The chili pepper, from Nahuatl *ch?lli*, is the fruit of plants from the genus *Capsicum* which are members of the nightshade family, *Solanaceae*. Chili peppers are widely used in many cuisines as a spice to add heat to dishes. The substances giving chili peppers their intensity when ingested or applied topically are capsaicin and related compounds known as capsaicinoids. Chili peppers originated in Mexico. After the Columbian Exchange, many cultivars of chili pepper spread across the world
