Bushcraft with Kids

Woodsman Felix Immler reveals how we can build a comfortable camp in the wilderness using nothing more than a pocket knife. Simple natural materials are used for making a waterproof roof, a chair, a bed, a table, a fridge, and an oven, as well as for carving spoons, knives, and bowls. You can even grill a chicken on a self-made, water-driven skewer. The book is full of ideas for exciting and thrilling activities, suitable for families and teens as well as adult explorers.

The Land of Zinj

Access Free Bushcraft The Bow Drill Bible

Winter in the Wilderness is a handbook for those who want to explore cold-weather camping and those who might find themselves in need of this critical information during an unexpected winter's night out. It emphasizes the benefits of enriching and deepening our connection with the outdoors.

Water and Fire Survival Handbook

Disconnect from digital and reconnect with your inner caveman. BUILD. COOK. HUNT. HEAT. SURVIVE. COULD YOU THRIVE IN THE WILDERNESS? The most primitive human skills unite us all, yet we live in an age more detached than ever. Reconnect with the earth and learn how to build things by hand from scratch, guided by the creator of the world's most popular primitive technology YouTube channel, John Plant. Watched by millions online, this is the first time Primitive Technology's ancient methods, rooted in fire, stone, earth, water and plants, have been comprehensively laid out in a book. Through illustrations, photographs and instruction, learn how to create something useful from natural resources and become skilled in the art of fire starting, pottery making, shelter building, spear throwing, basket crafting and much more. Whether you are a seasoned survivalist, a lover of the outdoors or an armchair admirer, these primitive crafts teach us all something about the fundamentals of human life on earth.

Australian Bushcraft

Most people have heard of pyrite, the brassy yellow mineral commonly known as fool's gold. But despite being the most common sulfide on the earth's surface, pyrite's bright crystals have attracted a noteworthy amount of attention from many different cultures, and its nearly identical visual appearance to gold has led to tales of fraud, trickery, and claims of alchemy. 'Pyrite' occupies a

unique place in human history: it became an integral part of mining lore in America during the 19th century, and it has a presence in ancient Sumerian texts, Greek philosophy, and medieval poetry, becoming a symbol for anything overvalued. In 'Pyrite', geochemist and author David Rickard blends basic science and historical narrative to describe the many unique ways pyrite makes appearances in our world. He follows pyrite back through the medieval alchemists to the ancient Arab, Chinese, Indian, and Classical worlds, showing why the mineral was central to the development of these various ancient cultures. 'Pyrite' can be tracked to the beginnings of humankind, and Rickard reveals how it contributed to the origins of our art and storytelling and even to our biologic development as humans.0But pyrite has unique scientific properties as well: the book distills how oxidation makes fool's gold look like a precious metal, and shows how pyrite can choke out oxygen from water, creating large "dead zones" in our oceans. Rickard analyzes pyrite's role in manufacturing sulfuric acid, a compound used for everything from cleaning drains to fertilizing crops. Its influence extends from human evolution and the formation of societies, through science and industry, to our understanding of ancient, modern, and future earth environments. Energetic and accessible, Pyrite is the first book to show readers the history and science of one of the world's most fascinating minerals.

Field & Stream

Bear Grylls is a man who has always sought the ultimate in adventure. Growing up on the Isle of Wight, he was taught by his father to sail and climb at an early age. As a teenager he found identity and purpose through both mountaineering and martial arts, which led the young adventurer to the foothills of the mighty Himalaya and a grandmaster's karate training camp in Japan. On returning home, he embarked upon the notoriously gruelling

selection course for the British Special Forces to join 21 SAS - a journey that was to push him to the very limits of physical and mental endurance. Then, in a horrific free-fall parachuting accident, Bear broke his back in three places. It was touch and go whether he would ever walk again. However, only eighteen months later Bear became one of the youngest ever climbers to scale Everest, aged only twenty-three. But this was just the beginning of his many extraordinary adventures . . . Known and admired by millions, Bear Grylls has survived where few would dare to go. Now, for the first time, Bear tells the story of his action-packed life. Gripping, moving and wildly exhilarating, *Mud, Sweat and Tears* is a must-read for adrenalin junkies and armchair adventurers alike.

