gutwrenching memoir. The numbers are staggering: nearly one in five girls ages fourteen to seventeen have been the victim of a sexual assault or attempted sexual assault. This is the true story of one of those girls. In 2014, Chessy Prout was a freshman at St. Paul's School, a prestigious boarding school in New Hampshire, when a senior boy sexually assaulted her as part of a ritualized game of conquest. Chessy bravely reported her assault to the police and testified against her attacker in court. Then, in the face of unexpected backlash from her once-trusted school community, she shed her anonymity to help other survivors find their voice. This memoir is more than an account of a horrific event. It takes a magnifying glass to the institutions that turn a blind eye to such behavior and a society that blames victims rather than perpetrators. Chessy's story offers real, powerful solutions to upend rape culture as we know it today. Prepare to be inspired by this remarkable young woman and her story of survival, advocacy, and hope in the face of unspeakable trauma.

Leon Leyson (born Leib Lezjon) was only ten years old when the Nazis invaded Poland and his family was forced to relocate to the Krakow ghetto. With incredible luck, perseverance and grit, Leyson was able to survive the sadism of the Nazis, including that of the demonic Amon Goeth, commandant of Plaszow, the concentration camp outside Krakow. Ultimately, it was the generosity and cunning of one man, a man named Oskar Schindler, who saved Leon Leyson's life, and the lives of his mother, his father, and two of his four siblings, by adding their names to his list of workers in his factory - a list that became world renowned: Schindler's List. This, the only memoir published by a former Schindler's List child, perfectly captures the innocence of a small boy who goes through the unthinkable. Most notable is the lack of rancour, the lack of venom, and the abundance of dignity in Mr Leyson's telling. *The Boy on the Wooden Box* is a legacy of hope, a memoir unlike anything you've ever read.

The post-apocalyptic modern classic with an introduction by novelist John Banville. In a burned-out America, a father and his young son walk under a darkened sky, heading slowly for the coast. They have no idea what, if anything, awaits them there. The landscape is destroyed, nothing moves save the ash on the wind and cruel, lawless men stalk the roadside, lying in wait. Attempting to survive in this brave new world, the young boy and his protector have nothing but a pistol to defend themselves. They must keep walking. Winner of the Pulitzer Prize for Fiction, *The Road* is an incandescent novel, the story of a remarkable and profoundly moving journey. In this unflinching study of the best and worst of humankind, Cormac McCarthy boldly divines a future without hope, but one in which, miraculously, this young family finds tenderness. An exemplar of post-apocalyptic writing, *The Road* is a true modern classic, a masterful, moving and increasingly prescient novel.

### **Educated**

A thought-provoking, chilling, and eerily prescient look at “prepper” communities around the world that are building bunkers against a possible apocalypse. Currently, 3.7 million Americans call themselves preppers. Millions more prep without knowing it. Bradley Garrett, who began writing this book years before the 2020 Covid-19 pandemic, argues that prepping is a rational response to global, social, and political systems that are failing to produce credible narratives of continued stability. Left with a sense of foreboding fueled by disease outbreaks, increasing government dysfunctionality, eroding critical infrastructure, nuclear brinksmanship, and an accelerating climate crisis, people all over the world are responding predictably—by hunkering down. For this book, Garrett traveled across four continents to meet those who are constructing panic rooms, building underground backyard survival chambers, stockpiling supplies, preparing go bags, hiding inflatable rafts, rigging mobile “bugout” vehicles, and burrowing deep into the earth. He has returned with a brilliant, original and never less than

deeply disturbing story from the frontlines of the way we live now: an illuminating reflection on our age of disquiet and dread that brings our times into new and sharper focus. The “bunker,” Garrett shows, is all around us: in malls, airports, gated communities, the vehicles we drive. Most of all, he reveals, it’s in our minds.

Barbara Kingsolver's acclaimed international bestseller tells the story of an American missionary family in the Congo during a poignant chapter in African history. It spins the tale of the fierce evangelical Baptist, Nathan Price, who takes his wife and four daughters on a missionary journey into the heart of darkness of the Belgian Congo in 1959. They carry with them to Africa all they believe they will need from home, but soon find that all of it - from garden seeds to the King James Bible - is calamitously transformed on African soil. Told from the perspective of the five women, this is a compelling exploration of African history, religion, family, and the many paths to redemption. The Poisonwood Bible was nominated for the Pulitzer Prize in 1999 and was chosen as the best reading group novel ever at the Penguin/Orange Awards. It continues to be read and adored by millions worldwide.

