Songs, Scribes, and Society explores the cultural and musical importance of five 15th-century Chansonniers - personalized, portable, and lavishly decorated songbooks - from the Loire Valley of France. Author Jane Alden treats the Chansonniers as physical artifacts to reveal their cultural context and its relationship to their commission, creation, and use.

If You Give a Mouse an iPhone

If you were walking down the road and saw Donald Trump, what would you notice? Follow the missteps of our phony baloney, wishy-washy, frumpy dumpy president with a cleverly illustrated and worded picture book. Inspired by the beloved Wonky Donkey, but not written by or endorsed by its author, this parody is aimed at an adult audience (though parents who have chosen to read these books to their children have enjoyed them as well). A portion of the proceeds is being donated to the International Rescue Committee, to help refugees get supplies, girls attend school, etc. This author is exercising her first amendment right to criticize the current administration and using her voice to do something and help others. This book is not an attempt to 'brainwash' or teach hatred and the author has been sure to avoid some of 45's more offensive terminology. Trump fans will not find this amusing at all; mostly everyone else will. Sometimes the truth hurts. Life's too short and the political climate has been too tense. Laughter is the best medicine.

Tsunami Mommy

In the house that felt more like a room, tucked away in a bed, is a little chinchilla watching his tablet. "Goodnight room, goodnight zoom". And to all the familiar things in this pandemic room- hand sanitizers and masks, electronics, home self-care- the chinchillas say goodnight. Goodnight Rona, is a very 'real' parody about life during a pandemic. Honest and funny, this book takes a modern adult twist on one of the most beloved children's book of all times. This book includes a list of free Covid-19 resources and a portion of the proceeds are being donated to charities including the International Rescue Committee and Lola's Children's Fund.

Goodnight Trump

Written on an iPhone in 2015-2016 during the daily commute on the New York City subway, these writings deal with themes eerily relevant in this moment. Police shootings, artificial intelligence, pandemics, apocalyptic visions, racial injustice, #MeToo, gun violence - to name a few. Each poem offers a minor meditation on the human condition, and our experiences as global citizens.

home in which she has raised her family. But what she doesn't know is how to stay afloat when a devastating discovery tears that familiar world apart. It is only once the damage has been done that she finally realises how distant her daughters have become - and that schoolgirl Lizzie and 28-year-old Margaret now have dark secrets of their own. After years of following separate lives, they are reluctantly drawn back together under the same roof. It's the outside world that has unravelled their dreams, but what they all fear most now is each other. Yet it's there, in the family home, that they are forced to confront their crises - and where, slowly, each of them begins to heal.

Good Night Rona

The #1 New York Times Bestseller: "A hilarious take on that age-old problem: getting the beloved child to go to sleep" (NPR). "Hell no, you can't go to the bathroom. You know where you can go? The f**k to sleep." Go the Fuck to Sleep is a book for parents who live in the real world, where a few snoozing kitties and cutesy rhymes don't always send a toddler sailing blissfully off to dreamland. Profane, affectionate, and radically honest, it captures the familiar—and unspoken—tribulations of putting your little angel down for the night. Read by a host of celebrities, from Samuel L. Jackson to Jennifer Garner, this subversively funny bestselling storybook will not actually put your kids to sleep, but it will leave you laughing so hard you won't care.

Rethinking the Novel/Film Debate

In this classic of children's literature, beloved by generations of readers and listeners, the quiet poetry of the words and the gentle, lulling illustrations combine to make a perfect book for the end of the day. In a great green room, tucked away in bed, is a little bunny. "Goodnight room, goodnight moon." And to all the familiar things in the softly lit room—to the picture of the three little bears sitting on chairs, to the clocks and his socks, to the mittens and the kittens, to everything one by one—the little bunny says goodnight. One of the most beloved books of all time, Goodnight Moon is a must for every bookshelf and a time-honored gift for baby showers and other special events.

☐It's not fair!☐ This is the lament of countless children when they perceive that a sibling or classmate is receiving more. Do special needs for one mean less love for another? This is the question explored in this short children's story of three zoo animals. They learn that being equally loved doesn't necessarily mean that they're treated the exact same. Rather, true love is expressed when each animal gets what they need.

