A Selection of Dialect Poems

Glen McLean and Keith Chamberlain have lived together for four years. Their love for each other is solid, or so it seems until Katie Collins returns to their small town outside of Dallas. Her marriage is ending and she is pregnant...possibly by Glen through a procedure at a fertility clinic, she says. Keith doesn't buy it. He believes that her pregnancy is the result of a sexual encounter with Glen, and he is consumed with jealousy and the fear that Katie has returned to take Glen from him. Gentry Phillips, the handsome 18-year-old son of a Southern Baptist minister, is in love with his best friend. He is wracked by fear that he is gay—an abomination that will bring God's judgment. He turns to Glen, a respected teacher, for guidance, and by so doing makes Glen a target for his father's wrath. Katie's aunt is an ardent supporter of Gentry's father, Reverend Phillips, in his unrelenting condemnation of homosexuals. She is outraged that Katie is naming Glen as her baby's father. "You'd have to be dumb as dirt to put a pervert on your baby's birth certificate. What if something happened to you and that homosexual tried to lay claim to your baby?"

Current Opinion

A blazingly funny, heartfelt memoir from the daughter of the larger-than-life woman who ran Sticky Fingers Brownies, an underground bakery that distributed thousands of marijuana brownies per month and helped provide medical marijuana to AIDS patients in San Francisco—for fans of Armistead Maupin and Patricia Lockwood During the '70s in San Francisco, Alia's mother ran the underground Sticky Fingers Brownies, delivering upwards of 10,000 illegal marijuana edibles per month throughout the circus-like atmosphere of a city in

the throes of major change. She exchanged psychic readings with Alia's future father, and thereafter had a partner in business and life. Decades before cannabusiness went mainstream, when marijuana was as illicit as heroin, they ingeniously hid themselves in plain sight, parading through town--and through the scenes and upheavals of the day, from Gay Liberation to the tragedy of the Peoples Temple--in bright and elaborate outfits, the goods wrapped in hand-designed packaging and tucked into Alia's stroller. But the stars were not aligned forever and, after leaving the city and a shoulda-seen-it-coming divorce, Alia and her mom returned to San Francisco in the mid-80s, this time using Sticky Fingers' distribution channels to provide medical marijuana to friends and former customers now suffering the depredations of AIDS. Exhilarating, laugh-out-loud funny, and heartbreaking, Home Baked celebrates an eccentric and remarkable extended family, taking us through love, loss, and finding home.

How to Choose the Sex of Your Baby

Love You Forever

The Ape that Understood the Universe is the story of the strangest animal in the world: the human animal. It opens with a question: How would an alien scientist view our species? What would it make of our sex differences, our sexual behavior, our child-rearing patterns, our moral codes, our religions, our languages, and science? The book tackles these issues by drawing on ideas from two major schools of thought: evolutionary psychology and cultural evolutionary theory. The guiding assumption is that humans are animals, and that like all animals, we evolved to pass on our genes. At some point, however, we also evolved the capacity for culture - and from that moment, culture began evolving in its own right. This transformed us from a mere ape into an ape capable of reshaping the planet, travelling to other worlds, and understanding the vast universe of which we're but a tiny, fleeting fragment.

Our Lives Together

Wherever You Are

Pencils Down! has been forty-five years in the making. It is hoped that by sharing classroom experiences, the reader will be entertained, enlightened, and educated. The ideas presented are written for all educators: veteran, novice, substitute and student teachers, parents who homeschool, college and university professors, as well as for anyone who has a child in his or her care. The guide offers the fruit of my experiences, gleaned from a lifetime in the classroom. Writing this book has been a labor of love, and it is my sincere hope that all educators reading this book will find some fresh insight into the wonderful profession of teaching. Pencils Down! will take you on a journey whose itinerary begins in elementary school and spans more than four decades. I have taken that journey at the head of the class. Many an author has written a book on education without ever having stepped into a real classroom. I have stepped into many classrooms, many times, over many years, and now feel qualified to write my first book. Having successfully survived as a teacher forty-five years in the public and private sectors of both the New York and Nevada school systems prompted me to write this book, a book packed with lessons that work, school humor, enrichment activities, and sage advice ready to be used by anyone who desires to instill a love of learning in a child. You may wish to do many of the lessons with your students. Most of the text deals with activities based on beloved children's books. I have selected more than fifty children's books I most enjoyed reading and teaching

