In *Bodies That Matter*, Judith Butler further develops her distinctive theory of gender by examining the workings of power at the most "material" dimensions of sex and sexuality. Deepening the inquiries she began in *Gender Trouble*, Butler offers an original reformulation of the materiality of bodies, examining how the power of heterosexual hegemony forms the "matter" of bodies, sex, and gender. Butler argues that power operates to constrain "sex" from the start, delimiting what counts as a viable sex. She offers a clarification of the notion of "performativity" introduced in *Gender Trouble* and explores the meaning of a citational politics. The text includes readings of Plato, Irigaray, Lacan, and Freud on the formation of materiality and bodily boundaries; "Paris is Burning," Nella Larsen's "Passing," and short stories by Willa Cather; along with a reconsideration of "performativity" and politics in feminist, queer, and radical democratic theory.

Eugenio Cambaceres was the first to introduce the naturalist manner of Emile Zola to Argentinean literature in the late nineteenth century. The work of Cambaceres, a precursor to the contemporary Argentinean novel, is crucial for an understanding of the period of consolidation of Argentina, the formation of a national identity, and especially for the role of the intellectual during that transition. This generation theoretically and methodically built up a literature with features of its own, stressing the cultural primacy of Buenos Aires par excellence, to enhance the evolution of the cosmopolitan metropolis. A rich dandy narrates Pot Pourri, relating a story of marriage and adultery during the carnival celebrations. The volume editor, Josefina Ludmer, describes the dandy as an

Bestselling novelist Danielle Steel takes us on a harrowing journey into the heart of America's hidden shame in a novel that explores the power of forgiveness, the dark side of childhood, and one woman's unbreakable spirit. From her secret perch at the top of the stairs, Gabriella Harrison watches the guests arrive at her parents' lavish Manhattan townhouse. At seven, she knows she is an intruder in her parents' party, in her parents' life. But she can't resist the magic. Later, she waits for the click, click, click of her mother's high heels, the angry words, and the pain that will follow. Gabriella already knows to hide her bruises, certain she is to blame for her mother's rage--and her father's failure to protect her. Her world is a confusing blend of terror, betrayal, and pain. Her parents' aristocratic world is no safeguard against the abuse that knows no boundaries, respects no person, no economic lines. Gabriella knows that, try as she might, there is no safe place for her to hide. Even as a child, her only escape is through the stories she writes. Only writing can dull the pain of her lonely world. And when her parents' marriage collapses, Gabriella is given her first reprieve, as her father disappears, and then her mother abandons her to a convent. There, Gabriella's battered body and soul begin to mend. Amid the quiet safety and hushed rituals of the nuns, Gabriella grows into womanhood in a safe, peaceful world. Then a young priest comes

into her life. Father Joe Connors never questioned his vocation until Gabriella entered the confessional and shared her soul. Confession leads to friendship. And friendship grows dangerously into love. Like Gabriella, Joe is haunted by the pain of his childhood, consumed by guilt over a family tragedy, for which he blames himself. With Gabriella, Joe takes the first steps toward healing. But their relationship leads to tragedy as Joe must choose between the priesthood and Gabriella, and life in the real world where he fears he does not belong, and cannot cope. Exiled and disgraced, and nearly destroyed, Gabriella struggles to survive on her own in New York. There she seeks healing and escape through her writing again, this time as an adult, and her life as a writer begins. But just when she thinks she is beyond hurt, Gabriella is once again betrayed by someone she trusts. Brought to the edge of despair, physically attacked beyond recognition and belief, haunted by abuse in her present and her past, she nonetheless manages to find hope again, and the courage to face the past. On a pilgrimage destined to bring her face-to-face with those who sought to destroy her in her early life, she finds forgiveness, freedom from guilt, and healing from abuse. When Gabriella faces what was done to her, and why, she herself is free at last. With profound insight, Danielle Steel has created a vivid portrait of an abused child's broken world, and the courage necessary to face it and free herself from the past. A work of daring and compassion, a tale of healing that will shock and touch and move you to your very soul, it exposes the terror of child abuse, and opens the doors on a subject that affects us all. *The Long Road Home* is more than riveting fiction. It is an inspiration to us all. A work of courage, hope, and love.

the roots of Western wisdom • Provides the key to the symbolic language of the Tarot ' s “ nomadic cathedral ” • Transforms a simple divination tool into a vehicle for self-realization and healing

Alejandro Jodorowsky ' s profound study of the Tarot, which began in the early 1950s, reveals it to be far more than a simple divination device. The Tarot is first and foremost a powerful instrument of self-knowledge and a representation of the structure of the soul. The Way of Tarot shows that the entire deck is structured like a temple, or a mandala, which is both an image of the world and a representation of the divine. The authors use the sacred art of the original Marseille Tarot--created during a time of religious tolerance in the 11th century--to reconnect with the roots of the Tarot ' s Western esoteric wisdom. They explain that the Tarot is a “ nomadic cathedral ” whose parts--the 78 cards or “ arcana ” --should always be viewed with an awareness of the whole structure. This understanding is essential to fully grasp the Tarot ' s hermetic symbolism. The authors explore the secret associations behind the hierarchy of the cards and the correspondences between the suits and energies within human beings. Each description of the Major Arcana includes key word summaries, symbolic meanings, traditional interpretations, and a section where the card speaks for itself. Jodorowsky and Costa then take the art of reading the Tarot to a depth never before possible. Using their work with Tarology, a new psychological approach that uses the symbolism and optical language of the Tarot to create a mirror image of the personality, they offer a powerful tool for self-realization, creativity, and healing.

