WHAT PEOPLE ARE SAYING:Blasphemous. Dark.
Humorous. Twisted. Unlike anything you've ever read
before.**Ron Wolfe, author of Old Fears, Death's Door and
Hellraiser comics said: "a great opening premise," and, "I
wish I'd thought of it."**Bob Milne/Beauty in Ruins said: "this
was one of the most original reads I've had the pleasure of
experiencing in a long time." and "an action-filled, suspense-
laden, treacherous piece of storytelling"DESCRIPTION:The
Devil gives Norman Reeves an ill-fated mission he has no
choice but to accept: Find the center of Eden and reverse the
Fall of Man.Thrust into a place called Creation, Norman's task
is plagued by unimaginable people and events. He must
unravel impossible clues to free the Three Trees and keep
himself out of Hell at the same time.On this surreal and

unknown: the shocking secret lives of people close to him and the other unthinkable reason he was brought here. But should Norman fail, like all visitors to Creation, he will forget everyone and everything he has ever known, becoming part of the madness that was once the paradise of Eden.

Weaveworld

Here is storytelling on a grand scale — the stuff of which a classic is made. Weaveworld begins with a rug — a wondrous, magnificent rug — into which a world has been woven. It is the world of the Seerkind, a people more ancient than man, who possesses raptures — the power to make magic. In the last century they were hunted down by an unspeakable horror known as the Scourge, and, threatened with annihilation, they worked their strongest raptures to weave themselves and their culture into a rug for safekeeping. Since then, the rug has been guarded by human caretakers. The last of the caretakers has just died. Vying for possession of the rug is a spectrum of unforgettable characters: Suzanna, granddaughter of the last caretaker, who feels the pull of the Weaveworld long before she knows the extent of her own powers; Calhoun Mooney, a pigeon-raising clerk who finds the world he's always dreamed of in a fleeting glimpse of the rug; Immacolata, an exiled Seerkind witch intent on destroying her race even if it means calling back the Scourge; and her sidekick, Shadwell, the Salesman, who will sell the Weaveworld to the highest bidder. In the course of the novel the rug is unwoven, and we travel deep into the glorious raptures of the Weaveworld before we witness the final, cataclysmic struggle for its possession. Barker takes us to places where we have seldom been in fiction--places terrifying and miraculous, humorous, and profound. With keen

psychological insight and prodigious invention, his trademark graphic vision balanced by a spirit of transcendent promise, Barker explores the darkness and the light, the magical and the monstrous, and celebrates the triumph of the imagination.

Back to Eden

I'd spent my entire life feeling like I couldn't breathe. Like I was unfit to even exist in a world controlled by elemental magic, as the only one without a single drop coursing through my veins. I was a magical dud, a misfit thrown into an orphanage by my parents as a baby and forced to work a dead end job at a magical coffee shop just to get by. In a place where everyone was extraordinary I had come to terms with being ordinary. Until my twentieth birthday when my life went up in flames- literally. But when my best friend is captured by a fire wielding psychopath who also turns out to be my fated mate I realize that there is no limit to how much of a hot mess my life can be. Great. Secrets about my past are uncovered and I find out I'm an eden, a mage with an affinity for all four elements. Only an eden can unite all of the

Dirty Eden

NEW NOVEL IN JOHN RINGO'S BLACK TIDE RISING SERIES From his corner office on the forty-fourth floor of the Bank of the Americas tower on Wall Street, Tom Smith, global managing director for security, could see the Statue of Liberty, Battery Park—and a ravaging zombie horde. Officially, Smith was paid to preserve the lives and fortunes of employees, billionaires, and other clients. And with an implacable virus that turned the infected into ravenous zombies tearing through the city, the country, and the world, his job just got a lot harder. Good thing Smith, late of the Australian special forces, isn't a man to give up easily. But saving civilization is going to take more than the traditional banking toolbox of lawyers, guns, and money. Smith needs infected human spinal tissue to formulate a vaccine—and he needs it by the truckload. To get it, he will have to forge a shady alliance with both the politicians of the City of New York and some of its less savory entrepreneurs. But all of his back-alley dealing may amount to nothing if he can't stave off the fast-moving disease as it sweeps across the planet, leaving billions dead in its wake. And if he fails, his only fallback is an incomplete plan to move enough personnel to safe havens and prepare to restart civilization. What's more, there are others who have similar plans—and believe it or not, they're even less charitable than a Wall Street investment banker. Sooner or later Smith will have to deal with them. But first he has to survive the Fall. A New Novel in John Ringo's

Electric Eden

An exploration of our fall from the pinnacle of human evolution 200,000 years ago and how we can begin our return • Explores recent neurological and psychological research on the brain and the role of plant biochemistry in human brain expansion • Explains how humanity's prehistoric diet change led to a neurodegenerative condition characterized by aggression and a fearful perception of the world • Outlines a strategy of raw foods, tantric sexuality, shamanic practices, and entheogens to reverse our mental degeneration and restore our advanced abilities Over a period of a million years the human brain expanded at an increasingly rapid rate, and then, 200,000 years ago, the expansion abruptly stopped. Modern science has overlooked this in order to maintain that we are at the pinnacle of our evolution. However, the halt in brain expansion explains not only recently uncovered anomalies within the human brain but

also the global traditions of an earthly paradise lost and of humanity's degeneration from our original state of perpetual wonder and joy. Drawing on more than 20 years of research, authors Tony Wright and Graham Gynn explore how our modern brains are performing far below their potential and how we can unlock our higher abilities and return to the euphoria of Eden. They explain how for millions of years early forest-dwelling humans were primarily consuming the hormone-rich sex organs of plants--fruit--each containing a highly complex biochemical cocktail evolved to influence DNA transcription, rapid brain development, and elevated neural and pineal gland activity. Citing recent neurological and psychological studies, the authors explain how the loss of our symbiotic fruit-based diet led to a progressive neurodegenerative condition characterized by aggressive behaviors, a fearful perception of the world, and the suppression of higher artistic, mathematical, and spiritual abilities. The authors show how many shamanic and spiritual traditions were developed to counteract our decline. They outline a strategy of raw foods, tantric sexuality, shamanic practices, and entheogen use to reverse our degeneration, restore our connection with the plant world, and regain the bliss and peace of the brain of Eden.

