Five Quarters Of The Orange

"A dizzily shopaholic comedy. . . . Wickedly delectable." --Janet Maslin, The New York Times "Must-read." --The Hollywood Reporter "Opulence and zaniness reign." --O, The Oprah Magazine "It's impossible not to get sucked into this satirical novel." --Glamour "Juicy." --Elle "A 48-karat read. . . . crazy fun." --Entertainment Weekly "Like Dynasty on steroids with more private jets, bigger houses, and a lot more money." --Vanity Fair When New Yorker Rachel Chu agrees to spend the summer in Singapore with her boyfriend, Nicholas Young, she envisions a humble family home. But as it turns out, Nick's childhood home looks like a palace, and he just happens to be the country's most eligible bachelor. On Nick's arm, Rachel may as well have a target on her back, and her relaxed vacation soon turns into an obstacle course of old money, new money, nosy relatives, and scheming social climbers.

The Girl with No Shadow

Vianne Rocher has settled down. Lansquenet-sous-Tannes, the place that once rejected her, has finally become her home. With Rosette, her 'special' child, she runs her chocolate shop in the square, talks to her friends on the river, is part of the community. Even Reynaud, the priest, has become a friend. But when old Narcisse the florist dies, leaving a parcel of land to Rosette and a written confession to Reynaud, the life of the sleepy village is once more thrown into disarray. The arrival of Narcisse's relatives, the departure of an old friend and the opening of a mysterious new shop in the place of the florist's across the square all seem to herald some kind of change: a confrontation, a turbulence - even, perhaps, a murder

Red Thunder

When the exotic stranger Vianne Rocher arrives in the old French village of Lansquenet and opens a chocolate boutique called "La Celeste Praline" directly across the square from the church, Father Reynaud identifies her as a serious danger to his flock. It is the beginning of Lent: the traditional season of self-denial. The priest says she will be out of business by Easter.

To make matters worse, Vianne does not go to church and has a penchant for superstition. Like her mother, she can read Tarot cards. But she begins to win over customers with her smiles, her intuition for everyone's favourites, and her delightful confections. Her shop provides a place, too, for secrets to be whispered, grievances aired. She begins to shake up the rigid morality of the community. Vianne's plans for an Easter Chocolate Festival divide the whole community. Can the solemnity of the Church compare with the pagan passion of a chocolate éclair? For the first time, here is a novel in which chocolate enjoys its true importance, emerging as an agent of transformation. Rich, clever, and mischievous, reminiscent of a folk tale or fable, this is a triumphant read with a memorable character at its heart. Says Harris: "You might see [Vianne] as an archetype or a mythical figure. I prefer to see her as the lone gunslinger who blows into the town, has a showdown with the man in the black hat, then moves on relentless. But on another level she is a perfectly real person with real insecurities and a very human desire for love and acceptance. Her qualities too - kindness, love, tolerance - are very human." Vianne and her young daughter Anouk, come into town on Shrove Tuesday. "Carnivals make us uneasy," says Harris, "because of what they represent: the residual memory of blood sacrifice (it is after all from the word "carne" that the term arises), of pagan celebration. And they represent a loss of inhibition; carnival time is a time at which almost anything is possible." The book became an international best-seller, and was optioned to film quickly. The Oscar-nominated movie, with its star-studded cast including Juliette Binoche (*The English Patient*) and Judi Dench (*Shakespeare in Love*), was directed by Lasse Hallstrom, whose previous film *The Cider House Rules* (based on a John Irving novel) also looks at issues of community and moral standards, though in a less lighthearted vein. The idea for the book came from a comment her husband made one day while he was immersed in a football game on TV. "It was a throwaway comment, designed to annoy and it did. It was along the lines of *Chocolate is to women what football is to men*" The idea stuck, and Harris began thinking that "people have these conflicting feelings about chocolate, and that a lot of people who have very little else in common relate to chocolate in more or less the same kind of way. It became a kind of challenge to see exactly how much of a story I could get which was uniquely centred around chocolate." Rich with metaphor and gorgeous writingsit back and gorge yourself on *Chocolat*.

LES MISERABLES

Stories are like Russian dolls; open them up, and in each one you'll find another story. Come to the house where it is Christmas all year round; meet the ghost who lives on a Twitter timeline; be spooked by a newborn baby created with sugar, spice and lashings of cake. Conjured from a wickedly imaginative pen, here is a new collection of short stories that showcases Joanne Harris's exceptional talent as a teller of tales, a spinner of yarns. Sensuous, mischievous, uproarious and wry, here are tales that combine the everyday with the unexpected; wild fantasy with bittersweet reality.

