What we do know is that, from soon after the re-foundation of the monastery in Two monks who were involved, and contributed to the beekeeping journals of. This book touches on all aspects of his beekeeping life at Buckfast Abbey, including

Homepage [www.buckfastabbey.org]

In common with other medieval monasteries, it's likely that bees were kept at Buckfast Abbey as a valuable source of sugar and wax as well as for some medicinal purposes. But it was only after the monastery was re-founded in 1882, that beekeeping there can be said to have truly come into its own.

Brother Adam — 1950 — Beekeeping at Buckfast Abbey

Bee-keeping at Buckfast Abbey with a section on meadmaking 4th ed. This edition published in 1987 by Northern Bee in Hebden Bridge.

Beekeeping at Buckfast Abbey: Amazon.co.uk: Brother Adam

In common with other monasteries of the medieval period, it is likely that bees were kept at Buckfast in those days, though we have no records to prove it. Monasteries often kept bees as a valuable source of sugar and also wax for making candles.

CBKA Presents A History of Beekeeping at Buckfast Abbey by

Brother Adam was undeniably one of the world's leading authorities on the races and strains of honeybees. His world-wide travel in search of bees and his beekeeping at Buckfast Abbey have inspired vast admiration. In this work we learn of the philosophy, the science and the practice of his life's work - honey production and bee breeding.

Buckfast Abbey

The Buckfast bee is a honey bee a cross of many species of bees into a stable race developed by "Brother Adam", (born Karl Kehrle on 3 August 1898 in Germany), who was in charge of beekeeping at Buckfast Abbey, where the bees are still bred today. In the early 20th century bee populations were being decimated by Isle of Wight disease. This condition, later called "acarine" disease, after the

Bees Past & Present - Buckfast Abbey

The Buckfast Abbey hive is similar to the Modified Dadant, but accommodates twelve frames instead of eleven. The honey supers are half as deep as the brood boxes, i.e. 15.2 cm (6 in.), and a full super contains about 25 kg (55 lb.) of honey.

Beekeeping At Buckfast Abbey by Brother Adam

The Buckfast bee was developed by Brother Adam (1898-1996) at Buckfast Abbey, Devon, England. Brother Adam, whose civil name was Karl Kehrle, was born in Mittelbiberach, Germany and became a monk at the age of eleven when he was sent to the monastery by his mother.
