When one of her recipes calls for EVOO, cooks knowingly reach for the extra-virgin olive oil. And when she declares a dish Yum-O, those who have tried her dishes can nod in agreement. Rachael Ray grew up surrounded by great cooks in restaurants, so cooking was a natural and integral part of her life. She first

began cooking at home with her mother, moved on to her own cooking demonstrations at local food markets, and finally ended up making successful cooking shows on television. But how did an untrained cook growing up in small-town upstate New York go on to become one of the Food Networks biggest stars? And perhaps most intriguingly, what role has she played in Americas ongoing food revolution? "Rachael Ray" tells the story of a woman who has made a career of encouraging others to cook, eat, and love food as much as she does. From her catalog of cookbooks to line of cookware, Ray has become a powerful force in food education.

A century ago Americans were still moving west, settling in new states, establishing themselves in new environments. That pattern was followed by the grandparents, then by the parents of Robert L. Pirtle, the author of this autobiography. The eventual home of the authors parents and his family was Roswell, New Mexico, a sleepy little town in southeastern New Mexico. To begin with, however, the book traces the authors lineage, even including fascinating familial connections to the compilation of the King James Version of the Bible, to the Cherokee Indian Tribe and to the Commander of the Alamo. Readers will certainly enjoy the picture the author draws of small town America in the 1930s and 1940s, of the vicissitudes of growing up, of junior and senior high school days and high jinks. The author displayed an interest in fairness and justice from his earliest days; indeed he proposes that every child has an inherent instinct for justice. As the author moved through childhood and school years he encountered numerous incidents in which the concept of fairness played a decisive part. Though such incidents of childhood are of minimal significance, yet they play a part in shaping a childs character and perception of the world,

and can lead to incidents of real significance in adulthood. The author describes incidents which did just that in his own life. In one instance the author shamefacedly admits being the cause of a hurtful injustice to others; yet that incident, too, played its part in his maturation. It is said, after all, that good judgment comes from experience and experience comes from bad judgment. By the time the author graduated from high school his interest in science in mathematics rose to the forefront of his mind and he entered Purdue University with a four-year scholarship from the University. Before the year was out, however, he knew he did not want to pursue science as a career and he switched to the University of Arizona where he majored in mathematics, his easiest subject, while he sampled the liberal arts and pondered what his life work would be. He first considered entering the ministry and becoming a Methodist Preacher, but little by little he decided that he could prove of greater help to people and especially to the cause of justice as a lawyer. Accordingly, his last year in the undergraduate program was his first year in the law school of the University of Arizona. After graduating he took his commission as a 2nd lieutenant in the United States Air Force, working as a mathematician at the Special Weapons Center of Kirtland Air Force Base in Albuquerque, New Mexico. The authors function was as target analyst, designing an atomic weapon delivery system for fighter aircraft. Fascinating is the authors description of his witnessing the explosion of an atomic bomb named Zucchini in Nevada in 1955. The author entered the University of Colorado upon completing his Air Force term and was hired by the largest law firm in Seattle, Holman, Mickelwait, Marion, Black & Perkins, upon his graduation from law school. During his brief Air Force career, The author had studied Shakespeare at the University of New Mexico, later entered into negotiations with the popular TV show The \$64,000 Question, and was being scheduled to appear on the show after his graduation from law school. But the TV show collapsed after Charlie Van Doren, son of the internationally known Shakespeare scholar, Mark Van Doren, lied to a grand jury in New

York concerning whether he had been fed answers when he appeared on the show. And a year or so of performing legal work for corporate clients discouraged the author to the point that he left the Firm and hung out his shingle as a sole practitioner, but simultaneously entered the graduate school of philosophy of the University of Washington, contemplating becoming a philosophy professor. In the end the author, d

