As Arthur "Babe" Cranfield states in his introduction, "Anyone can learn to play pool well. . . . Pool is beautiful and democratic that way. Anyone can apply his or her strengths to the game and excel since the game requires so many different types of skills. There is room in billiards and pool for those blessed with excellent hand-eye coordination, those with very little coordination but strong intellect, those who are systematic but not creative, and those who are creative but not systematic." Whatever your style, skills, and strengths, Babe has something to teach you. From basics like choosing a table and selecting a cue to advanced techniques like manipulating the ball using English, draw, and follow, Basic Pool has all you need to improve your game and increase the enjoyment you take from it. Other topics include: " The mechanics of pool " Perfecting your aim using babe's famous "arrow" system " Cue ball control " Maintaining proper concentration " Standard rules of the most popular games " Effective practice techniques " And many more! Babe takes the mystery out of playing well, providing encouraging and easy-to-follow instructions for every aspect of the game.

Wilhelm Tell

Much has been written about the ups and downs of financial markets, from the lure of prosperity to the despair of crises. Yet a more fundamental and pernicious source of uncertainty exists in today's world: the traditional "insurance" risks of earthquakes, storms, terrorist attacks, and other disasters. Insightfully exploring these "acts of God and man," Michael R. Powers guides readers through the methods available for identifying and measuring such risks, financing their consequences, and forecasting their future behavior within the limits of science. A distinctive characteristic of earthquakes, hurricanes, bombings, and other insurance risks is that they impact the values of stocks, bonds, commodities, and other market-based financial products, while remaining largely unaffected by or "aloof" from the behavior of markets. Quantifying such risks given limited data is difficult yet crucial for achieving the financing objectives of insurance. Powers begins with a discussion of how risk impacts our lives, health, and possessions and proceeds to introduce the statistical techniques necessary for analyzing these uncertainties. He then considers the experience of risk from the perspectives of both policyholders and insurance companies, and compares their respective responses. The risks inherent in the private insurance industry lead naturally to a discussion of the government's role as both market regulator and potential "insurer of last resort." Following a thoughtful and balanced analysis of these issues, Powers concludes with an interdisciplinary investigation into the nature of uncertainty, incorporating ideas from physics, philosophy, and game theory to assess science's limitations in predicting the ramifications of risk.

Updated 2013 ebook version As a competition shooter you can control many things, but you cannot control the wind conditions. To excel in any outdoor shooting sport you will need to learn how to compensate for the effects of the wind. Written by Master Sergeant Jim Owens, his 20+ years of Marine Corps Shooting Team experience will give you the knowledge of how to read, judge and adjust for the wind - in any type of rifle competition. Jim's book presents a simple system for judging the speed, direction and value of the wind. You'll learn to read the mirage, how to accurately read the range flag, estimate wind speed, wind strategies, effects on the bullet and much more. The coaching techniques section will help your own performance and that of others when shooting in the wind. Also included are 22 sets of wind charts for a variety of calibers (.223, .308, 6.5-08, 6.5-284, .300 Win. Mag.), bullet weights, and for both Across the course and Long Range. There are 80 wind charts in total ! "My scores have improved drastically. I thank you for your books. High Power shooting is enjoyable when you do better." □Neal Trubitt □Your series of books and tapes have helped me make the first daunting steps and I entered my first competitive event ever, the 2004 NRA High Power Week Competition at Camp Perry. Your Data Book is the best that I have seen and all the information that you had put together and your personal commitment to Juniors in the sport is indeed commendable.□ □Steven Field Keywords: windage,rifle,high power,clicks,adjustment,range,chart,training, practice,wind speed,kentucky,hold,sight picture,aim,competition,NRA

The whole world knows how much hockey is a vital part of Canadian culture. The cold winters, old rinks, and frozen ponds are ubiquitous to millions of Canadians and contextual for countless more across the world. Even for those who didn't play ice hockey, the game still became palpable. In *My Road Hockey Obsession*, author Curt Solomon tells the story of a group of young friends building their lives, friendships, and adolescence around road hockey. For Solomon, road hockey was much, much more than a pastime. It was the only pastime. When he started playing road hockey, he knew he had found the city of gold, and there was no use looking for or pursuing any other activity. In this unique story built entirely around ball hockey, Solomon shares how he and his friends transformed a simple pastime into the most bonding and durable period of their lives. Road hockey was how they grew up, how they communicated, how they thought, and how they forged life-long memories. *My Road Hockey Obsession* narrates a joyous story that sparks nostalgia—the days of orange balls, plastic blades, and the hollow sound of wooden sticks on asphalt.