The Little Book of Chocolat

When *Intellectual Impostures* was published in France, it sent shock waves through the Left Bank establishment. When it was published in Britain, it provoked impassioned debate. Sokal and Bricmont examine the canon of French postmodernists - Lacan, Kristeva, Baudrillard, Irigaray, Latour, Virilio, Deleuze and Guattari - and systematically expose their abuse of science. This edition contains a new preface analysing the reactions to the book and answering some of the attacks.

A Cat, a Hat, and a Piece of String

Take your partners, please. Suburban witches, defiant old ladies, ageing monsters, suicidal Lottery winners, wolf men, dolphin women and middle-aged manufacturers of erotic leatherwear: in Joanne Harris's first collection of short stories the miraculous goes hand-in-hand with the mundane, the sour with the sweet, and the beautiful, the grotesque, the seductive and the disturbing are never more than one step away. This is an eclectic selection of tales for our times that shows a side to Joanne Harris you have never seen before. So go on, be tempted. After all, it's only dancing.

The Evil Seed

'Her strongest writing yet: as tangy and sometimes bitter as *Chocolat* was smooth'
INDEPENDENT A GRIPPING PAGE-TURNER SET IN OCCUPIED FRANCE, FROM THE BESTSELLING AUTHOR OF *CHOCOLAT* AND *THE STRAWBERRY THIEF* Beyond the main street of Les Laveuses runs the Loire, smooth and brown as a sunning snake - but hiding a deadly undertow beneath its moving surface. This is where Framboise, a secretive widow, plies her culinary trade at the crêperie - and lets her memory play strange games. As her nephew attempts to exploit the growing success of the country recipes Framboise has inherited from her mother, a woman remembered with contempt by the villagers, memories of a disturbed childhood during the German Occupation flood back, and expose a past full of betrayal, blackmail and lies. 'Just as she did in *Chocolat*, Harris indulges her love of rich and mouth-watering descriptive passages, appealing to the senses with seductively foreign names, and evoking the textures and smells of food. These descriptions are suffused with a child's wide-eyed wonder that lends the story a magical quality, almost like a folk tale Thoroughly enjoyable' GUARDIAN

Intellectual Impostures

Chocolat

I saw her first. Blonde. Gorgeous. Feisty. I was smitten. But it didn't matter because she chose him and he was my best friend and roommate. I'd never be able to compete with that, so I pushed her away instead. It was easy when she lived hours away, and I didn't have to see her every day, but then she moved in with us. Now, I'm screwed. To her singing in the shower every morning, dancing in the kitchen while she makes coffee, and doing yoga in our living room, I can't stop thinking about her in all the wrong ways. She's not mine and never will be, but that doesn't stop me from wanting to push her against a wall and claim her mouth. She's constantly on me for making messes, bringing chicks home every weekend, and being a smartass when their PDA gets on my nerves. Considering neither of them know how I feel, it's

not fair for the way I act toward them. I should move out so I can get over her for good; however, the selfish part of me can't let go. But then the unthinkable happens When my best friend dies in a motorcycle accident, the two of us are left to grieve our loss together. Instead of pushing her away, I pull her closer. Just as we come to terms with our new reality, she finds out she's pregnant with his baby. And I'm left to make the hardest decision of my life **BABY MINE is an angsty, emotional, slow-burn unrequited romance wrapped up in a heartbreakingly delicious love story. It's book 1 in the Hunter & Lennon duet of the Roommate Duet Series and must be read first. Recommended for ages 18+ only.**

The Vitamin A Story

Now, at last, *Chocolat*'s heroine returns to the beautiful French village of Lansquenet in another, equally beguiling tale. When Vianne Rocher receives a letter from beyond the grave, she has no choice but to return to Lansquenet, where she once owned a chocolate shop and learned the meaning of home. But returning to ones past can be a dangerous pursuit, and Vianne and her daughters find the beautiful French village changed in unexpected ways: women veiled in black, the scent of spices in the air, and facing the church's minaret. Most surprising of all, her old nemesis, Francis Reynaud, desperately needs her help. Can Vianne work her magic once again?

Peaches for Monsieur le Cur

Horticultural sector presents many opportunities for economic development and improving livelihood of growers but several factors constrain production and limit the potential for trade of fruits and vegetables. Tephritid fruit flies constitute a major constraint. They cause enormous losses through direct feeding damage and loss of market opportunities through imposition of quarantine restrictions by importing countries to prevent entry and their establishment. In Africa, several native (*Ceratitis* and *Dacus* spp) and exotic (*Bactrocera* and *Zeugodacus* spp.) species inflict considerable losses to horticulture causing losses ranging from 30-90%. Over the past 10 years of R&D, extensive information has been generated on bioecology and management of several native and exotic fruit flies in Africa. While several specific reviews have addressed various aspects of the biology, ecology and management of economically important tephritid fruit flies; coverage of African native species has been limited largely to *Bactrocera oleae* and *Ceratitis capitata* - which are not economically important species in many Africa countries. Indeed, no book exist that have explicitly addressed economically important African fruit flies and none of the various reviews, have specifically focused on the status of the bioecology, economic impact and management of exotic and native fruit flies - including several potentially invasive *Dacus* species attacking vegetables - in Africa. This book consolidates this status of knowledge and socio-economic impact of various intervention techniques that are currently being applied across Africa. The timing of the book is especially pertinent due to the changing fruit fly landscape in Africa - caused by arrivals of the highly destructive alien invasives (*Bactrocera dorsalis*, *B. zonata*, and *B. latifrons*) - and the priorities African countries have placed recently on export of fruits and vegetables to international markets. This is an important reference material for researchers, academics and students that are keen at improving horticulture and enhancing food and nutrition security in Africa and beyond.

