The Broken Rivalry

The Hidden Legacy series by #1 New York Times bestselling author Ilona Andrews continues as Nevada and Rogan navigate a world where magic is the norm . . . and their relationship burns hot Nevada Baylor has a unique and secret skill—she knows when people are lying—and she's used that magic (along with plain, hard work) to keep her colorful and close-knit family's detective agency afloat. But her new case pits her against the shadowy forces that almost destroyed the city of Houston once before, bringing Nevada back into contact with Connor "Mad" Rogan. Rogan is a billionaire Prime—the highest rank of magic user—and as unreadable as ever, despite Nevada's "talent." But there's no hiding the sparks between them. Now that the stakes are even higher, both professionally and personally, and their foes are unimaginably powerful, Rogan and Nevada will find that nothing burns like ice . . .

Emerald Blaze

From Ilona Andrews, #1 New York Times bestselling author, the thrilling conclusion to her Hidden Legacy series, as Nevada and Rogan grapple with a power beyond even their imagination... Nevada Baylor can't decide which is more frustrating—harnessing her truthseeker abilities or dealing with Connor "Mad" Rogan and their evolving relationship. Yes, the billionaire Prime is helping her navigate the complex magical world in which she's become a crucial player—and sometimes a pawn—but she also has to deal with his ex-fiancée, whose husband has disappeared, and whose damsel-in-distress act is wearing very, very thin. Rogan faces his own challenges, too, as Nevada's magical rank has made her a desirable match for other Primes. Controlling his immense powers is child's play next to controlling his conflicting emotions. And now he and Nevada are confronted by a new threat within her own family. Can they face this together? Or is their world about to go up in smoke?

Magic Slays

There, she witnesses a world beyond humanity's sight, of frightful powers and chaos, where she is in death's grip before an irresistibly dangerous male saves her—only to take her captive. For she is a rare commodity in the shadowy realm she's entered. Karina soon finds herself caught in a violent civil war where those with inhuman powers strive to destroy each other without mercy. And it becomes all too clear that she must make a choice: submit and become a pawn, or take hold of her own destiny and fight for survival against impossible odds. *Alphas: Origins* originally appeared in *Angels of Darkness*.