Numbers don't lie; more and more women are purchasing guns and learning to shoot! While shooting used to be a male-dominated sport, women across the country have begun discovering that a trip to the range not only is relaxing, but also brings with it a sense of strength and empowerment. *Taking Your First Shot* is an introductory guide perfect for either those stepping out onto the range for the first time or those looking to brush up on their skills. Author Lynne Finch coaches women on the decision to learn to shoot, how to find formal training, selecting and purchasing a handgun, defensive versus practice ammunition, storing and caring for your gun, and concealed carry options. Along with learning the shooting basics, Finch also teaches readers the importance of situational awareness and the basics of self-defense. Sometimes a gun isn't always an answer, and it's important to have a proportional response to the situation. Finch begins with teaching readers how to become aware of their surroundings, what to watch for, and how to respond. From there, she goes on to define proportional response and why carrying pepper spray, a kubotan, or even a whistle can make all the difference. Learning to shoot is a personal decision, but with the proper training and practice, shooting can become both an enjoyable and

Take Your Best Shot

Discover how you can respond to God's call in your own life, whether it's in your own town or on the other side of the world. Teen Austin Gutwein has taken his best shot several thousand times to help AIDS orphans in Africa and in the process has built a school and a medical clinic! Take Your Best Shot tells how one boy made an incredible difference in the lives of those without hope while challenging the reader to do the same. The interactive dialogue will leave space for the reader to respond. By the end of the book, the reader will know the testimony of Austin and other teens from around the world who are committed to a life of sharing Christ's love, and will have begun to search for God's voice in their own lives. The book will also equip and challenge readers with information on a variety of ministries and organizations around the world to help people, animals, and the environment. "Austin is an outstanding young man! He inspires us to dream bigger, reach higher and love deeper. His story deserves a wide hearing." Max Lucado "I am very impressed with Austin Gutwein's story in Take Your Best Shot. This book is filled with words of encouragement, inspiration, and hope. It's guaranteed to motivate you into action." Pat Williams, Senior Vice President, Orlando Magic "I spent a day with Austin and his family and found them inspiring. His story, I believe, challenges us all. The first thing I thought as I drove to the airport was: What was I doing when I was twelve? And then, of course, the next thought: What, exactly, am I doing now?" John Larson, Former NBC National Correspondent "When people ask me how they can possibly make a difference fighting a problem as big as "global poverty", I tell them about a boy named Austin who, like David, stared Goliath in the eye without flinching. This young man has done more to make a difference in the lives of children orphaned by AIDS than most American churches, let alone individuals. If you are older than 10 and you haven't yet done your part to change the

world, read *Take Your Best Shot* and be inspired. Austin Gutwein shows us the way. Richard Stearns, President, World Vision US, Author of *The Hole in Our Gospel* "When people ask who has most impacted me over the last year, without hesitation I can say Austin Gutwein and the story of Hoops of Hope. I am around amazing leaders all the time, and Austin rivals all of them. Austin is my friend. And Austin is one of my heroes. You can't be around Austin or the amazing work of Hoops of Hope without being deeply impacted and inspired. Trust me. Do yourself a favor and read this book and the incredible story. But once you do, be prepared to be changed and challenged. You'll see the world and your significant role in helping those less fortunate in an amazingly fresh way." Brad Lomenick, Executive Director, Catalyst "Austin's story is one of modern day heroism. He represents a new generation that can carry us all into the twenty-first century: a world of hope, peace and selfless love. Austin completely inspires me." Daniel Biro, Hawk Nelson

The First Shot for Liberty

Take a Shot! is the incredible true story of how three unlikely partners—world-famous fitness icon Jake Steinfeld, former Princeton University lacrosse star Dave Morrow, and son of a TV preacher Tim Robertson—broke all the rules and beat all the odds to create Major League Lacrosse. This book will take you on a roller-coaster ride through the ups and downs of starting a business—and not just any business, but a professional sports league built around America's oldest and most tradition-bound game. Today, Major League Lacrosse is entering its 12th season, and the sport has exploded into the fastest-growing game in the U.S. But it wasn't always that way . . . not even close. For four crazy, chaotic years, from 1998 to 2001, Jake, Dave, and Tim faced enormous obstacles and endless challenges in their lonely battle to make their lacrosse dream come true. From the earliest inspiration—Jake's chance reading of a magazine article that got the ball rolling—to the wild search for investors and owners, to the insane setbacks that nearly derailed the league time and time again, to the emotional and triumphant debut of Major League Lacrosse, Take a Shot! is an action-packed, thrill-a-minute adventure story. But this book is also about friendship under fire. It tells the tale of three men from vastly different worlds—Jake, the brash Hollywood icon and driving force behind Major League Lacrosse; Dave, a shy Ivy Leaguer from blue-collar Detroit and the ultimate fish out of water; and Tim, the son of TV evangelist Pat Robertson and a multimedia mogul—who teamed up to try the impossible: start a professional sports league from

scratch at a time when other leagues were crashing and burning around them. When Jake recruited Dave to be his partner, neither had any idea what was in store for them, nor what it took to start something like this (after all, who does?). But they had something more important: a gut instinct that, from day one, they could always trust each other. And so, with only a handshake, they ignored all the naysayers who warned them that they were doomed to fail and together built Major League Lacrosse, weathering every crisis and shrugging off each disaster along the way. And in the process, their partnership evolved into an enduring friendship, as Jake helped Dave blossom into a big-time entrepreneur, and Dave—at a crucial moment with everything on the line—came out of his shell and justified Jake’s relentless faith in him.