Prepare for Anything (Outdoor Life)

The Art of Fire

An essential guide to everything you need to stay sheltered, fed, healthy, and safe in the backcountry Organized around the six essentials of survival (shelter, water, food, fire, comfort and health, and navigation), *Wilderness Survival Handbook* covers 100 skills and techniques, including preserving fire, building pit shelters, toolmaking, stoneboiling cookery, and trapping and hunting animals with handmade tools and weapons. By mastering these skills, you will be able to survive with few tools or provisions in any wilderness setting--forest, plain, desert, or tundra--in nearly any part of the world.

Tiny SURVIVAL GUIDE

"Primitive Technology: A Boiok of earth Skills is a sharing of ideas - the philosophies, the history, and the personal stories by the

authorities on primitive technology from the pages of The Bulletin of Primitive Technology. Included are instructions for creating fire and tools of wood, stone, and bone, as well as fiber adhesives, projectiles, art, and music."--Back cover.

Sniper Training

Whether you ' re lost in the woods, facing an armed insurrection, or preparing for a hurricane, the experts at Outdoor Life magazine are the people you want on your side. This book is the one you need if you want to protect your family, save yourself, and prevail over any danger. Your Go-To Guide for Surviving Anything GET READY, GET SET, SURVIVE! You're lost in the woods without food or water. Confronted by an armed assailant in the dead of night. Forced to outrun a deadly tornado. Don't worry - The Ultimate Survival Manual has you covered. Out in the Wild From navigating with a compass to fending off a mountain lion, learn to prevail in the forests, deserts, and open oceans like an expert outdoorsman. During a Disaster Whether it's a towering tsunami or a blazing wildfire, bad things happen every day. Know what to do when the going gets tough. In an Urban Crisis Arm yourself with the latest self-defense moves, weapons tips, and home-protection tactics, plus crucial strategies for handling bad guys and bad situations at home and abroad.

Primitive Technology II

Published in the year 296, The Land of Zinj is a valuable contribution to the field of History.

The Global Guide to Animal Protection

Bushcraft - The Bow Drill Bible.

There are so many people who have perished in the Australian bush, from the early explorers to the present, who might have survived had they had the necessary survival skills. Australian Bushcraft explains how to make use of natural materials for both survival and pleasure. It describes many of the skills used by primitive man, and adds to these skills necessary for survival today. Australian Bushcraft is as relevant today as it was when it was first published, for those who, by choice or misadventure find themselves thrown on their resources for survival in Australia's vast wilderness areas.

The U.S. Navy SEAL Survival Handbook

This manual is organized as a reference for snipers and leads the trainer through the material needed to conduct sniper training. Subjects include equipment, weapon capabilities, fundamentals of marksmanship and ballistics, field skills, mission planning, and skill sustainment.

A Guide to Wilderness Survival

An expert's advice on how to survive anything, anywhere.

Bushcraft - Spoon Carving

Fire can fascinate, inspire, capture the imagination and bring families and communities together. It has the ability to amaze, energise and touch something deep inside all of us. For thousands of years, at every corner of the globe, humans have been huddling around fires: from the basic and primitive essentials of light, heat, energy and cooking, through to modern living, fire plays a central

Access Free Bushcraft The Bow Drill Bible

role in all of our lives. The ability to accurately and quickly light a fire is one of the most important skills anyone setting off on a wilderness adventure could possess, yet very little has been written about it. Through his narrative Hume also meditates on the wider topics surrounding fire and how it shapes the world around us.

Wilderness Survival Handbook

Presents a guide on locating, identifying, picking, and preparing wild edible foods grown in North America.

The Book of Camp-Lore and Woodcraft

Kuksa are beautiful wooden drinking cups traditionally 'Duodji' crafted by the Sami people of northern Scandinavia. Learn to hand carve a kuksa with this step by step guide to completing the process of carving and finishing the kuksa. Includes four kuksa templates complete with measurements for you to follow and learn with: * Fan Tail. * Rounded Tail 2 Holes* Whale Tail 1 Hole.* Drop Nose. Advanced instruction on embellishing with antler and scrimshaw, how to deal with cracks and oiling a kuksa. .

