Since 9/11, the war in Afghanistan and the invasion of Iraq, the West has been fighting a "War on Terror", through force and through the building of new societies in the region. In this clear and devastating account, with unparalleled access and intimate knowledge of the political players, Descent into Chaos chronicles our failure. Having reported from central Asia for a quarter of a century, Ahmed Rashid shows clearly why the war in Iraq is just a sideshow to the main event. Rather, it is Pakistan, Afghanistan, and the five Central Asian states that make up the crisis zone, for it is here that terrorism and Islamic extremism are growing stronger. Documenting with precision how intimately linked Pakistan is with the Taliban and other extremist movements, while remaining the US's main ally in the region, Rashid brings into focus the role of many regional issues in supporting extremism, from nuclear programmes to local rivalries, ineffectual peace-keeping to tyrannical rulers. For Rashid, at the heart of the failure in Iraq is the US's refusal to accept the need to build nations. Ambitious and urgent, analyzing events, policies and personalities across the largest landmass in the world, Descent into Chaos chronicles with chilling accuracy why Islamic extremism is now stronger than ever.

Set deep in the Milky Way galaxy, the beautiful planet, Kander, has been inhabited only by the Kalmar, a race of Alphas and Omegas, until Earth's humans arrived years ago and disrupted their peace. Since its first dawning, Kander has been ruled by one Kalmar simply known as Kal, a supreme Alpha who harnesses a god's spirit. Charlie, an indignant human raised on Kander during the civil war, is beckoned back after she escaped as a teen. Needing money and a job more than her pride, Charlie is hired to retrieve a kidnapped Omega that was taken off-world. Charlie and her mercenary team work with Kal in preparation of their mission. Together, she and Kal form a plan, however, Charlie soon learns intimate details about Kal's rare nature as a "female" Alpha. As Charlie and her team embark on the journey to rescue the Omega, they are faced with startling questions about the true motives behind the kidnapping. It was supposed to be just another job, but when Charlie starts to give a damn about both the missing Omega and the enigmatic Alpha ruler, it leaves her in the crossfire. Dancing in the Darkness is a 53,000-word third-person sci-fi F/F romance Omegaverse novel. It is the first book in The Alpha God series. It contains g!p material* as well as intimate scenes suitable for mature readers. This book does have a cliffhanger and plot twists that carry through the series. G!P content. No rape. No cheating. No shifters. No fempreg. But plenty of plot. *See the author's blog for more details about g!p, fempreg, and other related terms.

"It seemed to Caleb, the nature of human beings revolved around one empirical truth: we want what we

cannot have. For Eve, it was the fruit of the forbidden tree. For Caleb, it was Livvie."What is the price of redemption? The road has been long and fraught with uncertainty, but for Caleb and Livvie, it's all coming to an end. Can he surrender the woman he loves for the sake of vengeance? Or will he make the ultimate sacrifice? Praise for *Captive in the Dark* (book 1, *The Dark Duet*) by CJ Roberts: "This book doesn't just make you feel, it violently manipulates everything you think you know about empathy, hatred, love, and compassion." --Amber, via Goodreads May 22, 2012 "Some have asked how it compares to *Fifty Shades*. I'd say, where Christian is fifty shades of f*&cked up, Caleb is 150 shades." --Swimmom4, via Amazon April 28, 2012

"One of the Truly Great Pieces of Historical Literature of all Time" --Norman F. Cantor, *Inventing the Middle Ages* 66. Originally published: Cambridge: Cambridge University Press, 1898. 2 vols. xxxviii, 688; xiv, 691 pp. Reprint of the second and best edition. *The History of English Law* was the first systematic history based on modern historical methods. It addresses the period before the Norman Conquest in 1066, but deals primarily with the creation and establishment of the common law, a process initiated in the reign of Henry II (1154-1189) and concluded in the reign of Edward I (1272-1307). The first volume traces this history. The second volume treats the doctrines of the common law, including tenure, the law of personal condition, status and estate, and the jurisdiction and communities of the land. Gracefully written and enriched with countless references this is an essential book. First published in 1895, it remains a primary text for students of legal history and the social history of medieval England.

These Monstrous Ties

Kiss the dark prince? Or kill him. Prince Remy Toussaint of Dumonte is tall, broad-shouldered, and darkly handsome. He's also sardonic and arrogant. When he was told he had to marry Queen Fleur of Islaigne, he said she was ugly. That is not why she is going to kill him. She's above such a petty reason for revenge. No, there's a plan. Once she puts it into motion, she'll be able to escape and return to her home country and her throne. Remy's death is a means to an end, unfortunate but necessary. On their wedding night, she'll end him and fake her own death. Except when the night comes, Remy doesn't appear. Fleur's not pleased. Not only is this ruining her meticulous plan, but it's offensive. How dare he not even try to deflower his new bride? Rather than killing Remy, she finds herself negotiating with him. He offers her a deal. If she helps him topple his older brother and secure the throne for himself, he'll help her get home. She ought to kill Remy like she planned. But she makes the deal instead. And it's got nothing to do with his broad shoulders or his deep voice. Nothing at all. This fantasy romance is for you if you like tough female leads, enemies with benefits, love triangles, duels to the death over women, court intrigue, pirates, angsty bed hopping, redemption arcs, and scenes in which male characters are regularly unbuttoning their shirts.

