Huntress

"Time travel, UFOs, mysterious planets, stigmata, rock-throwing poltergeists, huge footprints, bizarre rains of fish and frogs-nearly a century after Charles Fort's Book of the Damned was originally published, the strange phenomenon presented in this book remains largely unexplained by modern science. Through painstaking research and a witty, sarcastic style, Fort captures the imagination while exposing the flaws of popular scientific explanations. Virtually all of his material was compiled and documented from reports published in reputable journals, newspapers and periodicals because he was an avid collector. Charles Fort was somewhat of a recluse who spent most of his spare time researching these strange events and collected these reports from publications sent to him from around the globe. This was the first of a series of books he created on unusual and unexplained events and to this day it remains the most popular. If you agree that truth is often stranger than fiction, then this book is for you"--Taken from Good Reads website.

The Hour of the Dragon

Everyone, in some way, has been touched by magick. If you have the blood of a spider goddess flowing in your veins, it is a double whammy—and kind of creepy. Katia Montgomery's life is charmed. She is pretty, popular, and dating the star basketball player. So then why is she miserable? There is so much more to Katia than endless parties, expensive clothes, and her social status—she is a nixie. Her world feels inadequate, lonely, and she can't shake the feeling that something or someone is missing. And that might just explain why she is suddenly crushing on the mouthwatering and forbidden Seth Nightingale. Seth has always known that the sassy and spunky Katia is destined to be his—that they are starbound. While she goes through boyfriends like bubble gum, chewing them up and spitting them out, he stands in the shadows, unable to do anything about it, knowing he shouldn't care. Not a damn thing in his power can change their fates, and that—well, really blows, but it doesn't stop him from dreaming about her, craving her, loving her. A dark curse hangs over their heads, one cast centuries before. Now it is up to Seth to be stronger than ever and resist the one girl he can never have—or risk killing them both. But the attraction between them is something neither can ignore. And the curse, it's out for blood—their blood.

Taming Fire

In *How to Kill a Dragon* Calvert Watkins follows the continuum of poetic formulae in Indo-European languages, from Old Hittite to medieval Irish. He uses the comparative method to reconstruct traditional poetic formulae of considerable complexity that stretch as far back as the original common language. Thus, Watkins reveals the antiquity and tenacity of the Indo-European poetic tradition. Watkins begins this study with an introduction to the field of comparative Indo-European poetics; he explores the Saussurian notions of synchrony and diachrony, and locates the various Indo-European traditions and ideologies of the spoken word. Further, his overview presents case studies on the forms of verbal art, with selected texts drawn from Indic, Iranian, Greek, Latin, Hittite, Armenian, Celtic, and Germanic languages. In the remainder of the book, Watkins examines in detail the structure of the dragon/serpent-slaying myths, which recur in various guises throughout the Indo-European poetic tradition. He finds the "signature" formula for the myth--the divine hero who slays the serpent or overcomes adversaries--occurs in the same linguistic form in a wide range of sources and over millennia, including Old and Middle Iranian holy books, Greek epic, Celtic and Germanic sagas, down to Armenian oral folk epic of the last century. Watkins argues that this formula is the vehicle for the central theme of a proto-text, and a central part of the symbolic culture of speakers of the Proto-Indo-European language: the relation of humans to

their universe, the values and expectations of their society. Therefore, he further argues, poetry was a social necessity for Indo- European society, where the poet could confer on patrons what they and their culture valued above all else: "imperishable fame."

Starbound

Few people have been in the unique position of being able to observe and record the dramatic changes that have taken place in the islands of Fiji over the past 80 years than fourth-generation citizen, Daryl Tarte. He writes emotively, in great detail, about his personal experience of growing up on a remote island during the colonial era, when races were segregated, and white people lived an elite existence. Following independence, he has been personally involved with many of the key economic, political and social activities that have evolved and enabled the nation to progress during the 20th century. These include the sugar industry, tourism, commerce and industry, religion, the media, women and of course, the coups. His observations into the complexities of leadership in these areas of national development are fascinating and perceptive. Much of the story is told through the eyes of the many people of all races with whom he has interacted. Fiji is made up of over 300 unique islands. Tarte has been to many of them, and in a final chapter he gives an insightful commentary of how different they all are.

With their festivals and traditional industries, their commun halls, pagodas, temples, and vernacular buildings, the villages around Hà Nội possess a rich body of cultural, architectural and craft heritage. Less than one hour from the capital are over 500 specialist craft villages, producing an array of religious or artistic objects, as well as food products, industrial goods, textiles, basketware and much more. Despite the trials and tribulations Vietnam has endured, these traditions have remained alive; today they constitute the basis of material, social and spiritual culture among the village communities of the Red River delta. The artisans themselves, and their local institutions, see cultural tourism as a way of further improving the fortunes of the craft village communities and bringing their heritage to wider attention. Until recently, few guides or tourists had forayed into these settlements, some of which are lost in the maze of routes and tracks that criss-cross the rice paddies of the Hà Nội hinterland. The history and skills they harbour have been inaccessible to all but a few specialists. Few of the villages are signposted, yet between them they are home to three quarters of the architectural, religious and craft heritage of the upper delta. This book, the fruit of several years' research by specialists working in northern Vietnam, comprises ten itineraries, blending potted histories, legends, descriptions of craft techniques, signposted walks and maps, designed to introduce travellers and lovers of Vietnamese culture to forty or so villages around Hà Nội. Many of us have seen their wares on sale in shops in and around the 36 streets of Hà Nội Old Quarter or in other cities in West. This book is about the true lives and enduring skills of the nameless artisans who made them.

