1970s, New York City was plagued by crime, filth, and an ineffective government. The city was falling apart, and even the newly constructed World Trade Center threatened to be a fiasco. But in April 1976, a quarter-mile up on the 107th floor of the North Tower, a new restaurant called Windows on the World opened its doors--a glittering sign that New York wasn't done just yet. In *The Most Spectacular Restaurant in the World*, journalist Tom Roston tells the complete history of this incredible restaurant, from its stunning \$14-million opening to 9/11 and its tragic end. There are stories of the people behind it, such as Joe Baum, the celebrated restaurateur, who was said to be the only man who could outspend an unlimited budget; the well-tipped waiters; and the cavalcade of famous guests, as well as everyday people celebrating the key moments in their lives. Roston also charts the changes in American food, from baroque and theatrical to locally sourced and organic. Built on nearly 150 original interviews, *The Most Spectacular Restaurant in the World* is the story of New York City's restaurant culture and the quintessential American drive to succeed.

Discover the true story of the Twin Towers--how they came to be the tallest buildings in the world and why they were destroyed. When the Twin Towers were built in 1973, they were billed as an architectural wonder. Offices and corporations moved into the towers--also known as the World Trade Center--and the buildings were seen as the economic hub of the world. Reluctant Hero

It was a tale of loss and recovery, of courage and sorrow, of horror and inspiration. Tania Head's astonishing account of her experience on September 11, 2001—from crawling through the carnage and chaos to escaping the seventy-eighth-floor sky lobby of the burning south tower to losing her fiancé in the collapsed north tower—transformed her into one of the great victims and heroes of that tragic day. Tania selflessly took on the responsibility of giving a voice and a direction to the burgeoning World Trade Center Survivors' Network, helping save the "Survivor Stairway" and leading tours at Ground Zero, including taking then-governor Pataki, Mayor Bloomberg, and former mayor Giuliani on the inaugural tour of the WTC site. She even used her own assets to fund charitable events to help survivors heal. But there was something very wrong with Tania's story—a terrible secret that would break the hearts and challenge the faith of all those she claimed to champion. Told with the unique insider perspective and authority of Angelo J. Guglielmo, Jr., a filmmaker shooting a documentary on the efforts of the Survivors' Network, and previously one of Tania's closest friends, *The Woman Who Wasn't There* is the story of one of the most audacious and bewildering quests for acclaim in recent memory—one that poses fascinating questions about the essence of morality and the human need for connection at any cost.

How I Got This Way

The first critical, annotated edition of M. K. Gandhi's most famous written work, published seventy years after his death In the mid-1920s, prompted by a "small, still voice" that encouraged him to lay bare what was known only to him and his God, M. K. Gandhi began writing and publishing his autobiography. Drafted during a period of intensive fasting and "in-dwelling" at his ashram in Ahmedabad, his story of the soul portrayed the deeper, more inward experiences that made him externally an innovator in the struggles against violence, racism, and colonialism. The book, written in Gujarati and translated into English by Mahadev Desai, would become an international classic, hailed as one of the "100 Best Spiritual Books of the 20th Century." This first critical edition of this seminal work by leading Gandhi scholar Tridip Suhrud offers an unprecedented window into the original Gujarati text. Including both alternative English translations and illuminating notes, as well as a deeply researched introduction, it will bring renewed critical attention to one of the world's most widely read books.

The 9/11 Commission Report: Final Report of the National Commission on Terrorist Attacks Upon the United States (Authorized Edition)

After nearly 10 years of conflicted silence, a celebrated 9/11 survivor—who helped a woman in a wheelchair escape the North Tower minutes before it collapsed—describes what it was like for him living with memories of 9/11 for the past decade.