From Vogue contributor and Guardian columnist Hadley Freeman, a personalized guide to eighties movies that describes why they changed movie-making forever—featuring exclusive interviews with the producers, directors, writers and stars of the best cult classics. For Hadley Freeman, movies of the 1980s have simply got it all. Comedy in *Three Men and a Baby*, *Hannah and Her Sisters*, *Ghostbusters*, and *Back to the Future*; all a teenager needs to know in *Pretty in Pink*, *Ferris Bueller 's Day Off*, *Say Anything*, *The Breakfast Club*, and *Mystic Pizza*; the ultimate in action from *Top Gun*, *Die Hard*, *Beverly Hills Cop*, and *Indiana Jones and the Temple of Doom*; love and sex in *9 1/2 Weeks*, *Splash*, *About Last Night*, *The Big Chill*, and *Bull Durham*; and family fun in *The Little Mermaid*, *ET*, *Big*, *Parenthood*, and *Lean On Me*. In *Life Moves Pretty Fast*, Hadley puts her obsessive movie geekery to good use, detailing the decade 's key players, genres, and tropes. She looks back on a cinematic world in which bankers are invariably evil, where children are always wiser than adults, where science is embraced with an intense enthusiasm, and the future viewed with giddy excitement. And, she considers how the changes between movies then and movies today say so much about society 's changing expectations of women, young people, and art—and explains why *Pretty in Pink* should be put on school syllabuses immediately. From how John Hughes discovered Molly Ringwald, to how the friendship between Dan Aykroyd and John Belushi influenced the evolution of comedy, and how Eddie Murphy made America believe that race can be transcended, this is a “ highly personal, witty love letter to eighties movies, but also an intellectually vigorous, well-researched take on the changing times of the film industry ” (The Guardian).

Around the globe, people leave their homes to better themselves, to satisfy needs, and to care for their families. They also migrate to escape undesirable conditions, ranging from a lack of economic opportunities to violent conflicts at home or in the community. Most studies of migration have analyzed the topic at either the macro level of national and global economic and political forces, or the micro level of the psychology of individual migrants. Few studies have examined the "culture of migration"—that is, the cultural beliefs and social patterns that influence people to move. *Cultures of Migration* combines anthropological and geographical sensibilities, as well as sociological and economic models, to explore the household-level decision-making process that prompts migration. The authors draw their examples not only from their previous studies of Mexican Oaxacans and Turkish Kurds but also from migrants from Europe, sub-Saharan Africa, the Pacific, and many

parts of Asia. They examine social, economic, and political factors that can induce a household to decide to send members abroad, along with the cultural beliefs and traditions that can limit migration. The authors look at both transnational and internal migrations, and at shorter- and longer-term stays in the receiving location. They also consider the effect that migration has on those who remain behind. The authors' "culture of migration" model adds an important new dimension to our understanding of the cultural beliefs and social patterns associated with migration and will help specialists better respond to increasing human mobility.

In addition to the apocalyptic prospect of global nuclear destruction, there are other dismal scenarios involving resource and environmental issues that are less imminent but still serious in the long term. Past analyses, seeking remedies, have focused on symptoms rather than causes. They represent extensions and expressions of the same philosophies and strategies that created these situations. This book brings a fresh and optimistic perspective to the problem area. It explores modern consciousness research and transpersonal psychology for practices that accelerate the development of consciousness. It covers a wide range from laboratory techniques of experimental psychiatry, transpersonal psychotherapies, and Jungian psychology to the Oriental and Western mystical traditions.

Simians, Cyborgs and Women is a powerful collection of ten essays written between 1978 and 1989. Although on the surface, simians, cyborgs and women may seem an odd threesome, Haraway describes their profound link as "creatures" which have had a great destabilizing place in Western evolutionary technology and biology. Throughout this book, Haraway analyzes accounts, narratives, and stories of the creation of nature, living organisms, and cyborgs. At once a social reality and a science fiction, the cyborg--a hybrid of organism and machine--represents transgressed boundaries and intense fusions of the nature/culture split. By providing an escape from rigid dualisms, the cyborg exists in a post-gender world, and as such holds immense possibilities for modern feminists. Haraway's recent book, *Primate Visions*, has been called "outstanding,"
