A beautifully repackaged 50th anniversary edition of Sonia Levitin's powerful classic story about a young Jewish girl forced to flee her home, winner of the National Jewish Book Award. In 1938, Lisa Platt and her family know something dangerous is happening in Germany. Lately, there have been more and more restrictions for Jews: yellow stars they have to wear, schools they cannot attend, things they are forbidden to do. When their neighbors are arrested for petty reasons, the Platts realize they have to escape. Forbidden to bring money or possessions out of the country, Lisa's father secretly leaves for America, planning to work until he can send for them. But when conditions in Germany worsen, Lisa, her mother, and

her sisters flee to Switzerland to wait, surviving on what little they have in a continent hurtling toward war. Inspired by Sonia Levitin's own experience of fleeing Germany as a child, this moving novel chronicles one family's bravery in the face of aggression and apathy.

A child is born in the West Indies. She is sweet, inquisitive, bright, sensitive and caring all qualities that she will maintain for many, many years to come. The sister islands of Trinidad and Tobago are among her earliest homes. She lives and learns in the most beautiful and popular areas of all the Caribbean, where rich legacies and history precede her: Once ruled by both Spain and Britain, today Trinidad and Tobago are governed by their own proud people, who've kept the traditions and culture of their ancestors since long before the islands found independence in 1962. Located just off the coast of South America, these small territories have developed an identity throughout the years that is completely their own. Dr. Eric Williams, the legendary Caribbean scholar, became the first prime minister of Trinidad and Tobago, which is one of the most diversely populated ethnic regions in the world. People of African, Native West Indian, Asian, and European descent live, love and mingle together on these lovely islands in the sunshine. English is mainly spoken among residents, but one will often hear traces of Creole, African and other language dialects in the colorful words and rhythmic accents of those who reside there. And when it comes to rhythm its hard to mention the islands without mentioning the lively calypso sounds that have entertained countless music lovers throughout the western world. Hearing them, the child one day becomes a woman who is told she

naturally walks to a calypso beat. As far back as 1498, explorer Christopher Columbus named Trinidad in honor of the Holy Trinity, and it remains a place where worshipers, many of whom are Catholic, give praise and thanks to the Creator. With more than one million people on both islands, the majority of inhabitants live in Trinidad, while about four percent of the population calls Tobago home. Trinidad's major event is the Carnival, a week-long festival of live music, costumes and parades through the street. The event attracts people from throughout the world. In fact, both islands are visited by travelers from around the globe, who enjoy pleasant weather, beaches more beautiful than postcards, tropical trees and delicious home-grown fruits. With generations of people tracing roots to the area, Trinidad and Tobago have become not only a visitor's destination, but a cradle to which great scholars, entertainers and athletes in America and elsewhere often return. This cradle in the Caribbean has given birth to the Gittens family. It has provided the earliest sights, sounds and sensibilities that influenced that special little child born into the family, a daughter who will become known as Black Pearl.

## **Consolation for Bereaved Parents**

The Abduction Prince Aiden and Princess Ariana were busy making preparations to celebrate the wonder of their first anniversary. The year had flown by, fulfilling their every dream. Aiden had adapted well to the expectations and demands of royalty, along with fatherhood. Angus, two months old, was the pride and joy of the monarchy. The marriage and parenthood brought out the softer side of the blacksmith. His son looked much like him and he held his legacy as often as possible. Princess Camille loved being a first time aunt, spending as much time as she could with Ariana and the baby. The king and Gideon reflected their approval, but usually at a distance. Aiden had relocated his blacksmith trade inside the perimeter of the castle walls, training his two replacements, while using the forge from time to time, to satisfy a more creative nature. His travels had shown him a wide array of artistic applications for his craft and a use that had yet to be satisfied in the kingdom. Aiden designed plates, bowls, mugs and a variety of hand tools, most of which were given away after fulfilling the needs of the royal family. Surprisingly, hed given his cottage to a village family, whose child had told the best story at one of his weekly gatherings. The prince had become a farmer, as well, having recently harvested his first crop of corn. Hed dried kernels for the evenings anniversary festivities in the courtyard. It would be his first presentation of pop corn since his return from the quest. He could hardly wait to see the reaction his new treat would have on the children and the prince planned to hand kernels out to the villagers

