\*\*\* Promotion - returns to \$4.99 on 7/28 \*\*\* "will appeal not only to The Wheel of Time readers, but to anybody looking for a coming-of-age fantasy tale with likeable characters and strong worldbuilding." - Fantasy Faction It has been twenty years since the end of the war. The dictatorial Augurs - once thought of almost as gods - were overthrown and wiped out during the conflict, their much-feared powers mysteriously failing them. Those who had ruled under them, men and women with a lesser ability known as the Gift, avoided the Augurs' fate only by submitting themselves to the rebellion's Four Tenets. A representation of these laws is now written into the flesh of any who use the Gift, forcing those so marked into absolute obedience. As a student of the Gifted, Davian suffers the consequences of a war fought – and lost – before he was born. Despised by most beyond the school walls, he and those around him are all but prisoners as they attempt to learn control of the Gift. Worse, as Davian struggles with his lessons, he knows that there is further to fall if he cannot pass his final tests. But when Davian discovers he has the ability to wield the forbidden power of the Augurs, he sets into motion a chain of events that will change everything. To the north, an ancient enemy long thought defeated begins to stir. And to the west, a young man whose fate is intertwined with Davian's wakes up in the forest, covered in blood and with no memory of who he is...

## **Shadow's Due**

This book examines and establishes connections between Italian Fascism and Hindu nationalism, connections which developed within the frame of Italy's anti-British foreign policy. The most remarkable contacts with the Indian political milieu were established via Bengali nationalist circles. Diplomats and intellectuals played an important role in establishing and cultivating those tie-ups. Tagore's visit to Italy in 1925 and the much more relevant liaison between Subhas Chandra Bose and the INA were results of the Italian propaganda and activities in India. But the most meaningful part of this book is constituted by the connections and influences it establishes between Fascism as an ideology and a political system and Marathi Hindu nationalism. While examining fascist political literature and Mussolini's figure and role, Marathi nationalists were deeply impressed and influenced by the political ideology itself, the duce and fascist organisations. These impressions moulded the RSS, a right-wing, Hindu nationalist organisation, and Hindutva ideology, with repercussions on present Indian politics. This is the most original and revealing part of the book, entirely based on unpublished sources, and will prove foundational for scholars of modern Indian history.

STUDENTS OF HONOR . . . The Star Kingdom of Manticore is once again at war with the Republic of Haven after a stunning sneak attack. The graduating class from Saganami Island, the Royal Manticoran Navy's academy, are going straight from the classroom to the blazing reality of all-out war. Except for the midshipmen assigned to the heavy cruiser HMS Hexapuma, that is. They're being assigned to the Talbott Cluster, an out of the way backwater, far from the battle front. The most they can look forward to is the capture of the occasional pirate cruiser and the boring duty of supporting the Cluster's peaceful integration with the Star Kingdom at the freely expressed will of eighty percent of the Cluster's citizens. With a captain who may have seen too much of war and a station commander who isn't precisely noted for his brilliant and insightful command style, it isn't exactly what the students of Honor Harrington, the "Salamander," expected. But things aren't as simple  $\frac{3}{4}$  or tranquil  $\frac{3}{4}$  as they appear. The "pirates" they encounter aren't what they seem, and the "peaceful integration" they expected turns into something very different. A powerful alliance of corrupt Solarian League bureaucrats and ruthless interstellar corporations is

determined to prevent the Cluster's annexation by the Star Kingdom . . . by any means necessary. Pirates, terrorists, genetic slavers, smuggled weapons, long-standing personal hatreds, and a vicious alliance of corporate greed, bureaucratic arrogance, and a corrupt local star nation with a powerful fleet, are all coming together, and only Hexapuma, her war-weary captain, and Honor Harrington's students stand in the path. They have only one thing to support and guide them: the tradition of Saganami. The tradition that sometimes a Queen's officer's duty is to face impossible odds . . . and die fighting. ## **Ghosts of the Shadow Market**

*Shadows of Power* examines public policy and in particular, the communicative processes of policy and decision-making. It explores the important who, how and why issues of policy decisions. Who really takes the decisions? How are they arrived at and why were such processes used? What relations of power may be revealed between the various participants? Using stories from planning practices, this book shows that local planning decisions, particularly