Bushcraft

Bushcraft - Spoon Carving is a book for anyone wanting to learn the art of spoon carving. The clear step-by-step instructions and full colour photographs show you the full process from start to finish. Including several different spoon templates to get you started. Packed with practical tips and respect for primitive technology, this book is for everyone interested in learning traditional skills.

Winter in the Wilderness

Access Free Bushcraft The Bow Drill Bible

Bushcraft - The Hand Drill Bible. Being able to make fire using Hand Drill is a fundamental skill of primitive technology and used as a survival skill in Bushcraft. The complete guide for Hand Drill Friction fire. This pocket field guide is 5.5" x 8.5" and fits perfectly in any pack or jacket pocket. Colour photos help guide you through every step of the hand drill process, from material selection to blowing your ember into flame. Never before have such detailed instructions been available with information on how to make fire by friction using a hand drill set. The author thoroughly explains every facet of the process from making the hand drill set to creating a fire. Making hand drill friction fire easy even for the first timer. With experience of over 10 years in Bushcraft and constructing hundreds of hand drill sets, now he reveals the methods and techniques in Bushcraft - The Hand Drill Bible. Filled with history, humour and practical advice invaluable for anyone interested in making fire by friction. Bushcraft - The Hand Drill Bible introduces the history of man's relationship with fire, how to create fire using the ancient method of hand drill and much more. Including clear photographs, diagrams and charts on such things as wood selection for hand drill material and types of firewood to burn. The book doesn't just cover how to make a hand drill fire, it also includes how to make a tinder bundle and a fire lay ensuring that you can start and maintain the fire created. The author also gives advice on developing your new fire making skills and with a huge problem-solving index, ensures any problems or obstacles can be easily overcome. This book is a must have for anyone who wants to master the most primitive of all fire making tools.

Pyrite

This book provides practical advice on skills required for prolonged stays in the wilderness, using a minimum of materials and tools. Includes information on shelter construction, fire technology,

Access Free Bushcraft The Bow Drill Bible

proper care and use of axes, saws and knives, and much more.

Northern Bush Craft

Volume 1 Clothing & Equipment. Tool Use. Carving projects. Fire. Building a fire lay. Cooking. Animal tracking. Volume 2 Hunting. Shelter building. Navigation. Foraging. Water. Containers. Cordage. Running courses. A guide for parents and teachers. Whether you're a total beginner or more experienced, this book covers everything you need for bushcrafting with kids. Each topic starts with basic skills for young children and progresses to more challenging activities for older kids. This book is ideal for Forest schools, Scouts and families wanting to learn skills safely. It even covers running your own bushcraft courses providing information and example templates to use.

The 10 Bushcraft Books

"The 10 Bushcraft Books" is, as the title suggests, literally all ten of Richard Graves' "Bushcraft Handbooks" bound together as a convenient single volume, perfect for slipping into your rucksack. A true classic of the genre and out of print for more than forty years, "The 10 Bushcraft Books" is back! This edition is a perfect replica of the First Edition, with the same size, formatting, layout, page count and illustrations, but in a softcover format. Unlike the poorly-OCR'd, abridged, censored and dumbed down modern US market reprint edition titled "Bushcraft : The Ultimate Guide to Survival in the Wilderness", this edition of Graves' "The 10 Bushcraft Books" is the REAL DEAL, presented exactly as the author intended, with no deletions or omissions. It is the **ONLY COMPLETE** volume of Richard Graves' work available today. Remember: If it doesn't have the orange and black cover, it's incomplete and dumbed down. Don't waste your money buying anything else. The term

