A Taste of Blood

The Encyclopedia of Vampires, Werewolves, and Other Monsters

Taste, perhaps the most intimate of the five senses, has traditionally been considered beneath the concern of philosophy, too bound to the body, too personal and idiosyncratic. Yet, in addition to providing physical pleasure, eating and drinking bear symbolic and aesthetic value in human experience, and they continually inspire writers and artists. Carolyn Korsmeyer explains how taste came to occupy so low a place in the hierarchy of senses and why it is deserving of greater philosophical respect and attention. Korsmeyer begins with the Greek thinkers who classified taste as an inferior, bodily sense; she then traces the parallels between notions of aesthetic and gustatory taste that were explored in the formation of modern aesthetic theories. She presents scientific views of how taste actually works and identifies multiple components of taste experiences. Turning to taste's objects—food and drink—she looks at the different meanings they convey in art and literature as well as in ordinary human life and

proposes an approach to the aesthetic value of taste that recognizes the representational and expressive roles of food. Korsmeyer's consideration of art encompasses works that employ food in contexts sacred and profane, that seek to whet the appetite and to keep it at bay; her selection of literary vignettes ranges from narratives of macabre devouring to stories of communities forged by shared eating.

A TASTE OF TWILIGHT is the 4TH book in USA TODAY Bestselling author, Angelique Armae's, Vampire Lovely series. Rose McKinley is a modern-day witch facing a centuries-old enemy in this bewitching tale of baking magick gone awry. Rose McKinley comes from an eccentric family. For starters, she has Ireland's greatest war goddess for a grandmother, two more war goddesses as aunts, eleven cursed witches for sisters, and one bad-ass demon cat as a pet. But even with all that chaos swarming around her everyday life, nothing prepares Rose for the darkness that is about to storm into her world. Namely, one Liam Darcy, a vampire member of Finn MacCool's immortal Fianna warriors. If only her freshly baked pumpkin pie hadn't raised the sinfully sexy man from the dead... Liam Darcy enjoys being vampire. After a lifetime of fighting human warriors, followed by a stint battling the darkest of Fae armies, he now has a life of peace. Which means he can sleep away the days in a very comfortable coffin in the dungeons of Castle Nightblood and no longer deal with the guilt of having to find a wife and settling down. And that's a very good thing considering he is not marriage material. The last union he attempted ended with a mad Irish woman gunning for his head. And not just the one on his shoulders. Love simply doesn't have a taste for his heart. That was until this morning, when the faint traces of pumpkin pie flitted into his private dungeon and gave him the worst case of burning heart ever. The freakin' organ actually had the gall to beat. And not in the way a vampire's heart pumps, but in the way a human's does. And if that wasn't bad enough, the now beating thing stirred to life the ghosts of his former betrothal and her crazy-ass brothers. Fighting old enemies is not what he wants at the moment. Never mind the fact he also has to protect the witch who stirred his heart back to life as his centuries-old ex is not going to let another woman have him—been there, done that. Not to mention Rose McKinley is his Queen's granddaughter. And ignoring the woman won't do him a lick of good as he fancies the beautiful American witch. Of all

the times for love to find him...

Taste

A female vampire is the ultimate bad girl. The very word 'vampire' invokes images of dark, shadowy liaisons, forbidden desires and sensual blood lust. Whether depicting a traditional blood-drinker seducing a meal, a psychic vampire stealing life-force from an unknowing host, or a real-life sanguinarian seeking a partner to share a ritual bloodletting, the stories in Girls Who Bite are varied and unexpected.

School Library Journal

Why are we so enthralled by the vampire? This book descends into the murky shadows of the subconscious to present dreams, nightmares and fantasies that reveal the true power of the vampire's image. From the enticement of the vampire's kiss to the allure of immortality, vampires are the dark rebels, the outsiders and the opponents of established order.

'I had arrived at the Greek view of nature. He studied at Cambridge, but it was Belfast where Reid returned to make his home, and where his questing mind seemed to find all that it required of inspiration. Twentieth-century Literary Criticism

Hope Havergale first meets the mysterious teenager Christian Livingston on her seventh birthday when he saves her from plummeting into a cradle of water inside a forbidden forest. As he licks fresh blood droplets from her injured wrist, Hope is spellbound. Seemingly powerless to his charms, Hope has no idea that it will be her destiny to embark on a breathtaking, perilous adventure with this two-hundred year-old vampire. As Hope grows up and inherits an old house in the Florida Keys from her estranged grandmother, she secretly pines for Christian the man who haunts her dreams. While yearning for his good looks and succulent tin-cinnamon scent, Hope is clueless that it is Christian who fell in love with her when she was just seven. Worse yet, Hope doesn't realize the truth about her own veiled past that even she isn't fully human. When Christian reappears one day, she falls hard, rousing the monster within her. Somewhere between skin and ink and blood and love, a sinful self-discovery awaits Hope as she becomes

entangled in a conflict between civilized and savage vampires. In this seductive tale, bloodlust quickly turns to bloodshed when the arrival of a new danger threatens to destroy both their secret love and surreptitious existence.

The Vampire Knife

This introductory volume offers an elegant analysis of the enduring appeal of the cinematic vampire. From Georges Méliès' early cinematic experiments to *Twilight* and *Let the Right One In*, the history of vampires in cinema can be organised by a handful of governing principles that help make sense of this movie monster's remarkable fecundity. Among these principles are that the cinematic vampire is invariably about sex and the vexed human relationship with technology, and that the vampire is always an overdetermined body condensing what a culture considers other. This volume includes in-depth studies of films including Powell's *A Fool There Was*, Franco's *Vampyros Lesbos*, Cronenberg's *Rabid*, Kümel's *Daughters of Darkness*, and Merhige's *Shadow of the Vampire*.