# Free Copy PDF Shadows Due Shadow Series

## Book 3

those which involve consideration of issues of 'public space' cannot be understood separately from the socially constructed, subjective territorial identities, meanings and values of the local people and the planners concerned. Nor can it be fully represented as a linear planning process concentrating on traditional planning policy-making and decision-making ideas of survey analysis-plan or officer recommendation-council decision-implementation. Such notions assume that policy-and decision-making proceed in a relatively technocratic and value neutral, unidirectional, step-wise process towards a finite end point. In this book Jean Hiller explores ways in which different values and mind-sets may affect planning outcomes and relate to systemic power structures. By unpacking these and bring them together as influences on participants' communication, she reveals influences at work in decision-making processes that were previously invisible. If planning theory is to be of real use to practitioners, it needs to address practice as it is actually encountered in the worlds of planning officers and elected representatives. Hillier shed light on the shadows so that practitioners may be better able to understand the circumstances in which they find themselves and act more effectively in what is in reality a messy, highly politicised decision-making process.

## **Bound by Shadows**

How the perception of shadows, studied by vision scientists and visual artists, reveals the inner workings of the visual system. In *The Visual World of Shadows*, Roberto Casati and Patrick Cavanagh examine how the perception of shadows, as studied by vision scientists and visual artists, reveals the inner workings of the visual system. Shadows are at once a massive problem for vision—which must distinguish them from objects or material features of objects—and a resource, signaling the presence, location, shape, and size of objects. Casati and Cavanagh draw up an inventory of information retrievable from shadows, showing their amazing variety. They present an overview of the visual system, distinguishing between measurement and inference. They discuss the shadow mission, the work done by the visual brain to parse, and perhaps discard, the information from shadows; shadow ownership, the association of a shadow with the object that casts it; shadow labeling, the visual system's ability to tell shadows from nonshadows; and the shadow concept, our knowledge about shadows as a category. Casati and Cavanagh then apply the theoretical apparatus they have developed for shadows to other phenomena: illumination, reflection, and transparency. Finally, they examine the art of the shadow, paying tribute to artists' exploration of shadow, analyzing a series of artworks (reproduced in color) from a rich and fascinating art historical corpus.

An all-new official prequel novel to Shadowlands, the next expansion for Blizzard Entertainment's legendary online game World of Warcraft "The Horde is nothing!" With those infamous words, Sylvanas Windrunner betrayed and abandoned the Horde she vowed to serve. The Dark Lady and her forces now work in the shadows as both the Horde and Alliance, including her own sister, Alleria, race to uncover her next move. Struggling to shoulder the crushing weight of leadership, King Anduin entrusts the void elf and High Exarch Turalyon to uncover Sylvanas's whereabouts. The Horde now stands at a crossroads. The various factions form a council, leaving the mantle of warchief to rest. Thrall, Lor'themar Theron, Baine Bloodhoof, First Arcanist Thalysstra, and many other familiar faces rise to this new challenge. But the threats are numerous, and the distrust runs too deep. When the council is derailed by a failed assassination attempt on Talanji--the Zandalari queen and a key ally--Thrall and the rest of the Horde leaders are forced into action. They empower the young troll shaman Zekhan, still grieving the loss of Varok Saurfang, with a critical mission to aid Talanji and help uncover the rising threat against her. Meanwhile, Nathanos Blightcaller and Sira Moonwarden have been tasked by the Dark Lady with a terrifying gambit: to kill the troll loa of death himself, Bwonsamdi. As Zekhan and Talanji work to save Bwonsamdi, their journey will be a key turning point in bolstering the Horde against the coming darkness and finding themselves along the way. Failure to save their allies and the trickster god will surely doom them--but through success, they may rediscover what

## **Blood and Shadows**

Ender's Shadow explores the stars in this all-new novel At the end of Shadow of the Giant, Bean flees to the stars with three of his children--the three who share the engineered genes that gave him both hyper-intelligence and a short, cruel physical life. The time dilation granted by the speed of their travel gives Earth's scientists generations to seek a cure, to no avail. In time, they are forgotten--a fading ansible signal speaking of events lost to Earth's history. But the Delphikis are about to make a discovery that will let them save themselves, and perhaps all of humanity in days to come. For there in space before them lies a derelict Formic colony ship. Aboard it, they will find both death and wonders--the life support that is failing on their own ship, room to grow, and labs in which to explore their own genetic anomaly and the mysterious disease that killed the ship's colony. Shadows in Flight is the fifth novel in Orson Scott Card's Shadow Series.