The Eleventh Day

On the morning of September 11, 2001, shock waves rippled through the country as the United States came under terrorist attack. In New York, Washington, D.C., and Somerset County, Pennsylvania, four planes piloted by members of the Al Qaeda terrorist organization left death, shattered innocence, and incomprehensible destruction in their wake. While the attacks united all Americans in their shared horror and grief, the actual witnesses to these events often bear the heaviest weight of these painful memories. *Never Forget* is a collection of unbelievably moving stories of loss, heartache, and survival, as told in the words of those closest to the unfolding tragedy. In stark, haunting detail, these vivid personal accounts bring to life the events as they happened: from the harrowing moments after the planes hit the twin Towers of the World Trade Center to the overwhelming cloud of debris that enveloped lower Manhattan when the towers fell, the devastating conversations with loved ones on the hijacked flights, the terrifying hours spent trapped in the fallen buildings, and the painstaking recovery efforts at each site. Moses Lipson, an eighty-nine-year-old construction inspector, walks down from the eighty-eighth floor of Tower 1. Steven Bienkowski, a police officer in the New York Harbor Unit Scuba Team, watches helplessly from a helicopter as people trapped in the upper floors of Tower 1 reach from the windows to beg for a miracle rescue. Tim McGinn, a now-retired NYPD lieutenant, shoots out a window and saves at least thirty people from suffocation. Young Lyzbeth Glick's heart drops when she realizes that her husband, Jeremy, who changed his travel plans at the last moment, is now on the hijacked flight from Newark. As the Pentagon blazes, Lieutenant Colonel Ted Anderson plunges back inside to rescue civilians trapped by fallen debris. Weeks later, the rescue and recovery efforts at Ground Zero continue. Construction worker Joseph Bradley looks on as a firefighter gently closes the eyes and straightens the suit of a woman whose body is found in the rubble. Benjamin Garelick, seven years old, raises seven hundred dollars with a lemonade stand to "help the firemen buy a new truck." As these unforgettable stories reveal, many Americans transcended their own confusion and despair to help one another escape, to offer one another kindness, and to affirm life in the face of catastrophe. This concert of voices shows, as never before, the heartbreaking grief and slow but uplifting healing process that the people of this nation have experienced individually and as one.

Fall and Rise

The No. 1 bestselling true story of Battalion Commander Richard Picciotto who, on 11 September, survived the collapse of the North Tower of the World Trade Center. On September 11th, Battalion Commander Richard 'Pitch' Picciotto was the highest ranking fire department commander in the twin towers

when the North Tower fell. Pitch and his men were on the 17th floor racing upward when the world seemed to explode around them. From his intimate knowledge of the Towers gained during service after the 1993 WTC bombing Pitch was able to lead the firefighters to an alternative stairwell to floor 12 where they were met with a horrifying sight - more than 50 workers too crippled, too old, or too weak to have made their way out on their own. Pitch ordered his firefighters to form a human chain and pushed and cajoled them down the stairs. They were in the 7th floor stairwell when the tower fell, and Pitch and a handful of survivors woke to find themselves buried on the landing of floor 2. This is the story of how Pitch Picciotto led his men and the survivors to safety.

The Grasshopper Trap

The definitive biography of the iconic skyscrapers and the ambitions that shaped them--from their dizzying rise to their unforgettable fall More than a year after the nation began mourning the lives lost in the attacks on the World Trade Center, it became clear that something else was being mourned: the towers themselves. They were the biggest and brashest icons that New York, and possibly America, has ever produced--magnificent giants that became intimately familiar around the globe. Their builders were possessed of a singular determination to create wonders of capitalism as well as engineering, refusing to admit defeat before natural forces, economics, or politics. No one knows the history of the towers better than New York Times reporters James Glanz and Eric Lipton. In a vivid, brilliantly researched narrative, the authors re-create David Rockefeller's ambition to rebuild lower Manhattan, the spirited opposition of local storeowners and powerful politicians, the bold structural innovations that later determined who lived and died, master builder Guy Tozzoli's last desperate view of the towers on September 11, and the charged and chaotic recovery that could have unraveled the secrets of the buildings' collapse but instead has left some enduring mysteries. City in the Sky is a riveting story of New York City itself, of architectural daring, human frailty, and a lost American icon.

From the Inside Out: Harrowing Escapes from the Twin Towers of the World Trade Center

Their proposition sounded so simple that it took a few minutes to grasp its audacity. The four NYU undergrads--classic computer nerds--wanted to build a social network that would allow users to control the information they shared about themselves, instead of surrendering their privacy (and personal data) to big businesses like Facebook. They were hoping to raise \$10,000 in 30 days, enough to keep them in ramen and pizza for the summer in a basement in San Francisco while they coded. Their project was called "Diaspora." Apparently, the world had been waiting. Their 2010 Kickstarter campaign ended the first day with three backers. Before long they had raised \$200,000. In a matter of days, the Diaspora Four had received a global commission to re-bottle the genie of personal privacy. The ambitions of the Diaspora Four were underwritten by that heroic mix of optimism and naivete you only seem to have when

you're twenty, egged on by the elite of the digital community. But as the months wore on and the money wore out, they couldn't get there-coding failures, bad business decisions, over-reach and under-organization, and the inevitable conflicts of personality and goals. When Ilya committed suicide in the fall of 2011, they found out how much they had all been on their own all along.