Access Free Bushcraft The Bow Drill Bible

"Bushcraft" describes the activity of how to make use of natural materials found locally in any area. It includes many primitive skills, and to these are added modern skills necessary for survival such as time and direction and the provision of more modern camp comforts and equipment. The practice of bushcraft develops in an individual a remarkable ability to adapt quickly to a changing environment. Because this is so, the activity is a valuable counter to today's specialisation, and it is particularly significant in youth training work. The author of "The 10 Bushcraft Books", Richard Graves, is a member of the Irish literary family of that name. He is also the author of: "Bushcraft: How to live in Jungle and Bush" "Survival Hints", a pamphlet which was included in all Allied jungle survival kits in the Pacific during WWII The Bushcraft Handbook "Ropes and Cords" The Bushcraft Handbook "Huts and Thatching" The Bushcraft Handbook "Bush Campcraft" The Bushcraft Handbook "Food and Water" The Bushcraft Handbook "Fire Making" The Bushcraft Handbook "Knots and Lashings" The Bushcraft Handbook "Traps and Tracking" The Bushcraft Handbook "Snares and Traps" The Bushcraft Handbook "Travel and Gear" The Bushcraft Handbook "Time and Direction" all authoritative works on bushcraft and the art of bush and jungle survival. An enthusiastic bushwalker, skier and pioneer of white-water canoeing, Richard Graves foresaw how a knowledge of bushcraft could save lives in the Second World War. To achieve this end, he initiated and led the Australian Jungle Rescue Detachment, assigned to the American Far East Air Force. This detachment of 60 specially selected A.I.F. soldiers successfully effected more than 300 rescue missions, most of which were in enemy-held territory, without failure of a mission or loss of a man. An essential preliminary for rescue is survival, and it was for this purpose that the notes for these books were written. These notes were later revised and prepared for a School in Bushcraft which was conducted for nearly 20 years. As far as is known, "The 10 Bushcraft Books" are unique. There is nothing quite like them, nor

is any collection of bushcraft knowledge under one cover as comprehensive.

Canoe Camping

Are you preparing for the collapse of society? Concerned about making it through the next category 4 hurricane? Looking to be less dependent on an increasingly fragile infrastructure? If so, you are definitely not alone. In this timely follow-up to *The Ultimate Survival Manual*, *Prepare for Anything* is packed with hundreds of gear recommendations, skills, and survival tips and strategies to help you be ready for anything. From an economic collapse to natural disasters to government surveillance, this book has you covered. **GEAR UP** Learn where to begin, from stocking and storing your food and water correctly to buying the right gear for your area, as well as how to create the perfect Bug-Out Bag—and emergency plan—for any situation. **GET SKILLED** Fortune favors the prepared—and the multi-talented. When disaster strikes, will you know how to perform first aid, defend your home, and remain self-reliant? Learn skills that will get you through everything from a power outage to a hurricane to the apocalypse. **SURVIVE ANYTHING** If the worst happens what happens next? Your survival, if you've read this book. You'll learn how to handle everything from organizing a community and protecting your homestead to growing food, purifying water, and even making weapons. *Prepare for Anything* will take you through potential threats and teach you how to become prepared for them. This is the book for the preppers all over America. With hands-on hints, easy-to-use checklists, and engaging first-person stories to break down the crucial do's and don'ts, you know how to ride out whatever Mother Nature, the government, foreign powers, or modern society can throw at you.

The Essentials of Archery

Civilizations come and go and they don't always go quietly. In our global civilization, the consequence of it all crashing is going to be far-reaching, and with nowhere to hide. With so many moving parts and a lack of long-term stewardship by our leaders, odds are good that you will want to make at least a few preparations but the question you often ask is: how? That's where I come in. In *Beyond Collapse*, we not only get you prepared for such an event, but we also help you and your fellow survivors come together, defend one another, preserve what may be lost and rebuild civilization together. Unlike most books of this type, we don't require a paramilitary mindset, tinfoil headgear, bunkers, or living "off-grid." Everything in here is geared towards gaining skills and resources that are just as useful and socially acceptable in peaceful times as they will be when society and civilization crashes. You will find this book useful for beginners, or those who have been preparing for a long time. The best part is, you will find it useful even if civilization holds up just fine.

