A classic work of American literature that has not stopped changing minds and lives since it burst onto the literary scene, *The Things They Carried* is a ground-breaking meditation on war, memory, imagination, and the redemptive power of storytelling. *The Things They Carried* depicts the men of Alpha Company: Jimmy Cross, Henry Dobbins, Rat Kiley, Mitchell Sanders, Norman Bowker, Kiowa, and the character Tim O'Brien, who has survived his tour in Vietnam to become a father and writer at the age of forty-three. Taught everywhere—from high school classrooms to graduate seminars in creative writing—it has become required reading for any American and continues to challenge readers in their perceptions of fact and fiction, war and peace, courage and fear and longing. *The Things They Carried* won France's prestigious Prix du Meilleur Livre Etranger and the Chicago Tribune Heartland Prize; it was also a finalist for the Pulitzer Prize and the National Book Critics Circle Award.

"Nearly all of us either have had or have heard of an experience in which a soul already departed reaches back to us who have been left behind. Sometimes, it's no more than a whisper, a familiar smell in the air, or just the feeling of presence as vivid as when the loved one was still alive. These moments are just that moments, a glimpse behind the veil; not a letter from heaven, but a postcard." (Dan Gordon, *Postcards from Heaven*) A postcard from heaven is not a revelation from on high -- rather, it's "a whisper, a familiar smell in the air, or just the feeling of presence" of someone who's passed away. It is just enough of a message to imply that what we call life is not ended by what we call death. Dan Gordon has been receiving these postcards all his life -- from his father, his older brother, and his son Zaki, who was killed in a car accident when he was only twenty-two. *Postcards from Heaven* is the beautiful, inspirational memoir of four generations of a remarkable family and how they remain interconnected, a part of one another's stories, even after passing to the other side. Here is the span of his father's long life, moving and funny, from the Russian Revolution to his improbable Depression-era courtship of a woman named Goddess -- Gordon's mother -- to his spiritual later years in Israel; his incorrigible older brother's mischievous magic, able to find humor even in cancer treatment; and his brilliant son, a natural storyteller who looked destined to follow his father into the movie business. These are the stories of their lives on earth as well as after death. Full of humor, compassion, and love, *Postcards from Heaven* comforts and assures us that those we loved can reach back to those of us still on earth -- and, if only we are attentive enough to listen, we can hear them say, Got here safe. It's really beautiful. Much love, till we meet again.

Rich and his contributing authors give a far reaching, rigorous analysis of the impact that professional sports stadiums and arenas have on the economies of their host communities. Critical of, yet sympathetic to, the problems of the sports industry, the book emphasizes the cost of sports facilities and makes clear that as engines of economic development, they are of dubious value. Thoroughly researched and scrupulously objective, the book provides among other things the first comparative study of host cities, raises the question of the role of the sports media, and examines the "theater of sports" and its cultural meaning.