This book shows how vitamin A deficiency — before the vitamin was known to scientists — affected millions of people throughout history. It is a story of sailors and soldiers, penniless mothers, orphaned infants, and young children left susceptible to blindness and fatal infections. We also glimpse the fortunate ones who, with ample vitamin A-rich food, escaped this elusive stalker. Why were people going blind and dying? To unravel this puzzle, scientists around the world competed over the course of a century. Their persistent efforts led to the identification of vitamin A and its essential role in health. As a primary focus of today's international public health efforts, vitamin A has saved hundreds of thousands of lives. But, we discover, they could save many more were it not for obstacles erected by political and ideological zealots who lack a historical perspective of the problem. Although exhaustively researched and documented, this book is written for intellectually curious lay readers as well as for specialists. Public health professionals, nutritionists, and historians of science and medicine have much to learn from this book about the cultural and scientific origins of their disciplines. Likewise, readers interested in military and cultural history will learn about the interaction of health, society, science, and politics. The author's presentation of vitamin A deficiency is likely to become a classic case study of health disparities in the past as well as the present.

HIV Vaccines and Cure

This book will tell all you need to know about British English spelling. It's a reference work intended for anyone interested in the English language, especially those who teach it, whatever the age or mother tongue of their students. It will be particularly useful to those wishing to produce well-designed materials for teaching initial literacy via phonics, for teaching English as a foreign or second language, and for teacher training. English spelling is notoriously complicated and difficult to learn; it is correctly described as much less regular and predictable than any other alphabetic orthography. However, there is more regularity in the English spelling system than is generally appreciated. This book provides, for the first time, a thorough account of the whole complex system. It does so by describing how phonemes relate to graphemes and vice versa. It enables searches for particular words, so that one can easily find, not the meanings or pronunciations of words, but the other words with which those with unusual phoneme-grapheme/grapheme-phoneme correspondences keep company. Other unique features of this book include teacher-friendly lists of correspondences and various

regularities not described by previous authorities, for example the strong tendency for the letter-name vowel phonemes (the names of the letters) to be spelt with those single letters in non-final syllables.

From the author of *Chocolat*, an intoxicating fairy tale of alchemy and love where wine is the magic elixir. Jay Mackintosh is a 37-year-old has-been writer from London. Fourteen years have passed since his first novel, *Jackapple Joe*, won the Prix Goncourt. His only happiness comes from dreaming about the golden summers of his boyhood that he spent in the company of an eccentric vintner who was the inspiration of Jay's debut novel, but who one day mysteriously vanished. Under the strange effects of a bottle of Joe's '75 Special, Jay decides to purchase a derelict yet promising chateau in Lansquenet-sous-Tannes. There, a ghost from his past waits to confront him, and his new neighbour, the reclusive Marise - haunted, lovely and dangerous - hides a terrible secret behind her closed shutters. Between them, there seems to be a mysterious chemistry. Or could it be magic? Joanne Harris's previous novel, *Chocolat*, was both a dazzling literary success and a commercial triumph. *Chocolat*, the major motion picture directed by Lasse Hallström (*The Cider House Rules*), was released in December 2000, starring Juliette Binoche, Johnny Depp, Dame Judy Dench, Alfred Molina, and Lena Olin. The Clergy directory and parish guide

Five past midnight, three years after the End of the World, and, as usual, there was nothing to be seen or heard in the catacombs - except, of course , for the rats and (if you believed in

them) the ghosts of the dead. Runelight is set in a world coming back to life, but it is also a world in conflict. For Maddy, born with the mark of magic on her hand, the return of the old gods and the overthrow of the brutal Order who suppressed them is a time of excitement. But for Maggie, raised as part of the Order, it is a time of chaos and desolation, as her family and values are wiped out. Like the two girls, the new world remains divided - the old regime has gone but with nothing to take its place, anarchy is beginning to spread. Joanne Harris draws us back into the richly imagined world first introduced in Runemarks -a world not unlike our own, had it been shaped by the Vikings instead of the Romans. But if its inhabitants, including Maddy and Maggie, can't solve their differences soon, they will destroy their world altogether.