The Perfect Stroke

Downfall

Book 1 of 3- A contemporary fiction novel that touches on many different genres- fantasy, suspense, historical and more. Great for YA/Adult readers. This book is filled with thought provoking imagery that will change your view of people in your life. Books 2 & 3 to be released soon. If you had the ability to change someone's fate would you? Excerpt: Vivid dreams plagued me throughout the night; I could only vaguely remember the earlier ones, but the last nightmare had woken me abruptly this morning leaving me gasping for air. It had started simply enough, I was walking through a long meadow, my hands outstretched, brushing the waist high grass. The sun was warm on my face. It was summertime, and I wore a thin blue cotton dress adorned with tiny white flowers, wide straps across my shoulders, the material tickling my calves. My hair was long and caught in a warm breeze, the chocolate brown tendrils spinning like a kite tail behind me. Gabriel materialized in the field, his blue eyes matching the bright sky. His smile was mesmerizing, his skin glowing. It was a radiant shine that brightened the day even more. He wore brown pants and a plain white cotton shirt with no collar that was open at the throat as if the clothes were from a different time. When I noticed him, his hands reached for me. I started towards his direction, slowly at first and then picking up speed. The grass swished around me, and it was soft under my bare feet. The faster I went the further away he was. He encouraged me, "Run, Jenna." I smiled and tried to sprint. My foot became tangled in the grass, and I spilled forward, twisting, and the meadow cushioned my fall. He was beside me in an instant, catching my head before it hit the earth. His right hand grabbed mine, clutching it to his chest in a tender embrace. Gabriel's face was over the top of mine, a concerned worry pulling his mouth into a frown. I dissolved into a fit of giggles, and he laughed with me. He stared at me with such a longing; I shivered even now. Gabriel's expression became serious, and before I could question him, he kissed me. I relished his warm lips as they push against mine, capturing the moment like a photograph in my head. He pressed harder and then pulled away quickly. When I opened my eyes his gaze was still upon me, but his features were now dark, and his crystal irises clouded with worry. He whispered, "Run, Jenna." Suddenly I found the pasture empty; Gabriel was nowhere in sight and in my hand there was a strange coin. Frightened, I tried to shout for him, but I couldn't form any words. The green grass suddenly faded to grey and then to bare dirt. Surveying my surroundings, I was shocked to find that I was in the middle of a cemetery with tombstones sticking at awkward angles out of the ground. A scream froze in my throat as I stumbled to my feet. My dress was dirty, and my feet caked with soil. I stumbled along, angry raindrops falling from a threatening sky. The field was filled with hundreds of memorials, and I ran, weaving between them, careful not to touch a single granite stone. Ahead of me was a large tree, thick and black, ominous. Under it, I could barely make out a figure in the pouring rain. As I got closer, I swore it was my father's stature, facing away from me. I moved towards it, trying to make it to safety as lightning cracked overhead. Mud flung from my feet, leaving spotted dots on my dress but I didn't care. My slick, dirty hand grasped the token, my hair now soaked. I came to stop outside of the perimeter of the tree, a distinct line between wet and dry, like a waterfall with shelter behind it. I stood trembling, the rain coming down in sheets, the body just out of reach. I took a breath and reached through the water curtain touching the person's arm. As they turned, I gasped

Turn of the Moon

From prison cell to the political limelight, and back again, there is no doubt that Tommy Sheridan - tanned, handsome and armed with a soundbite for every occasion - was one of the most colourful figures in the drab, dusty world of party politics. Yet behind the charismatic exterior of the man who first came to public notice during the anti-Poll Tax movement and later led the Scottish Socialist Party to become a strong voice in the new Scottish parliament was a deeply flawed, manipulative individual whose own actions led to one of the most spectacular political downfalls in recent history. Written by his closest political associate for over twenty years, and based on a raft of documentary and eyewitness information, much of it appearing in print for the first time, this is the no-holds barred inside story of the rise and fall of one of the most fascinating figures in recent Scottish politics. Combining elements of tragedy, thriller and farce, it presents the stark, ugly truth behind Sheridan's victorious defamation action against the News of the World in 2006 and subsequent perjury trial in 2010, which contained some of the most dramatic courtroom scenes in Scottish legal history. Yet despite the lurid and sensationalist aspects of Sheridan's life and career, this is also a serious exploration of wider political and psychological themes which offers some salutary lessons at a time when public confidence in politicians has seldom been lower.

A platoon of young soldiers from a U.S. regiment known as 'the Black Heart Brigade' is deployed to a lawless and hyperviolent area south of Baghdad. As the unstoppable violence destroys their morale, the soldiers descend into brutality, substance abuse and madness - with horrific results. Monsters in the Dark

Love and tragedy dominate book four of Virgil's most powerful work, building on the violent emotions invoked by the storms, battles, warring gods, and monster-plagued wanderings of the epic's opening. Destined to be the founder of Roman culture, Aeneas, nudged by the gods, decides to leave his beloved Dido, causing her suicide in pursuit of his historical destiny. A dark plot, in which erotic passion culminates in sex, and sex leads to tragedy and death in the human realm, unfolds within the larger horizon of a supernatural sphere, dominated by power-conscious divinities. Dido is Aeneas' most significant other, and in their encounter Virgil explores timeless themes of love and loyalty, fate and fortune, the justice of the gods, imperial ambition and its victims, and ethnic differences. This course book offers a portion of the original Latin text, study questions, a commentary, and interpretative essays. Designed to stretch and stimulate readers, Ingo Gildenhard's incisive commentary will be of particular interest to students of Latin at both A2 and undergraduate level. It extends beyond detailed linguistic analysis to encourage critical engagement with Virgil's poetry and discussion of the most recent scholarly thought.