Madonna! Megastar. Lover. Mother. Opportunist. Chameleon. Role model. She's all of these things and more. Yet, who is she, really? In *Madonna: An Intimate Biography*, author J. Randy Taraborrelli's scrupulously researched and completely balanced unauthorized biography of one of the world's most

celebrated entertainers, the reader is allowed to draw his or her own conclusions. Indeed, the portrait bestselling author Taraborrelli paints here is of a truly complex woman, one who is driven and determined to succeed at any cost, yet who displays remarkable vulnerability when it comes to matters of the heart. It is significant that *Madonna: An Intimate Biography* is the first such book written about the star in over a decade, because in the past ten years the ever-changing Madonna has gone through her biggest transformation yet -- from tempestuous sex goddess to happily married mother. Amazingly, as she launches her first worldwide tour in eight years, she is now -- at forty-something -- enjoying one of the most successful periods of her groundbreaking career. Whereas other books about Madonna have been based on previously published material, *Madonna: An Intimate Biography* is the result of ten years of exclusive interviews with people who are speaking publicly about her for the first time, including close friends, business associates and even family members. Since Taraborrelli interviewed the star herself early in her career, he is now able to draw from such firsthand experiences to place her success story in perspective and provide new, stunning insights. The true Madonna, as presented here, is not merely a sensation-seeking tabloid vixen, but a flesh-and-blood woman with human foibles and weaknesses -- as well as great strengths and ambitions. For the first time, the reader learns about the complex nature of her difficult relationship with her father, and how the two finally found one another after years of estrangement; how Warren Beatty broke her heart, and why the two never wed; how she and John Kennedy, Jr., became romantically involved, his mother's reaction to the prospect of Madonna as a daughter-in-law and why it could never have worked out; the truth of her relationships with the fathers of her two children and how, as a loving and attentive mother, she has evolved into a surprisingly different woman and what the future holds for her. *Madonna: An Intimate Biography* is a truly explosive and definitive account of the life of an entertainer who is undoubtedly one of the most popular,

trendsetting figures of our time. Full of amazing disclosures about her private life and public career, New York Times bestselling author J. Randy Taraborrelli's latest work reveals Madonna in a new -- and surprisingly inspiring -- way. Not only a feast for fans, this book is great entertainment for anyone who enjoys a remarkable story, stirringly told.

Ronald Reagan, a former actor and one of America's most popular presidents, married not one but two Hollywood actresses. This book is three biographies in one, discovering fascinating connections among Jane Wyman (1917 – 2007), Ronald Reagan (1911 – 2004), and Nancy Davis (b. 1921 – 2016). Jane Wyman, who married Reagan in 1940 and divorced him seven years later, knew an early life of privation. She gravitated to the movies and made her debut at fifteen as an unbilled member of the chorus, then toiled as an extra for four years until she finally received billing. She proved herself as a dramatic actress in *The Lost Weekend*, and the following year, she was nominated for an Oscar for *The Yearling* and soon won for her performance in *Johnny Belinda*, in which she did not speak a single line. Other Oscar nominations followed, along with a Golden Globe for her portrayal of Angela Channing in *Falcon Crest*. Conversely, Nancy Davis led a relatively charmed life, the daughter of an actress and the stepdaughter of a neurosurgeon. Surrounded by her mother's friends—Walter Huston, Spencer Tracy, Katharine Hepburn, Lillian Gish, and Alla Nazimova, her godmother—Davis started in the theater, then moved on to Hollywood, where she enjoyed modest success, and finally began working in television. When she married Reagan in 1952, she unwittingly married into politics, eventually leaving acting to concentrate on being the wife of the governor of California, and then the wife of the president of the

United States. In her way, Davis played her greatest role as Reagan ' s friend, confidante, and adviser in life and in politics. This book considers three actors who left an indelible mark on both popular and political culture for more than fifty years.