Goodnight '70s

1) Stay inside between dusk and dawn. 2) Close and lock the copper and silver screens. 3) Report anyone suspected of infection immediately This volume contains all three books in the beloved Half-Pocalypse young adult series, "Wilders." This series follows the world through the outbreak of a blood based virus, and looks at how the world changes - and how humans adapt. Filled with strong, likeable female characters and the coolest cat in fiction - the Wilders trilogy will keep you on the edge of your seat. The Change: Partying too much, picking fights with her Mom Holly's senior year of high school has become a bit of a mess. She has no idea what she wants to do next year and she's sick of the pressure to have a plan. When she's shipped off to spend some time in Chicago with her Aunt Miranda, she starts to feel more like herself. But, Holly's about to have bigger problems. The world is on the brink of a viral outbreak that will change the way humans live for years to come. It begins in all the major cities. People are changing into crazed animals, impervious to pain. Nobody knows why. Wilders: The forest behind Renna's home is dark and dense. It holds more secrets than she knows. Having grown up in the half-pocalypse, a world balancing against the tide of a blood-borne virus, Renna

knows the rules by heart: 1) Stay inside between dusk and dawn. 2) Close and lock the copper and silver screens. 3) Report anyone suspected of infection immediately. Now, at seventeen, Renna will have to survive against the rules. - An unprecedented attack. - A strange boy with copper eyes. Can Renna survive the darkness to save the people she loves? Consequences: The virus is morphing and moving fast. Wilders aren't following the three rules anymore. Nobody is safe. Running low on supplies while waiting for a response from their plea for help, the camp in the Adirondak forest can't wait any longer. Emerson is selected to lead a supply run on what should be a short trip into town. With the world sliding dangerously close to a full apocalypse, his team will have to make hazardous decisions. Back in the camp, help arrives. But the form it takes is unexpected. Renna doesn't know who to trust. Or how she'll survive. Bold choices always have consequences. Now it's time to face them." Praise for the Wilders series from Amazon Reviewers: "The premise of this was incredible in of itself: An apocalypse that doesn't exactly spell doom for humanity but also forces society to work around the threat of zombies. I can forgive the book for leaving me wanting more because a good book is supposed to evoke that sense of longing! Man, just the writing alone was endearing with characters that don't have static traits but grow along with the situations and people that they find themselves with. The world isn't thrown at you in long, drawn-out paragraphs, it's delicately, subtly given to you organically just through dialogue and immediate locations. I. Need. More." "I love a well-written young adult novel, and this is certainly that. Brimming with well-formed, likable characters this quick read is fast-paced and highly imaginative. As with The Hunger Games, Cass Kim writes with great thought and details to the point you lose yourself in this half-pocalypse world. " "This book completely fulfilled the crescendo of great

storytelling throughout this series. It kept building and buildinggosh this book was satisfying." "The three books of this series, The Change, Wilders, and Consequences make up one of my favorite YA trilogies. The author writes lively prose and the pages blur as they go past. I've always been particularly impressed with the depth and nuance of the characters in these books, the depth of the world, and the pace of the story."

Flip through the channels at any hour of the day or night, and a television talk show is almost certainly on. Whether it offers late-night entertainment with David Letterman, share-your-pain empathy with Oprah Winfrey, trash talk with Jerry Springer, or intellectual give-and-take with Bill Moyers, the talk show is one of television's most popular and enduring formats, with a history as old as the medium itself. Bernard Timberg here offers a comprehensive history of the first fifty years of television talk, replete with memorable moments from a wide range of classic talk shows, as well as many of today's most popular programs. Dividing the history into five eras, he shows how the evolution of the television talk show is connected to both broad patterns in American culture and the economic, regulatory, technological, and social history of the broadcasting industry. Robert Eler's "A Guide to Television Talk" complements the text with an extensive "who's who" listing of important people and programs in the history of

The Chicano Latino Literary Prize: An Anthology of Prize-Winning Fiction, Poetry and Drama

Raising a baby is joyful, amazing . . . and ridiculously difficult. But with some insight into what's actually going on inside your little one's head, your job as a parent can become a little bit easier—and a lot more fun. In *Think Like a Baby*, coauthors Amber and Andy Ankowski's *The Doctor and the Dad* show parents how to re-create classic child development experiments using common household items. These simple step-by-step experiments apply from the third trimester through age seven and beyond and help parents understand their children's physical, cognitive, language, and social development. Amazed parents won't just read about how their kids are behaving, changing, and thinking at various stages, they'll actually see it for themselves while interacting and having fun with them at the same time. Each experiment is followed by a discussion of its practical implications for parents, such as why to always bring more than one toy to a restaurant, which baby gadgets to buy (and which ones to avoid), how to get kids to be perfectly happy eating just half of their dessert, and much more.

A coiffed and blustery pig has shoved his way into the White House! A cleverly worded and illustrated picture book, this is the adult parody of the beloved children's cautionary tale, *If You Give a Pig a Pancake*. Watch in dismay as the presidential pig gets into trouble, binges on too much Fox News and fast food, and cavalierly threatens national security. *If You Give a Pig the White House* both lovingly caricatures the original children's book series and shows just what can happen when a greedy anti-hero tracks his hooves all over America.