Lucifer's Fall

These seven essays by the most recent English translator of *The Tale of Genji* emphasize three major interpretive issues. What is the place of the hero (Hikaru Genji) in the work? What story gives the narrative underlying continuity and form? And how does the closing section of the tale (especially the ten 'Uji chapters') relate to what precedes it? Written over a period of nine years, the essays suggest fresh, thought-provoking perspectives on Japan's greatest literary classic.

Hagakure: The Book of the Samurai

This is a print on demand edition of a hard to find publication. Explores whether sufficient data exists to examine the temporal and spatial relationships that existed in terrorist group planning, and if so, could patterns of preparatory conduct be identified? About one-half of the terrorists resided, planned, and prepared for terrorism relatively close to their eventual target. The terrorist groups existed for 1,205 days from the first planning meeting to the date of the actual/planned terrorist incident. The planning process for specific acts began 2-3 months prior to the terrorist incident. This study examined selected terrorist groups/incidents in the U.S. from 1980-2002. It provides for the potential to identify patterns of conduct that might lead to intervention prior to the commission of the actual terrorist incidents. Illustrations.

A Collection of Thoughts, Sayings and Meditations on the Way of the Samurai "It is said that what is called "the spirit of an age" is something to which one cannot return. That this spirit gradually dissipates is due to the world's coming to an end. For this reason, although one would like to change today's world back to the spirit of one hundred years or more ago, it cannot be done. Thus it is important to make the best out of every generation." □ Tsunetomo

The Germans in Trinidad

My dreams were anything but normal. My temper sucked. And the new guy at school was anything but average. I was a goner. We are talking, picking my drooling tongue off the floor kind of gone. One reckless decision to skip school and I found myself in the arms of a bad boy with an attitude, disarming smirks, and uber mystery shrouding him. Gavin Mason was mouthwatering hot, and his stormy sapphire eyes were filled with secrets. Gavin might be dark and dreamy, but he wasn't the guy who captivated my nights. Lukas Devine looked like the boy next door, and it was his sunny face that heated up my unusual dreams. The closer I get to Gavin, the crazier they become. Then the unexpected happens. Gavin literally froze an object mid-air saving my ass from what could have been a life-threatening situation. Turned out the guy I am crushing hardcore on, was a witch. Yep. You got it. A full-blooded witch. Magic just wasn't a myth, and Gavin and his family weren't the only witches in town. But will I be able to accept my fate, a fate that might be unavoidable.

Australian Chamber Music with Piano

Lukas is alive. I'm talking in the flesh, and he is just as dreamy as ever. Problem is I haven't told Gavin. There are just no words to tell someone that your dreams really aren't just dreams. And I'm a sucky liar. When the two actually met, it's a freaking disaster. Like fists flying, magic

swirling and tempers flaring. Ugh. Boys. But Lukas and I have something in common, other than sharing dreams. Our magic has similar signatures. Nobody knows what that means. And as much as I know that it kills Gavin, Lukas is helping me control it. The more I use my magic, the more trouble seems to find me. Loads of it. Turns out my magic might just be more dangerous than anyone bargained for.

Fire of the Covenant

On the 24th of February, 1815, the look-out at Notre-Dame de la Garde signalled the three-master, the Pharaon from Smyrna, Trieste, and Naples. As usual, a pilot put off immediately, and rounding the Chateau d'If, got on board the vessel between Cape Morgion and Rion island. Immediately, and according to custom, the ramparts of Fort Saint-Jean were covered with spectators; it is always an event at Marseilles for a ship to come into port, especially when this ship, like the Pharaon, has been built, rigged, and laden at the old Phocée docks, and belongs to an owner of the city. The ship drew on and had safely passed the strait, which some volcanic shock has made between the Calasareigne and Jaros islands; had doubled Pomegue, and approached the harbor under topsails, jib, and spanker, but so slowly and sedately that the idlers, with that instinct which is the forerunner of evil, asked one another what misfortune could have happened on board. However, those experienced in navigation saw plainly that if any accident had occurred, it was not to the vessel herself, for she bore down with all the evidence of being skilfully handled, the anchor a-cockbill, the jib-boom guys already eased off, and standing by the side of the pilot, who was steering the Pharaon towards the narrow entrance of the inner port, was a young man, who, with activity and vigilant eye, watched every motion of the ship, and repeated each direction of the pilot. The vague disquietude which prevailed among the spectators had so much affected one of the crowd that he did not await the arrival of the vessel in harbor, but jumping into a small skiff, desired to be pulled alongside the Pharaon, which he reached as she rounded into La Reserve basin. When the young man on board saw this person approach, he left his station by the pilot, and, hat in hand, leaned over the ship's bulwarks. He was a fine, tall, slim young fellow of eighteen or twenty, with black eyes, and hair as dark as a raven's wing; and his whole appearance bespoke that calmness and resolution peculiar to men accustomed from their cradle to contend with danger.
