Compelling Confessions is a collection of essays whose shared purpose is to offer an accessible interdisciplinary exploration of the social dynamics behind confessional discourse. As the contributors to this volume demonstrate, confession is ubiquitous in contemporary culture, not only within psychological or therapeutic frameworks or literary analysis, but also in internet discussion groups, in the criminal justice system, in political rhetoric, in so-called 'reality' and interview-style television programming, in writing pedagogy and, increasingly, in the testimonial strain observable in contemporary scholarship.

Take My Hand is an invitation to experience a year of preaching through the eyes of a first-year pastor. Andrew Taylor-Troutman reflects on his experience of ministry as a dynamic exchange between his theological education and the people in the pews. Each chapter consists of Taylor-Troutman's reflections about a particular aspect of living as a faith community and concludes with a sermon exploring similar themes and ideas. As this book journeys through the Christian liturgical year, Taylor-Troutman considers a wide range of contemporary church issues, including the role of children in worship and the communal practice of Sabbath. He discusses topics as diverse as the Rapture, the death penalty, and church league softball. Along the way, readers will laugh at Sunday morning bloopers, study biblical texts from new perspectives, wrestle with theological questions, and discover parallels between their own experience of faith and the life of this small rural congregation. More than just a retrospective summary of events, Take My Hand poignantly illustrates how a pastor's work on Sunday morning grows out of his or her engagement with the hopes and fears of daily life, and the inspiring faith of men, women, and children in a church. The Group Study Edition encourages people of different ages and experiences to discuss and enjoy the book, while applying insights to their own communities of faith.

A candid, feminist, and personal deep dive into the science and culture of pregnancy and motherhood Like most first-time mothers, Angela Garbes was filled with questions when she became pregnant. What exactly is a placenta and how does it function? How does a body go into labor? Why is breast best? Is wine totally off-limits? But as she soon discovered, it's not easy to find satisfying answers. Your obstetrician will cautiously quote statistics; online sources will scare you with conflicting and often inaccurate data; and even the most trusted books will offer information with a heavy dose of judgment. To educate herself, the food and culture writer embarked on an intensive journey of exploration, diving into the scientific mysteries and cultural attitudes that surround motherhood to find answers to questions that had only previously been given in the form of advice about what women ought to do—rather than allowing them the freedom to choose the right path for themselves. In *Like a Mother*, Garbes offers a rigorously researched and compelling look at the physiology, biology, and psychology of pregnancy and motherhood, informed by in-depth reportage and personal experience. With the curiosity of a journalist, the perspective of a feminist, and the intimacy and urgency of a mother, she explores the emerging science behind the pressing questions women have about everything from miscarriage to complicated labors to postpartum changes. The result is a visceral, full-frontal look at what's really happening during those nine life-altering months, and why women deserve access to better care, support, and information. Infused with humor and born out of awe, appreciation, and understanding of the female body and its strength, *Like a Mother* debunks common myths and dated assumptions, offering guidance and camaraderie to women navigating one of the biggest and most profound changes in their lives.

### **Like a Mother**

A rich and candid account of one woman's struggle to be a parent. About to turn 50, she is asked to take in and raise her partner Gemma's six-year-old niece. Unwilling and resentful of the task at the start, the author ultimately triumphs over adversity and tells her story with tenderness, humour and blunt honesty. *Loving Emma* will appeal to anyone who is part of a complicated family. Author Ortlip handles the topics of mid-life crises, substance abuse and problems of child-rearing with great aplomb.
