Blackwood's Edinburgh Magazine

Religion ∩ The Defamer of God brings together two perilous topics of conversation ∩ organized religion and politics ∩ and amalgamates them into a timely referenced, scholarly researched, and topically refreshing book unrivaled by any other in its class that reveals how these two subjects have worked in perfect unison to form the modern world to where we are today in regards to global crime, terrorism, political servitude, the curtailment of individual freedom in democracy, a broken global economy, and the suppression of genuine faith and individual free-will. Organized religion is maligning freedom of speech, genuine democracy, the struggling single parent, the oppressed woman, the loving same-sex relationship, the sexually liberated young person, the victim of street crime and global terrorism, the ignored desperate-hearted in our midst, the searcher of truth and justice, and the sincere seeker of faith ∩ while mankind ambivalently acquiesces to the destruction of personal freedom, self-esteem, and its very self. The Defamer of God pulls no punches, and boldly suggests an alternative to both religion and political servitude ∩ that being a personal faith of free will that refuses to be driven any longer by fear, political spin, pious tradition, social expectation, bad history, and political correctness ∩ or alternatively, no false-hearted faith at all, when manifest as forced-upon and traditionally-based religiosity that only creates modern-day dictators, terrorist mass murderers, and self-righteous stumbling blocks to

genuine faith in our workplaces, sanctuaries, communities, streets, societies, and nations in the modern 21st Century in which we find ourselves in.

The Great Pyramid and Napoleon

A Religious Encyclopaedia: Or Dictionary of Biblical, Historical, Doctrinal, and Practical Theology

Series and the final part of a three-fold project organized by BAK under same title, in which the popular assumption of the return of religion to the field of artistic practice and its discourses, the public sphere, contemporary politics, and media in the West is interrogated as a constitutive "myth" of our current condition. Through a wide-ranging selection of texts, a group of artists, art historians and theorists, scholars of religion, and sociologists unpack the historical underpinnings of religion's so-called "return", art's long-standing relationship with iconoclasm and connection to religious representation, the manipulation of certain religious imagery in the mass media, and contemporary art's potential to complicate and problematize commonly-held beliefs about the role and potential of the image in today's world.

True or false? Most porn users are uneducated, lonely and sad old men. All porn is violent. Pornography turns people into rapists and/or paedophiles. Pornography uniformly portrays women as passive objects of men's sexual urges. The Porn Report debunks these and many other misconceptions about porn consumers, producers and the industry at large. In the first comprehensive examination of the production and consumption of pornography in Australia, Alan McKee, Kath Albury and Catharine Lumby present a wide-ranging view of the adult-content industries and its consumers. If you've ever wondered what's in Australia's bestselling 50 porn videos and DVDs; what's behind amateur or do-it-yourself porn; and how porn is produced and distributed, The Porn Report will not only answer your questions, but also surprise you. The authors also discuss feminist responses to pornography and provide important advice to parents on how they can protect their children from cyberstalkers and from viewing online porn. If pornography arouses, repels or simply piques your curiosity, you cannot afford to miss The Porn Report.

Liberated from X-rated bookstores and strip clubs, porn is now everywhere. Pop-Porn seeks to examine this phenomenon in some of its most striking manifestations. Rather than focusing on the current polarity of basic pro and con views on this topic, these essays show that pornography is subtly and profoundly embedded in our cultural fabric. They demonstrate that Americans are addicted to porn, but are forced to disguise it as fashion, hygiene, class commentary, or other forms of entertainment. Contributors to the book come from a wide variety of disciplines and their essays address a wide range of porn-infiltrated sites, from magazines to radio to film to television to fashion. While each contributor may perceive porn differently, they all address its pervasiveness in America's current, conservative state.

Fundamentalist Journal

These are his final moments. In the little city of Wood River, Illinois, a man nicknamed Firecracker knows the end is near. The fire is coming, just like it came for his father, his grandfather, and who knows how many men. After all, folks in those parts have a short-term memory when it comes to history, and lots of stories have a tendency to go to the grave. Maybe the fire was always there. Maybe it came along when the oil refinery went up in 1907. Who can say? Sometimes, a yarn like this is as close to a history book as a Midwest community and its people are apt to get. When it happened to his father, the doctors only called it an accident. But Firecracker's mother had a name for it: spontaneous combustion. Firecracker knows there is no way to escape this Act

of God, so he retreats into his memories. Past and present become one and the same. The veil of reality pulls away and Death arrives in time for one last conversation, where Firecracker comes to terms with the mysteries of his own life, and realizes that some questions are not nearly as important as the moments which spawned them. From the first line of the tale that sees his eyes explode to--moments and pages later--his whole body being consumed by flame, Firecracker experiences his life and loves through a succession of memories, reveals his friendship with Death, and talks about the men in his family's unfortunate predisposition. This is a yarn about life and death and spontaneous human combustion. This is a tale of a man with a fire inside him. At the End of the Day I Burst into Flames is a horror story about how beautiful love can be.

Jack and Judith Balswick investigate how human sexuality originates both biologically and socially, lay groundwork for a normative Christian interpretation of sexuality, show how authentic sexuality is necessarily grounded in relationships, and explore forms of "inauthentic sexuality" such as sexual harassment, pornography and rape.