Beyond Collapse

Tim Gent shares his enthusiasm for and experience of travelling and camping from an open canoe. He covers planning a journey; selecting the right canoe and equipment for the journey you are planning and how to pack your canoe. All the traditional skills of campcraft such as fire lighting, cooking on an open fire, campsite selection and many more are explored, as are the more modern lightweight options. If you read Tim's book you will be inspired to paddle off into the distance and experience the joys of a waterborne nomadic existence - even if only for a break from our modern sedentary lifestyle.

Culture Wars and Enduring American Dilemmas

Learning to make fire without matches is an ancient human skill. Making a friction fire is a fun and challenging endeavor. There is no substitute for hands-on practice and keeping a record of your experiences will help you to get the most out of your time in the woods. FIRECRAFT is the first in a series of lined journals dedicated to those practicing bushcraft skills. Primitive and alternative fire starting methods include: Bow and drill Hand drill Pump drill Bamboo fire saw Fire piston Fire roll or R ü diger roll Fire plow Inuit strap drill Fire thong Sun glass - manufactured and improvised Use the 120 lined pages of FIRECRAFT to track your experiments: Fire starting methods Materials used Source and condition of materials Date and location Weather conditions Success and failure rates Degree of difficulty Detailed sketches Fire lay configurations Unexpected results Ideas for further testing Taking notes will accelerate your learning and put you on the road to mastery. Over time, you will accumulate a detailed record of first-hand knowledge about what truly works and what does not. Your recorded observations in your FIRECRAFT journal could save your life one day.

Pathfinders

The Ashley Book of Knots

This is a new release of the original 1942 edition.

The Ultimate Survival Manual (Paperback Edition)

The Stone Age is the common denominator of mankind, and through experimental archeology--the relearning and replication of ancient skills--we take a step of discovery and understanding into this rich past. In this collection, drawn from the pages of the Bulletin of Primitive Technology, learn to create tools to fabricate more complex technologies; master the arts of the bow and arrow; build a shelter or fashion clothing from fibers or buckskin. Primitive Technology II: Ancestral Skills provides the guide to rediscovery of the skills and crafts that bind us all into this great human family. David Wescott is author of Camping in the Old Style and editor of Primitive Technology: A Book of Earth Skills. Formerly education

director for the Boulder Outdoor School, he has been a leading figure in wilderness education for more than thirty years. He lives with his wife in Rexburg, Idaho.

The Self-Reliance Manifesto

É As a boy, the author dreamed of wonderful municipal playgrounds, of organizations giving the boys opportunity to camp in the open, of zoological and botanical gardens planned and adapted to the understanding of youth. His busy life as a civil engineer, surveyor, and work in the open gave him no opportunity to develop his dreams, but at the end of a five year tour of the United States and Canada, made over fifty years ago, he drifted into New York City and was shocked beyond expression by the almost total lack of breathing spaces for our boys, in the greatest of American cities. True, it then had Central Park; but fifty years ago Central Park was out among the goats, only to be reached by a long and tiresome horse car journey. This lamentable state of affairs caused the writer so much real pain and concern that he then and there inaugurated a personal crusade for the benefit of the boys, a crusade with the avowed object of winning for them the peoples' interest in the big outdoors. The most difficult part of his task was to convince the men of the swivel chairs that boys' leisure should be spent in the open; that the blue sky is the only proper roof for a normal boy's playground; also that the open spaces are the places where God intended young people to live, work and play. No great crusade, no great movement of any kind is one man's work, nevertheless, every successful movement must have one enthusiast in the front rank, one who knows the trail and comprehensively envisions the objective Ñ objectum quod complexum. Others may and will join him, and occasionally spurt ahead of the leader, like the hare in the fable, but the enthusiast keeps right on just the same. Pray do not understand by this that the writer claims that he alone

Access Free Bushcraft The Bow Drill Bible

is responsible for this bloodless revolution. No, no, his propaganda work did however win for him the moral support of the editorial staff of St. Nicholas, Youth's Companion and Harpers. Later he was openly backed and encouraged by such distinguished sportsmen as President Roosevelt, his chief forester Governor Pinchot, and his Chief of Staff Major General Bell. While the stalwart men of the Camp Fire Club of America worked hand and glove with him, all similar organizations failed not in voicing their approval. Furthermore he was always helped by his loyal friends of the daily press. Many famous writers lent their influence, all working consciously or unconsciously to help the great cause of boyhood.