A lot of people wonder how Chinese parents raise such stereotypically successful kids. They wonder what Chinese parents do to produce so many math whizzes and music prodigies, what it's like inside the family, and whether they could do it too. Well, I can tell them, because I've done it. Amy Chua's daughters, Sophia and Louisa (Lulu) were polite, interesting and helpful, they had perfect school marks and exceptional musical abilities. The Chinese-parenting model certainly seemed to produce results. But what happens when you do not tolerate disobedience and are confronted by a screaming child who would sooner freeze outside in the cold than be forced to play the piano? *Battle Hymn of the Tiger Mother* is a story about a mother, two daughters, and two dogs. It was supposed to be a story of how Chinese parents are better at raising kids than Western ones. But instead, it's about a bitter clash of cultures, a fleeting taste of glory, and how you can be humbled by a thirteen-year-old. Witty, entertaining and provocative, this is a unique and important book that will transform your perspective of parenting forever.

In the Sitapur district of Uttar Pradesh, an agricultural region with high rates of infant mortality, maternal health services are poor while family planning efforts are intensive. By following the daily lives of women in this setting, the author considers the women's own experiences of birth and infant death, their ways of making-do, and the hierarchies they create and contend with. This book develops an approach to the care that focuses on emotion, domestic spaces, illicit and extra-institutional biomedicine, and household and neighborly relations that these women are able to access. It shows that, as part of the concatenation of affect and access, globalized moralities about reproduction are dependent on ambiguous ideas about caste. Through the unfolding of birth and death, a new vision of "untouchability" emerges that is integral to visions of progress.

Across the ages, in every survival story, a disaster of some sort plays a prominent role. Sometimes the part is played by the government, sometimes it is played by Mother Nature, and other times, the role is taken on by a random mishap. If we have learned one thing studying the history of disasters, it is this: those who are prepared have a better chance at survival than those who are not. A crisis rarely stops with a triggering event. The aftermath can spiral, having the capacity to cripple our normal ways of life. Because of this, it's important to have a well-rounded approach to our preparedness efforts. Due to the overwhelming nature of preparedness, we have created the Prepper's Blueprint to help get you and your family ready for life's unexpected emergencies. To make a more comprehensive, easy-to-follow program, The Prepper's Blueprint has been simplified and divided up in a way to help you make sense of all the preparedness concepts and supply lists provided. We have divided the chapters into layers of preparedness. Layer 1: Chapters 1-14, prepares you for those everyday disasters that have shorter-term effects: power outages, storms, injuries, and evacuations. Layer 2: Chapters 15-31 help you to get ready for disasters that turn out to be much longer-lasting: economic collapse, long term power outages, and pandemics, to name a few. Layer 3: Chapters 32-56 prepares you for the long haul and a complete change of lifestyle, the end of the world as we know it: providing food and water once supplies run out, security, retreat properties, and long-term plans. The goal of The Prepper's Blueprint is to help you find freedom through self-reliance, and ultimately, to get you and your family to a point where you can not only survive, but thrive, in a world that may be permanently altered.

## **Prepper's Long-Term Survival Guide**

You read all the birthing books, took the Lamaze classes, and made it through labor (mostly) unscathed, but now the baby is home—and it's a whole new ballgame! There are plenty of books and resources about how to properly care for your new baby, but what about caring for yourself? Maria Lianos-Carbone, founder of AMotherWorld.com, outlines the “proper care and feeding” of mothers during their baby's first year with humor and honesty. From the physical and emotional changes a new mom will undergo to rekindling intimacy with her partner, Oh Baby! Mom's Survival Guide for the First Year keeps the focus on moms—because you can't draw water (or breastmilk, for that matter) from an empty well. Maria's straight-talking, no-nonsense approach will give new moms everything they need to survive as they embark on the journey of motherhood. ## **One Second After**

From a Pulitzer Prize-winning investigative reporter at The New York Times comes the troubling story of the rise of the processed food industry -- and how it used salt, sugar, and fat to addict us. Salt Sugar Fat is a journey into the highly secretive world of the processed food giants, and the story of how they have deployed these three essential ingredients, over the past five decades, to dominate the North American diet. This is an eye-opening book that

demonstrates how the makers of these foods have chosen, time and again, to double down on their efforts to increase consumption and profits, gambling that consumers and regulators would never figure them out. With meticulous original reporting, access to confidential files and memos, and numerous sources from deep inside the industry, it shows how these companies have pushed ahead, despite their own misgivings (never aired publicly). Salt Sugar Fat is the story of how we got here, and it will hold the food giants accountable for the social costs that keep climbing even as some of the industry's own say, "Enough already."