Master of the Game

The masterpiece of Steinbeck's later years, *East of Eden* is a sprawling epic in which his most mesmerizing characters and enduring themes were created and explored: the mystery of identity, the inexplicability of love, and the murderous consequences of love's absence. Set in the rich farmland of California's Salinas Valley, this expansive and often brutal novel follows the intertwined destinies of two families, the

Trasks and the Hamiltons, whose generations helplessly reenact the fall of Adam and Eve and the poisonous rivalry of Cain and Abel. East of Eden was a 1955 film introducing James Dean, the book that revived Oprah's Book Club, considered by Steinbeck to be his magnum opus, and has remained vitally present in American culture for over half a century. where he used to be the global managing director for Security, Tom and his fellow survivors watched New York City burn. His plan to save New York long enough to find a cure for the zombie virus hadn't survived the bloody scrimmage between angry cops, cunning gangsters, and rapacious City officials. Now only millions of infected humans, driven mad by the high infectious tailored rabies virus, inhabited the city. But Tom and some trusted allies were able to stay one step ahead and escaped offshore. Now they're holed up in a safe house in coastal Virginia and it's time to breakout. Between him and his objective, one of the bank's prepared evacuation camps in the Cumberland Valley, are hundreds of miles of clogged roads, burnt-out towns and howling mobs of infected humans who know only hunger. He must corral his motley team, complete with middle-schoolers, to navigate the treacherous landscape. And yet he feels his odds are good. But there's always someone smarter. Electric Eden documents one of the great untold stories of British music over the past century. While ostensibly purporting to be a history of that much derided (though currently fashionable) four-letter word, 'folk', Electric Eden will be a magnificent survey of the visionary, topographic and esoteric impulses that have driven the margins of British visionary folk music from Vaughan Williams and Holst to The Incredible String Band, Nick Drake, John Martyn and Aphex Twin. For the first time the full story of the extraordinary period of folk rock from the mid 1960s to the mid 1970s will be told in a book with the breadth of a social history touching on sonic worship, pagan architecture, land art, ley lines and their outer fringes of the avant garde. Electric Eden identifies a particularly English wellspring of imagery and imagination, an undercurrent that has fed into the creative and organic strand of Britain's music over the past century. From Edwardian composers assimilations of folk song and visionary poetry, via folk rock of the 60s and 70s, the story is brought up to date by placing these earlier movements in a continuum that links through significant figures in 21st century

"Our love is so much more than a mere catastrophic occurrence." My name is Freya Wilson. I am not your typical girl next door. I'm far from it. She doesn't understand why I prefer to be stuck in my room, watching the world pass by. But there is a reason to my melancholy that she will never know. I'm in mourning. I mourn a love I can never have. A love that if anyone were to learn about its existence, I would be judged and ridiculed. Branded with names too ugly to mention. Years ago, I had made the ultimate sacrifice so no one would discover my secret. However, now my secret is being put to the test. I will need to overcome one last obstacle. When fate brings me to live under the same roof temptation lies, I fear I might not be strong enough to hide my feelings. The moment I set foot inside it, my life takes an unexpected turn and the vision I once had of eternal solitude, seems out of reach. The chains I have weaved around me are no match for the allurements the house next door provides. There is no running away from love, and I was a fool to think otherwise. Earth Abides

The No.1 SUNDAY TIMES bestseller. A fascinating explanation of how evolution works, from bestselling author of THE GOD DELUSION, Richard Dawkins. The river of Dawkins's title is a river of DNA, flowing through time from the beginning of life on earth to the present - and onwards. Dawkins explains that DNA must be thought of as the most sophisticated information system imaginable: 'Life is just bytes and bytes of information,' he writes. Using this perspective, he describes the mechanisms by which evolution has taken place, gradually but inexorably, over a period of three thousand million years. It is the story of how evolution happens, rather than a narrative of what has actually happened in evolution. He discusses current views on the process of human evolution, including the idea that we all trace back to a comparatively recent African 'Eve', and speculates that the 'information explosion' that was unleashed on Earth when DNA came into being has almost certainly happened in other places in the universe.

Plucked out of the harsh life I was living and thrust into a world of unimaginable wealth, power, and privilege, all I want to do is keep my head down and survive until graduation. But they have other plans--Mason, Finn, Elijah, and Cole. Everyone at my new school calls them the Princes, and that's exactly what they act like. They always get what they want and who they want. And they want me. I'm not sure why, since they all seem to hate me. The Princes are gorgeous, flawless, and cruel. They own this town, and they're determined to own me too. To break me. What they don't know is that I've already been broken once. I won't let it happen again. ***AUTHOR'S NOTE: Savage Royals is a reverse harem high school bully romance, the first book in the Boys of Oak Park Prep trilogy.