my students. Although some of these books never achieved Newbery Medal award status, each book teaches something of life's lessons, and each is a gem. My first priority was selecting excellent children's books. I have selected a broad and diverse collection of children's books with the hope that by using these books daily with all elementary school children, each child can learn to love books and appreciate the extended benefits of lifelong literacy. To give you a true flavor of what is covered, a summary of each part follows. Welcome to Pencils Down! Part One: School Humor You are reading this either because you are contemplating a career in teaching or are curious to find out whether a veteran teacher can still be sane after spending forty-five years in the classroom. Part One presents the humorous side to an otherwise serious profession. You will get a glimpse of nineteenth and early twentieth century rules for teachers and peruse a copy of the contract teachers were made to sign. Both will make you wonder why anyone would consider a career in education. You will find out what teachers make and be privy to the public's low opinion of teachers' salaries. If you survive the reality show for educators, you may continue reading the book. School anecdotal incidents, accrued from many years in the classroom, will be shared. You will learn why God created the teacher and will be introduced to the new school policy. A test designed for preschoolers will challenge you. Answers from kindergartners and first graders as to why we read and write will be sure to surprise and amuse you. Actual student test answers and parental notes are included, both good for a chuckle. The difference between an educator and a teacher will be clarified. Today's schools, vs. schools in the 50's and 60's, will make you wish you were teaching in a simpler era and make you wonder if schools are still teaching math. An Australian school's answering machine will make you smile, as will the eleven things you did not and will not learn in school. Part Two: Getting to Know You "Getting to know you, Getting to know all about you.

I'm Still Awake, Still!

Reborn is the compelling and frank early diary of Susan Sontag. 'Vivid, exhilarating, often moving . . . charts the development of a good writer and an important critic' *Sunday Telegraph* 'I intend to do everything . . . I shall anticipate pleasure everywhere and find it too, for it is everywhere! I shall involve myself wholly . . . everything matters!' This first selection from Susan Sontag's diaries (from 1947-1963) takes us from early adolescence though to when Sontag was in her early thirties. It is an astonishingly affecting, honest self-portrait which is also a fascinating, revealing account of an artist and critic being born. We see Sontag honing her skills and fashioning herself, by a supreme act of will, into an intellectual force. 'Fascinating. One can feel Sontag's mind beginning to ripen and bloom, and the full force of the intellectual originality that would be her hallmark emerging' *Guardian* 'Inspirational. Sontag shows us not just the importance, but the exhilaration of being earnest' *New Statesman* 'A fascinating document of her apprenticeship, charting her earnest quest for education, identity, and voice. *Reborn* is overwhelmingly a record of an inner landscape' *New York Review of Books* 'One of the finest American writers, thinkers, and political activists of the past four decades . . . an intimate portrait of her early life' *Independent on Sunday* One of America's best-known and most admired writers, Susan Sontag was also a leading commentator on contemporary culture until her death in December 2004. Her books include four novels and numerous works of non-fiction, among them *Regarding the Pain of Others*, *On Photography*, *Illness as Metaphor*, *At the Same Time*, *Against Interpretation* and *Other Essays* and *Reborn: Early Diaries 1947-1963*, all of which are published by Penguin. A further eight books, including the collections of essays *Under the Sign of Saturn* and *Where the Stress Falls*, and the novels *The*

Volcano Lover and The Benefactor, are available from Penguin Modern Classics.
