Preparing to Prepare: A General Guide to Self-Sufficiency & Preparedness takes a duration-based approach to the potential disruptions or calamities that might befall an individual, family, community, or region. These disruptions to daily life could be weather-related, societal, or originate from unexpected places like health problems and loss of employment. Preparing to Prepare walks the reader through personal assessments by asking the reader to answer very specific thought-provoking questions geared toward helping them understand their environment and the potential pitfalls that life may throw at them. Readers aren't left hanging though as Mr. Kershner provides clarity as he proposes solutions, concepts, suggestions, lists, and points to make note of in order to handle minor (1-week max), moderate (1-3 weeks max), and major (4-weeks +) disruptions to everyday life.

An in-depth look at proposal preparation showing how to convey the basic information required to demonstrate capability, competence, compliance, comprehension, and credibility in a proposal. Describes the proposal evaluation process in a way that will give vital clues needed to prepare a winning proposal, and suggests a standardized methodology. Covers the major parts of a proposal, proposal marketing, and planning steps that must be taken prior to the start of the proposal development process.

In 2005-2006, students with disabilities comprised 9% of the student population in the U.S., and English language learners comprised 10%. This report examines: (1) the extent to which teacher preparation programs require preparation for general classroom teachers to instruct these student subgroups; (2) the role selected states play in preparing general classroom teachers to instruct these student subgroups; and (3) funding and other assistance provided by the U.S. Dept. of Educ. to help general classroom teachers instruct these student subgroups. To address these issues, the author conducted a nationally representative survey of teacher preparation programs and interviewed officials from state and local educational agencies in four states. Illus.