Firecraft

Based on the survival training techniques of the Special Air Service.

Bushcraft - Kuksa Carving

As the elite of the military elite, U.S. Navy SEALs know that they can be deployed anywhere in the world at a moment 's notice. Whether in a temperate, tropical, arctic, or subarctic region, they might find themselves alone in a remote area with little or no personal gear. In The U.S. Navy SEAL Survival Handbook, decorated Navy SEAL Team Six member Don Mann provides a definitive survival resource. From basic camp craft and navigation to fear management and strategies for coping with any type of disaster, it is an essential resource for all outdoorspeople. Complete with 150 color photographs, this comprehensive guide includes life-saving information on: - Making weapons and tools - Finding water - Wildlife for food - Making shelters - Signaling - Sea survival - And much more

Mud, Sweat and Tears

The Conovers are writers, educators and guides who have safely escorted thousands of wilderness adventurers through the North. Now you can take their expertise with you, wherever you go. This is your guide to traditional winter camping. Learn how to stay warm in extreme temperatures. Get practical advise on setting up tents and choosing the right gear. Discover tips on reading lake- and river-ice conditions and more. It's all in this essential book!

The Swiss Army Knife Book

SAS Survival Handbook

"Irene Taviss Thomson gives us a nuanced portrait of American social politics that helps explain both why we are drawn to the idea of a 'culture war' and why that misrepresents what is actually going on." ---Rhys H. Williams, Professor and Chair, Department of Sociology, Loyola University Chicago "An important work showing---beneath surface conflict---a deep consensus on a number of ideals by social elites." ---John H. Evans, Department of Sociology, University of California, San Diego The idea of a culture war, or wars, has existed in America since the 1960s---an underlying ideological schism in our country that is responsible for the polarizing debates on everything from the separation of church and state, to abortion, to gay marriage, to affirmative action. Irene Taviss Thomson explores this notion by analyzing hundreds of articles addressing hot-button issues over two decades from four magazines: National Review, Time, The New Republic, and The Nation, as well as a wide array of other writings and statements from a substantial number of public intellectuals. What Thomson finds might surprise you: based on her research, there is no single cultural divide or cultural source that can account for the positions that have been adopted. While issues such as religion,

homosexuality, sexual conduct, and abortion have figured prominently in public discussion, in fact there is no single thread that unifies responses to each of these cultural dilemmas for any of the writers. Irene Taviss Thomson is Professor Emeritus of Sociology, having taught in the Department of Social Sciences and History at Fairleigh Dickinson University for more than 30 years. Previously, she taught in the Department of Sociology at Harvard University.

Bushcraft - The Hand Drill Bible.

Raising awareness of human indifference and cruelty toward animals, *The Global Guide to Animal Protection* includes more than 180 introductory articles that survey the extent of worldwide human exploitation of animals from a variety of perspectives. In addition to entries on often disturbing examples of human cruelty toward animals, the book provides inspiring accounts of attempts by courageous individuals--including Jane Goodall, Shirley McGreal, Birute Mary Galdikas, Richard D. Ryder, and Roger Fouts--to challenge and change exploitative practices. As concern for animals and their welfare grows, this volume will be an indispensable aid to general readers, activists, scholars, and students interested in developing a keener awareness of cruelty to animals and considering avenues for reform. Also included is a special foreword by Archbishop Desmond Tutu, urging readers to seek justice and protection for all creatures, humans and animals alike.

