A Pocket History of Human Evolution, How We Became Sapiens, by Silvana Condemi and Fran ç ois Savatier (audio book 3.3 hours). This book is full of so-called “ science ” so I am going to summarize it in a way that the common person (you) can understand. Long, long, long, long ago human-like animals were developing into several distinct species.

A Pocket History of Human Evolution sur Apple Books

Fully researched and detailed exactly as much as it should be without becoming confusing or tiring, A Pocket History of Human Evolution gives us information on many aspects of our species' evolution, while at the same time laying out a timeline for it. This is a recommended read for anyone interested in the topic of human evolution.

A Pocket History of Human Evolution | 9781615196043

A Pocket History focuses on the “ progressive stages of hominization, the evolutionary transformation of prehuman forms into Homo (including the cultural aspect of becoming human. ” Culture, argue Condemi and Savatier, is key. Culture modified biology, which in turn led to more culture. Child-rearing changed because our physiology changed.