Three decades after the Sexual Revolution, women's power and status have begun to match men's, and women are finally making the rules in order to experience a more radical and truer form of liberation. Her Way demonstrates how and why 20- and 30-something women have evolved to act and think more like men sexually, while also creating their own distinct sexual patterns and appetites. Today's young women are now the leaders of an unreported but sweeping "Sexual Evolution," in which women take control of sex and redefine it from their perspective. In other words, do it "her way." Paula Kamen characterizes this Sexual Evolution according to two major developments that are setting sexual patterns for future generations of women: young women's sexual profiles are now remarkably similar to those of men, in terms of age of first intercourse, and numbers of sex partners and casual encounters. They also feel less guilt or shame about their behavior, from premarital sex to having a child out of marriage to coming out of the closet to cohabiting. Yet young women are not merely imitating men, but forging their

own distinct sexual perspectives and asserting their own needs. In addition to discovering the pleasures of sex, young women are also exploring the dilemmas, challenging male-defined sexual scripts, and changing what actually goes on in bed. Based on more than one hundred lively, unfiltered and in-depth interviews with women across the country, *Her Way* cuts through the sensationalism and speculation of popular discussions about young women and sex. Kamen reports the real story of today's enhanced sexual expectations and choices.

college days, ones that had lain dormant for a couple of decades. She leaves work with the intent of writing a letter of consolation to the university student who is returning home. Under the watchful eye of her husband, she begins to tell her own story. The protagonist's own story takes place during early integration, and she is among the first colored students to get a scholarship to Claxville University. Her parents do not want her to attend, but she does. While at the university she does experience some hazing and other acts that support her parents' arguments about her being unable to succeed at the college. There are also wonderful experiences and good friends to be had, an interracial relationship with a fellow university student (one that is brief, but poignant, passionate, and one that she cannot tell her parents about.) Brandi also has a chance meeting with a taxi driver who proves to be more than that. Thaddeus Jerome Pennington becomes her friend, that listening ear that she needs, and soon is the love interest and support she needs to continue at the school. The story has chapters like the Bus Ride, which tells of her trip to the school; Wash Day Folly in which some girls in the dorm steal her underwear from the laundry room; Cross Cultural Comparison Class (CCCC) which starts out comparing romance languages and culture, but soon turns to a comparison of Brandi's culture with that of her classmates; and Flo, which helps the reader know who Taxi really is. Insane Circumstances has twenty-two chapters which aid the reader in knowing Brandi's story and comprehending how it would serve to help the injured girl. Each action causes a reaction; some that she is proud of and some that she is not so proud of. When the story begins, it is Brandi Leigh Brown's story. As events happen, the male character (Taxi) frequently appears. Soon, the novel becomes her story, his story, and their story. In spite of the acts of hazing, etc., she does succeed. She does graduate, and marry this man who becomes her friend for a lifetime. And Thaddeus is there to support her when she writes the letter to the girl she had seen on television, the one who enacted all the memories that lay dormant for so long. Insane

### To Right the Unrightable Wrong

I'm Becky, I'm about to start 7th grade, and guess what? I'm not even nervous! I can hardly believe it. If you'd have asked me three months ago, in May, how I was, I would have said "awful! My best friend Sarah is cuter than me, plus I have freckles that I hate, my grades are terrible, Daddy lost his job, and Mom and Dad are always arguing and blaming each other for everything." Could anything be worse? You bet. I'll lay it out for you. Daddy moved out. He was drinking every day and gambling on sports. Mom told me he bets money he can't afford to lose. I was sure it was all my fault. I was getting terrible stomach aches and headaches; I figured if I could just get better grades, Mom and Dad would be happier and maybe everything would get better. To top it all off, my parents came up with the brilliant idea of sending me to Australia for the summer to stay with relatives I hardly even knew. No way! It's 1972 -- what parents would send their child half-way around the world, to the middle of nowhere? Well, I was in for some big surprises. By the end of the summer I'd found out my relatives had some of the same problems as my own family -- and I learned there are healthy, useful ways I can deal with it all. I learn it isn't my fault. And I come to have hope, one day at a time. And that boring island country they shipped me to? I had a blast! We spent weeks snorkeling off a deserted island, and played tag with fish of every color in the rainbow. I found deadly cone shells, camped with tons of other travelers waiting for flooded bridges to reopen, saw huge sea turtles lay eggs, caught the biggest grouper fish with only a hand-line, netted yabbys, survived a scary speedboat ride in the middle of an ocean storm -- and that's just the
