The Miracles of Our Lord in Relation to Modern Criticism

A Life of Miracles

The author of such novels as "Empire of the Sun" and "Crash" recalls his childhood, his first attempts at science fiction, and his life as a single father after the premature death of his wife.

Miracles Are Made

Interaction with the saints was central to the everyday life of medieval Christians. The process of praying to a heavenly intercessor not only involved private devotion but was also intrinsically connected with society at large. It required the individual to communicate and negotiate both with the saint and within a group of devotees, thereby exposing social processes such as community dynamics and the construction of gender. Considering these issues and others, *Gender, Miracles, and Daily Life* focuses on the depositions of the canonization processes of Thomas Cantilupe (1307) and Nicholas of Tolentino (1325). It explores how ordinary laypeople understood the daily responsibilities that determined their relationship to the saints and

articulates how their shared narratives contributed to the rituals which surrounded a miracle. This material has been little explored by scholars, yet offers a vivid and colourful insight into the world of men and women in the fourteenth century.

Maddie's Miracles

Life-Changing Miracles

God's Miracles In My Life; Model Father of 70 Million People

The miracle stories surrounding Sainte Foy form one of the most complete sets of material relating to a medieval saint's cult and its practices. Pamela Sheingorn's superb translation from the Medieval Latin texts now makes this literature available in English. The Book of Sainte Foy recounts the virgin saint's martyrdom in the third century (Passio), the theft of her relics in the late ninth century by the monks of the monastery at Conques (Translatio), and her diverse miracles (Liber miraculorum); also included is a rendering of the Provençal Chanson de Sainte Foy, translated by Robert L. A. Clark. The miracles distinguish Sainte Foy as an unusual and highly individualistic child saint displaying a fondness for gold and pretty things, as well as a penchant for playing practical jokes on her worshippers. In his record of Sainte Foy, Bernard of Angers, the eleventh-century author of the first parts of the Liber miraculorum, emphasized the saint's "unheard of" miracles, such as replacing missing body parts and bringing dead animals back to life. The introduction to the volume situates Sainte Foy in the history in the history of hagiography and places the saint and her monastery in the social context of the high Middle Ages. Sheingorn also evokes the rugged landscape of south central France, the picturesque village of Conques on the pilgrimage road, and, most important, the golden, jewel-encrusted reliquary statue that medieval believers saw as the embodiment of Sainte Foy's miracle-working power. In no other book will readers enjoy such a comprehensive portrait of Sainte Foy and the culture that nurtured her.
