interviews? Or why they point to the heavens following a home run or a touchdown? This book takes a look at the relationship between top athletes and religiosity (or spirituality) in a number of different ways. It aims to address the issues of when sport and religion began to merge, whether professional athletes are, in fact, more religious than the rest of the population, how a spiritual mindset might (or might not) benefit athletes, and why wearing the same underwear during a winning streak has anything to do with religious faith. These questions are confronted by looking at psychological and sociological studies, conducting original research, and examining exclusive interviews with professional athletes. So what does a player like Jerry Stackhouse think of the culture of faith in the NBA? How does an agnostic athlete view the religiously themed celebrations in the NFL? Are top performers in other walks of life just as religious as top athletes? The results might surprise you.

Rising Above Lyme Disease is a comprehensive, whole-body approach to overcoming Lyme disease and reclaiming your life. Incidence of Lyme disease is skyrocketing. If caught early, antibiotics can often successfully treat it, but more often than not, Lyme is asymptomatic and evades diagnosis until it is a full-blown, chronic condition that requires a multi-faceted treatment plan. In *Rising Above Lyme Disease*, renowned naturopath and Lyme-literate doctor Julia Greenspan presents a Comprehensive and Alternative Medicine (CAM) approach for recovery for those who have been suffering with this disease for weeks, months, years, or even decades. Operating from the front lines of the epidemic in New England, she gives hope to those who thought there was none, or feel unheard by all those around them. Dr. Greenspan's integrative treatment plan addresses not only the body, but the mind as well, and includes: Standard protocols such as antibiotic and probiotic care, which can be essential to long-term healing (despite fears) Detoxing and dietary changes that help get proven results Therapies such as yoga, massage, earthing, and qi gong Therapies that dig deeper (when nothing else seems to be working) and focus on removing obstacles to healing, such as past trauma, negative beliefs about self, unhealthy lifestyle choices, genetics, hormone imbalance, environmental toxins, and other infections—all of which have a very real, and often overlooked, effect on recovery Through this comprehensive approach that focuses on the whole person and the very personal ways in which the disease may affect one's life, it is possible to find relief, become your best advocate, and ultimately, rise above Lyme.

In the tradition of *The Higher Power of Lucky* and *Because of Winn Dixie*, a young girl deals with her mother's suicide in this riveting debut novel that explores love, loss, family, friendship, and redemption. In the summer of 1977, twelve-year-old Dulcie Louise Dixon arrives on the doorstep of her Aunt Bernie's farmhouse in Shepherdsville, Ohio, with no voice, a spelling bee trophy, a Webster's Dictionary, and a box full of ashes. She tries to adjust to her new situation, but can't forget the words she left behind or the mother she's lost to suicide. One day, Dulcie discovers a secret place: a swan's nest in the woods where at last, her broken world begins to mend. With the help of her surprising new friends—a guitar-playing runaway, a poetry-loving preacher, a one-armed gas station attendant, a singing seamstress, a chained-up hunting dog, and a family of swans—Dulcie is finally able to rise out of her
