## **Fertility Diet: A Definitive Beginner's Guide | Dr. Cindy Duke**

The fertility diet increased the chances of ovulating among women who ate the diet, which automatically improved their fertility. Things that make up the fertility diet, according to research on the topic, include eating a diet low in trans fats and sugar, while being high in protein found in plant sources rather than animal sources. A diet rich in fiber is also important in a good fertility diet. Iron and vitamins should be included in any diet that increases fertility.
