The Call of the Wild

The Yorkshire Shepherdess

The #1 New York Times – bestselling author of All Creatures Great and Small reflects on the rewards of training the next generation of veterinarians. As an aging James Herriot begins to see more house pets than livestock, the challenge of treating animals—and reassuring their owners—provides plenty of excitement, mystery, and moments of sheer delight. After building up his own practice, the renowned country vet begins to teach a new generation about a business both old-fashioned and very modern. He watches with pride as his own children show a knack for medicine, and remarks on the talents and quirks of a string of assistants. There is no perfecting the craft, since people and their animals are all remarkably different, but Herriot proves that the best healers are also the most compassionate.

All Creatures Great and Small

The compelling true story that inspired the hugely successful major ITV drama series HOME FIRES – now in its second season. The Second World War was the WI's finest hour. The whole of its previous history - two decades of educating, entertaining and supporting women and campaigning on women's issues - culminated in the enormous collective responsibility felt by the members to 'do their bit' for Britain. With all the vigour, energy and enthusiasm at their disposal, a third of a million country women set out to make their lives and the lives of those around them more bearable in what they described as 'a period of insanity'. Through archive material and interviews with many WI members, Julie Summers takes us behind the scenes, revealing their nitty-gritty approach to the daily problems presented by the conflict. Jambusters is the fascinating story of how the Women's Institute pulled rural Britain through the war with pots of jam and a spirit of make-do-and-mend.

The Lord God Made Them All

The first two memoirs in the New York Times – bestselling series from an English veterinarian—and the basis for the Masterpiece series on PBS. All Creatures Great and Small: In the rolling dales of Yorkshire—a simple, rural region of Northern England—a young veterinarian from Sunderland joins a new practice. A stranger in an unfamiliar land, James Herriot must quickly learn the odd dialect and humorous ways of the locals, master outdated equipment, and do his best to mend, treat, and heal pets and livestock alike. All Things Bright and Beautiful: After his first day on the job, Herriot 's mentor warns him that the life of a country veterinarian is full of small triumphs and big disasters, but that he 'd never be bored. From night visits to drafty barns during freezing Northern England winters to the beautiful vitality of rural life in the summertime to the colorful menagerie of animals—and their owners—that pass through his office, Herriot experiences new challenges and joys every day. In these pages, Herriot trains under his eccentric boss in a rustic English village, courts the woman that becomes his wife, and meets the people he would come to write about for a lifetime. This witty and heartwarming collection, based on the author 's own experiences, became an international success, winning over animal lovers everywhere. Perhaps better than any other writer, Herriot reveals the ties that bind us to the creatures in our lives. Praise for All Creatures Great and Small: “ One of the funniest and most likeable books around. ” —The Atlantic “ Refreshingly original . . . Hilarious, touching, athletic and warming . . . Dr. Herriot 's characters . . . rival any from British fiction. ” Los Angeles Times

For over forty years, generations of readers have thrilled to Herriot's marvelous tales, deep love of life, and extraordinary storytelling abilities. For decades, Herriot roamed the remote, beautiful Yorkshire Dales, treating every patient that came his way from smallest to largest, and observing animals and humans alike with his keen, loving eye. In All Creatures Great and Small, we meet the young Herriot as he takes up his calling and discovers that the realities of veterinary practice in rural Yorkshire are very different from the sterile setting of

veterinary school. Some visits are heart-wrenchingly difficult, such as one to an old man in the village whose very ill dog is his only friend and companion, some are lighthearted and fun, such as Herriot's periodic visits to the overfed and pampered Pekinese Tricki Woo who throws parties and has his own stationery, and yet others are inspirational and enlightening, such as Herriot's recollections of poor farmers who will scrape their meager earnings together to be able to get proper care for their working animals. From seeing to his patients in the depths of winter on the remotest homesteads to dealing with uncooperative owners and critically ill animals, Herriot discovers the wondrous variety and never-ending challenges of veterinary practice as his humor, compassion, and love of the animal world shine forth. Winner, American Library Association Booklist 's Top of the List, 2019 Adult Nonfiction Acclaimed writer Marie Arana delivers a cultural history of Latin America and the three driving forces that have shaped the character of the region: exploitation (silver), violence (sword), and religion (stone). " Meticulously researched, [this] book 's greatest strengths are the power of its epic narrative, the beauty of its prose, and its rich portrayals of character...Marvelous " (*The Washington Post*). Leonor Gonzales lives in a tiny community perched 18,000 feet above sea level in the Andean cordillera of Peru, the highest human habitation on earth. Like her late husband, she works the gold mines much as the Indians were forced to do at the time of the Spanish Conquest. Illiteracy, malnutrition, and disease reign as they did five hundred years ago. And now, just as then, a miner 's survival depends on a vast global market whose fluctuations are controlled in faraway places. Carlos Buergos is a Cuban who fought in the civil war in Angola and now lives in a quiet community outside New Orleans. He was among hundreds of criminals Cuba expelled to the US in 1980. His story echoes the violence that has coursed through the Americas since

before Columbus to the crushing savagery of the Spanish Conquest, and from 19th- and 20th-century wars and revolutions to the military crackdowns that convulse Latin America to this day. Xavier Albó is a Jesuit priest from Barcelona who emigrated to Bolivia, where he works among the indigenous people. He considers himself an Indian in head and heart and, for this, is well known in his adopted country. Although his aim is to learn rather than proselytize, he is an inheritor of a checkered past, where priests marched alongside conquistadors, converting the natives to Christianity, often forcibly, in the effort to win the New World. Ever since, the Catholic Church has played a central role in the political life of Latin America—sometimes for good, sometimes not. In this “timely and excellent volume” (NPR) Marie Arana seamlessly weaves these stories with the history of the past millennium to explain three enduring themes that have defined Latin America since pre-Columbian times: the foreign greed for its mineral riches, an ingrained propensity to violence, and the abiding power of religion. *Silver, Sword, and Stone* combines “learned historical analysis with in-depth reporting and political commentary[and] an informed and authoritative voice, one that deserves a wide audience” (The New York Times Book Review).
