Small Business Rules

Siege and Sacrifice

In this striking novel-in-stories, a series of strange apocalypses have hit America. Entire neighborhoods drown in mud, glass rains from the sky, birds speak gibberish, and parents of young children disappear. Millions starve while others grow coats of mold. But a few are able to survive and find a light in the aftermath, illuminating what we've become. In "The Disappeared," a father is arrested for missing free throws, leaving his son to search alone for his lost mother. A boy swells to fill his parents' ransacked attic in "The Ruined Child." Rendered in a variety of narrative forms, from a psychedelic fable to a skewed insurance claim questionnaire, Blake Butler's full-length fiction debut paints a gorgeously grotesque version of America, bringing to mind both Kelly Link and William H. Gass, yet imbued with Butler's own vision of the apocalyptic and bizarre.

Galien, educated for the priesthood, trained at arms and horse by his father and older brothers, all knights, finds his once-certain future as a high Church official compromised by family misfortunes. Through a series of oft-wrenching events, he discovers his own destiny as events in France and the distant Holy Land draw inexorably toward the great war of faiths known in history as the First Crusade.

Veins of Gold

NOIR is a two-part White Paper, written by David L. Charney, M.D., a psychiatrist who had the unique experience of interviewing former FBI counterintelligence officer Robert Hanssen in jail, weekly, for approximately two hours per visit, for a year. Dr. Charney did the same with two other incarcerated insider spies: Earl Pitts (former FBI Special Agent revealed as a KGB spy), and Brian Regan (former Air Force/NRO). Dr. Charney's interest was to better understand the minds of spies for the sake of strengthening our national security. Over the eighteen years of his work with these cases, Dr. Charney developed a greater understanding of insider spy psychology and formulated new approaches and fresh proposals for better managing the problem of insider spies. Dr. Charney's first paper, "True Psychology of the Insider Spy," Part One of his two-part White Paper on insider spies, was published in late 2010 in the AFIO Intelligencer. This paper can be viewed on the NCIX (National Counterintelligence Executive) website. Most Insider Threat management initiatives have been technology driven. While clever and useful up to a point, they are subject to the Law of Diminishing Returns and can backfire by creating a negative, distrustful workplace atmosphere. A well-motivated insider can defeat nearly any technology-based system. They will always find a way. By contrast, Dr. Charney's NOIR proposals center on the minds of potential or current insider threats: their psychologies and their inner worlds. The battle must be won there. NOIR focuses on "classic" state-sponsored espionage. However, many of its points are applicable for dealing with Snowden-type threats. NOIR for USA is a 501(c)3 entity to educate the US Intelligence Community, other government components, including the Congress, the courts, responsible journalists, and the general public, about the NOIR concepts and proposals. Dr. Charney and his colleagues at NOIR for USA would appreciate any comments, criticisms, or additional thoughts you may have about NOIR concepts and proposals: Contact@NOIR4USA.org

Our Paper

It had seemed so simple, even fun, when they explained it: New York needed non-satellite-based relay towers. Commco sent me to find towns along the needed pathway, to offer to restore some of the boons of civilization in return for an agreement to build, power and guard the towers. After all, it had only been fifty years. I would never have believed that the countryside would have turned barbaric so fast. Thus begins Martin Barrister's journey through an unfamiliar landscape, where his training and skills are of little help, and only quick wits and creativity will allow him to survive. When his job turns out to be a ruse, and he becomes bait in a dispute he can barely fathom, Martin discovers what loyalty is worth. And what civilization is - and isn't - comprised of.

Magic Bitter, Magic Sweet

The book "Intellectual Religion" consists of potential revolutionaries ideas: like why calling us Hindu is as wrong as calling us Indian. Why religions should be regarded merely as deceptions and Cultures only as traps. The concept of Secularism is proved irrational. Why "KaamSutra" is not a taboo. The chapters of "Discovery of Soul," "Art of Death" and "Art of Life" will demystify the riddle of Hinduism. Why "Morality is Satanic" and the characteristics of true Freedom are discussed. Further, "Caste System" is dealt in details. The last chapter "Manage Yourself" will let the readers relate to Discipline, self-development, yoga, meditation and improving oneself. The chapters like "Advice to Religions" and also, "Advice to Democracies" will challenge the

threat of multi-dogmatic-religious society.