Snow Walker's Companion

Water and Fire Survival Handbook — Your Guide to Finding Safe Drinking Water and Creating Fire in Almost Any Survival Situation, from a New York Times Bestselling Author and Survival Expert New York Times bestselling author and survival school

founder Tim MacWelch shows us how to find and provide safe drinking water in survival situations, and how to start a camp fire with a wide range of techniques and materials. In *Water and Fire Survival Handbook*, MacWelch illustrates and guides readers through the common supplies needed for gathering water and the knowledge necessary to know where to look to obtain water. Learn how to find, disinfect, avoid cross-contamination, and store water in a wide range of environments and survival situations, and also, learn how to get by with less than you might have imagined. And since water and fire are closely tied in survival, you ' ll also learn how to start a fire with modern methods (like matches and lighters) as well as ancient methods (such as friction fire techniques and focusing sunlight). Throughout this detailed handbook you ' ll find:

- How to locate water on any landscape
- Effective ways to collect precipitation
- Traditional and modern water disinfection techniques
- How to find the necessary fuels to start fires
- The best ways to use modern fire ignition methods, like ferrocerium rods and lighters
- Primitive fire starting methods like the bow drill, flint & steel and the bamboo fire saw
- How to maintain a fire once it ' s established and how to make sure it ' s out when you are done

Water and Fire Survival Handbook will give readers much more than just the knowledge to light a fire and provide safe drinking water; it provides tools to become a problem-solver and think outside the box in any situation.

Primitive Technology

How To Survive Almost Anything! What will YOU do WHEN disaster strikes? Every day people like you (and me) are thrown into life and death situations without any warning. Unfortunately some die due to lack of knowledge, skill and preparation. But you don't have to. *Tiny Survival Guide* is treasure chest full of the life-saving tips you need to survive almost anything - all in a compact, credit card-sized, micro-guide. Carry It Everywhere - All The Time.

Access Free Bushcraft The Bow Drill Bible

When when technology fails and you don't have anything, but your wallet, Tiny Survival Guide is there! At less than one ounce Tiny Survival Guide is designed for every day carry (EDC) in your wallet, pocket, purse, pack, glove box - just about ANYWHERE! A Life Insurance Policy in Your Pocket. You'll Learn How To Survive These Threats: Wilderness Mishaps / Civil Unrest / Surprise Attacks / Natural Disasters / Mass Destruction: Nuclear, Biological, Chemical Disasters (and Attacks) / Abduction / Hostage and Terror Threats / Active Shooters / Vehicle Accidents / Hiking, Camping and Hunting Emergencies / And MORE. INSIDE You Will Find: 174 Expert Tips / 101 Detailed Illustrations / 67 Life-Saving Skills / 24 Essential Gear Checklists / 10 "Killer" Mistakes You MUST Avoid. How Can We Fit SO MUCH - In Such a Tiny Guide? Good question. Using a special 3-row by 12-column folding process and high-resolution printing on special paper, we have been able to condense the equivalent of a book nearly 75 pages into a guide with the footprint of a credit card, making Tiny Survival Guide the first publication of its kind. One Tough Guide! Tiny Survival Guide is designed in the USA, using durable tear and weather-repelling, hybrid materials found in the world's toughest wilderness maps. Who Is Tiny Survival Guide For? According to FEMA, the majority of Americas do NOT have an emergency plan, sufficient supplies, knowledge or the training needed to survive a major disaster - so, Tiny Survival Guide is a great tool for just about anyone! It's also perfect for folks who like to hike, camp, fish, hunt, backpack, travel or explore new wilderness or urban destinations.

Primitive Technology

Longtime wilderness educator Mors Kochanski has dedicated his life to learning and teaching about the lore of the forest. With clear instructions, extensive use of diagrams and a color photo supplement, this comprehensive reference includes all the practical

Access Free Bushcraft The Bow Drill Bible

skills and knowledge essential for you to survive and enjoy the wilderness: * Lighting and maintaining a fire * Chopping wood and felling a tree * Creating a shelter and keeping warm * Safe use of the axe and bush knife * Plants and animals important for survival * Food, water and outdoor cooking * Wilderness first aid. * This bestseller should be required reading for hikers, campers, hunters, foresters, backwoods adventurers, scouts, youth groups--anyone with a passion for the outdoors.