Hotel 9/11

On the azure blue morning of 9/11 the skies were pronounced "severe clear," in the parlance of airline pilots; a gorgeous day for flying. Nearly 5,000 flights were cruising the skies over America when FAA Operations Manager Ben Sliney arrived at the Command Center for his first day on that job. He could never have anticipated the historic drama that was about to unfold as Americans who found themselves on the front lines of a totally unprecedented attack on our homeland sprang into action to defend our country and save lives. In this gripping moment-to-moment narrative, based on groundbreaking reporting, Lynn Spencer brings the inspiring true drama of their unflinching and heroic response vividly to life for the first time, taking us right inside the airliner cockpits and control towers, the fighter jets and the military battle cabs. She makes vital corrections to the findings of the 9/11 Commission Report, and reveals many startling, utterly unknown elements of the story. As a commercial pilot herself, for whom the attacks hit terribly close to home, she knew that the true scope and nature of the response so brilliantly improvised that morning by those in the thick of the action -- with so little guidance from those at the highest levels -- had not at all been captured by the news coverage or the 9/11 Commission. To get to the truth, she went on a three-year quest, interviewing hundreds of key players, listening to untold hours of tapes and pouring through voluminous transcripts to re-create each heart-stopping moment as it happened through their eyes and in their words as the drama unfolded. From the shocking moment at 7:59 a.m. that American 11 fails to respond to a controller's call, until the last commercial flight has safely landed and military jets rule the skies, all Americans will find themselves deeply moved and amazed by the grace and fierce determination of these steely men and women as they draw on all of their exquisite training to grasp, through the fog of war, what is happening, put their lives on the line, and mount an astonishing response. This beautifully crafted and deeply affecting account of the full story of their courageous actions is a vital addition to the country's understanding of a day that has forever changed our nation.

102 Minutes

On September 11, 2001, about 3,000 people were killed in the terrorist attacks on the United States. In New York City, seven buildings in the World Trade Center were destroyed, including Three World Trade Center, the hotel that connected the North and South Towers. Joyce Ng's *Hotel 9/11: An Oral History from Survivors of 3 World Trade Center* is the only book that chronicles the stories of the people who escaped from the Marriott World Trade Center hotel. Nearly 1,000 guests were registered to stay the hotel on September 11. Many stories that took place in the hotel are still unknown, but they provide significant insight into the history of 9/11. Within these pages, you will find vivid eyewitness accounts from the people who miraculously escaped from the hotel. The book contains oral histories from firefighters, economists, lawyers, hotel guests, hotel employees and business travelers. One of the stories of survival includes that of the author, Joyce Ng, who was traveling on a business trip to the World Trade Center. City in the Sky

At 8.46 am on September 11, 2001, 14,000 people were inside the Twin Towers in New York - reading emails, making calls, eating croissants over the next 102 minutes each would become part of the most infamous and deadly terrorist attack in history, one truly witnessed only by the people who lived through it - until now. Of the millions of words written about that unforgettable day when Al Qaeda attacked the western world, most have been from outsiders. New York Times reporters Jim Dwyer and Kevin Flynn have taken the more revealing approach - using real-life testimonies to report solely from the perspective of those inside the towers. *102 Minutes* is the epic account of ordinary men and women whose lives were changed forever in this kamikaze act of terrorism. This unique book about unique people, includes incredible stories of bravery, courage and overcoming unbelievable odds. Immortalised in this non-fiction masterpiece are the construction manager and his colleagues who pried open the doors and saved dozens of people in the north tower; the police officer who was a few blocks away, filing his retirement papers, but grabbed his badge and sprinted to the buildings; the window washer stuck in a lift fifty floors up

who used a squeegee to escape; and the secretaries who led an elderly man down eighty-nine flights of stairs. Chance encounters, moments of grace, a shout across an office shaped these minutes, marking the border between fear and solace, staking the boundary between life and death. Crossing a bridge of voices to go inside the infernos, seeing cataclysm and herosim one person at a time, Dwyer and Flynn tell the affecting, authoritative saga of the men and women - the 12,000 who escaped and the 2,749 who perished at Ground Zero on September 11th 2001 - as they made 102 minutes count as never before.
