Let's face it: Everyone's a little bit racist. So why not talk about it the only way we can, this side of warfare – via humor? In *The White Guy*, Stephen Hunt tries to come to grips with his whiteness in order to continue to rule the world, amass the bulk of its wealth, and generally dominate things as his people have done for the past 2,000 years, give or take a few odd moments like the rise of Attila the Hun, the rule of the 7th-century Caliphate, or the '70s. Then again, if you're not a white guy, this is the ultimate insider's guide to the minds of the men responsible for everything that's wrong with the world or your life: apartheid, colonialism, ethnic cleansing, the glass ceiling, patriarchy, serial killing, NASCAR, K-tel® Records, even the theft of rock 'n' roll. *The White Guy* humorously turns racial politics on its head, while delivering a subtle message about tolerance.

"The language of sports resonates beyond the grass and dirt of the local ball field because it is so evocative. The gridiron as a battlefield, the quarterback as the man in charge--these concepts slip seamlessly into the words of everyone from politicians to businesspeople. There are many metaphors we can quickly identify from the realm of recreation- ballpark figure (baseball), being caught flat footed (boxing) or having the inside track (horse racing) are all examples. But the English language is also peppered with not-so-obvious instances of sports and games influence like stymie (golf) and shoo-in (horse racing). Filled with pithy little entries on each idiom, plus quotes showing how the likes of President Barack Obama, President George W. Bush, and Donald Trump use them in a sentence, this quirky little handbook is sure to be a conversation starter at tailgates, cocktail parties, and in the boardroom."

Bigfoot sightings have been reported in every state except Hawaii. Interest in this creature, which many believe to be as mythical as a leprechaun, is as strong today as ever, with the wildly popular show Finding Bigfoot persisting on the Animal Planet network and references to bigfoot appearing throughout popular culture. What is it about bigfoot that causes some people to devote a chunk of their lives to finding one? In *Monster Trek*, Joe Gisondi brings to life the celebrities in bigfoot culture: people such as Matt MoneyMaker, Jeff Meldrum, and Cliff Barackman, who explore remote wooded areas of the country for weeks at a time and spend thousands of dollars on infrared imagers, cameras, and high-end camping equipment. Pursuing the answer to why these seekers of bigfoot do what they do, Gisondi brings to the reader their most interesting--and in many cases, harrowing--expeditions.
