Whiskey Secrets

Finch is in deep, with no surface in sight. He hadn't expected a welcoming party when they whirlpooled into Atlantis--although "welcoming" isn't exactly the right word. More like "mildly hostile." As descendants of the powerful Primus Anglicus, the Atlanteans are not to be trifled with. But Erebus isn't leaving until he gets what he wants--and neither is Davin. Caught in the midst of a political battle royale, Finch can only ride out the waves. And he knows he'll be lucky to escape this underwater prison without leaving anyone behind. For Melody, being trapped in an ancient, unfamiliar city is a dream come true. She hungers to fill the gaps in her knowledge, and Atlantis is a delicious buffet, from love potions and Death Day celebrations to beautiful and dangerous creatures. Navigating this new world isn't so scary with her trusty bodyguard by her side, though she must protect her own heart. Blueprint for Action provides a framework for understanding the dynamics of organizational change in early care and education settings. It helps administrators move beyond a "quick fix" notion of center improvement by serving as a guide for organizational analysis and action. The book details a comprehensive method for assessing program strengths and areas in need of improvement. The heart of this approach is an individualized model of supervision and staff development. Woven throughout the text are numerous vignettes connecting the concepts to real-life situations experienced by early childhood administrators. The book includes 26

Magical mapmaking is an ancient art--and also a major pain. At least, Finch can't help but feel that way, since Erebus transported him to the Mapmakers' Monastery with little to no instructions. Now, he's stranded on some Greek island until he can learn how to draw maps to places he thought only existed in legends, like El Dorado and Shangri-La. Only the worthiest of magicals can attain such a rare skill. The weak are weeded out through nearly impossible tests that involve mind-bending poisons, weird plants, and pottery-making? But Finch isn't the only one looking to learn the art of mapmaking. Magicals from all over the world are drawn to the Monastery. As Finch encounters both greedy treasure hunters and knowledge-hungry explorers, he must decide who is trustworthy and who has more sinister intentions. When Erebus knocks on her door, Kenzie is roped into delivering secret messages to Finch using her ability to Morph into the bodies of animals. In exchange, the God of Darkness will reveal what she wants most: to find the lowlife who cursed her mother. Both Finch and Kenzie know they're pawns in Erebus's long game--but to what end? "The evolution of railroad safety, Aldrich argues, involved the interplay of market forces, science and technology, and legal and public pressures. He considers the railroad as a system in its entirety: operational realities, technical constraints, economic history, internal politics, and labor management. Aldrich shows that economics initially encouraged American carriers to build and operate cheap and dangerous lines. Only over time did the trade-off between safety and output - shaped by labor markets and public policy - motivate carriers to develop technological improvements that enhanced both productivity and safety."--BOOK JACKET.

"I celebrated when vampires were declared extinct. Those monsters had preyed on humanity for millennia, committing senseless, brutal murders. Like the rest of my colleagues at the Occult Bureau, I looked forward to a world where we could all sleep at night--where constant cover-up jobs were no longer required to keep the public calm and unaware. But the end of vampires wasn't the end of our problems. It was only the beginning"--Publisher marketing.

From USA Today bestselling author Parker S. Huntington comes an enemies-to-lovers, slow-burn romance full of revenge and a dash of fate. "She could enjoy her pretty, perfect world a little longer. Soon enough, everything she owned would be mine." I had a plan to escape the friend zone. Step one: sneak into Reed's room. Step two: sleep with him. But when the lights turned on, it wasn't familiar blue eyes I saw. These were dark, angry, and full of demons. And they belonged to Reed's much older brother. " Time is running out. For the final ritual, Katherine will sacrifice twelve magicals with rare abilities. Harley has already lost so much, and she can't bear to sacrifice anything more. She will protect her friends at all costs--even if that means flying solo against the greatest evil the world has ever known. With her parents' Grimoire, Harley finally has a weapon capable of overpowering Katherine. If only she could figure out how to reveal the hidden pages within, to perform the spell Chaos itself has written. And the spell may reveal more than she's bargained for. All Katherine wants is to be Queen of Everything--is that so much to ask? Her little niece has been a real thorn in her side, but that's all about to change. Pity she can't kill Harley just yet, since the girl is still useful. There's also the matter of that too-handsome Necromancer, Davin Doncaster. From personal experience, Katherine knows one should never trust a pretty face."--Amazon.

Devious Lies

A family story for the twenty-first century, based on the phenomenally popular Texts from Bennett Tumblr blog, this epistolary novel chronicles the year that Bennett and the rest of his freeloading family moved into his cousin Mac's household. Hardworking Kansas City rapper Mac Lethal has a problem, and its name is Bennett. His wannabe gangsta cousin is seventeen, uses drugs and foul language, claims to be 13 percent black, and swears he speaks "da female language." (Strangely that last one sort of seems true.) But as different as they are, when Bennett and his mom lose their home, Mac's got their backs. They're family after all.

Sure, it takes patience to live with the eternally smoked-out Bennett and the pill-popped Aunt Lily, but he can handle it. You know who can't? Mac's very pretty, very WASPy, very uptight girlfriend. So as his once-peaceful household gets completely crazy, Mac learns that wanna-be-Crips are thicker than water, that his little cousin—flawed, irreverent, and basically a Saturday morning cartoon gone horribly wrong—has become his mentor, and that he really has no idea what's up with girls.