for the next years planting. Times were good and spirits high, in the realm, where the future looked promising for all. King Darian commissioned the kingdoms first ship. The vessel was built of the finest wood, with help from the Egyptian carpenters. It was a beauty to behold, equal in size to the Argo and the ship would open the island up to trade with countries in the inland sea. Jib supervised the raising of the ship and became the kingdoms first captain, through kings decree. The ship was christened the Phoenix, to honor Aidens quest and his daughters royal marriage. It was the first of six vessels commissioned by the king, with shipbuilding and global trade escalating the rapid growth of the small, inadequate anchorage. Scota sailed back to Egypt aboard the Phoenix on its maiden voyage at her fathers request and having lost any other reason to stay. Everything changed for her with the emotional loss of her husband at the hands of the Nordics. The princess carried the phoenix feather on the return to her homeland, fulfilling Aidens commitment to Queen Nefertiti. King Darian opened her old settlement up for villagers to recolonize and also began construction of a larger seaport capable of handling the increased demands of the realm. The new harbors location was near the mouth of a small river, less than a mile from the castle. While plans for the anniversary celebration were being finalized, Aiden went to the gatehouse to pay the wizard a visit. He hadnt seen Edric since just after his son was born. He took dried corn kernels, from the crop the wizard had helped him plant, to show the magician some of his own magic. Edric hadnt been as preoccupied with his magic mirror since the quest had concluded, spending much of his time grooming his own garden.

wealthy visitors said to have presented gifts to the infant Jesus. Yet hundreds of generations of Christians have embellished that image of the Three Kings or Magi for a myriad of social and political as well as spiritual purposes. Here Richard Trexler closely examines how this story has been interpreted and used throughout the centuries. Biblically, the Journey of the Magi presents a positive image of worldly power, depicting the faithful in progress toward their God and conveying the importance of the gift-giving laity as legitimators of their deity. With this in mind, Trexler explains in particular how Western societies have molded the story to describe and augment their own power--before the infant God and among themselves. The author demonstrates how the magi as a group functioned in Christian society. For example, magi plays, processions, and images taught people how to pray and behave in reverential contexts; they featured monarchs and heads of republics who enacted the roles of the magi to legitimate their rule; and they constrained native Americans to fall in line behind the magi to instill in them loyalty toward the European world order. However, Trexler also shows these philosopher-kings as competitive among each other, as were groups of different ages, races, and genders in society at large. Originally modeled on representations of the Roman triumphs, the magi have reached the present day as street children wearing crowns of cardboard, proving again the universality of the image for constructing, reinforcing, and even challenging a social hierarchy. The excellence of the Tuskegee Airmen as a group during World War II is undisputed. Theirs is an amazing story of leadership, unbounded; of future generals, U.S. Cabinet members, mayors of major cities, judges, college presidents, doctors -- out of a group of less than 1,000 men. A Pilot's Journey examines the life of a Tuskegee Airman, Curtis Robinson, up close before he arrived at Tuskegee and after he climbed out of the cockpit at the end of World War II and continued to strive and enjoy success as well as profound losses yet never ceased, "believing in God and myself to guide me in the right direction." And not only does he have a remarkable and fascinating history that he tells, but he is the descendant of a family of high achievers that he traces back to the 1730s, with five previous generations on American soil. His family's story depicts, without rancor or judgment, shameful aspects of American history and the amazing struggles and achievements of one African-American family. Curtis Robinson is unique, accomplished, and of an indomitable spirit and magnanimous nature, whose "Love thy neighbor and do unto others as you will have them do unto you" approach to life is rooted in his belief that, "If you live by those rules you're bound to have a good life."--Jacket.
