Shooter's Bible Guide to AR-15s

The growing concern over the number of accidental firearm shootings, especially those involving children, prompted passage of the initial handgun safety law which went into effect in 1994. The stated intent of the California Legislature in enacting the current FSC law is for persons who obtain firearms to have a basic familiarity with those firearms, including, but not limited to, the safe handling and storage of those firearms. The statutory authority for this program is

contained in Penal Code sections 26840 and 31610 through 31700. These statutes mandate DOJ to develop, implement and maintain the FSC Program. Pursuant to Penal Code section 26840, a firearms dealer cannot deliver a firearm unless the person receiving the firearm presents a valid FSC, which is obtained by passing a written test on firearm safety. Prior to taking delivery of a firearm from a licensed firearms dealer, the purchaser/recipient must also successfully perform a safe handling demonstration with that firearm..

Gun litigation deserves a closer look amid the lessons learned from decades of legal action against the makers of asbestos, Agent Orange, silicone breast implants, and tobacco products, among others. *Suing the Gun Industry* collects the diverse and often conflicting opinions of an outstanding cast of specialists in law, public health, public policy, and criminology and distills them into a complete picture of the intricacies of gun litigation and its repercussions for gun control. Using multiple perspectives, *Suing the Gun Industry* scrutinizes legal action against the gun industry. Such a broad approach highlights the role of this litigation within two larger controversies: one over government efforts to reduce gun violence, and the other over the use of mass torts to regulate unpopular industries. Readers will find *Suing the Gun Industry* a timely and accessible picture of these complex and controversial issues. Contributors: Tom Baker Donald Braman Brannon P. Denning Tom Diaz Howard M.
