## The Urban Prepper

Be prepared and become a master survivor and mental master! Book 1: We've all seen the TV shows, and we all know it could come down to this: Survival in the wild. When you're on your own, away from civilization, you must know what to do, or you will die. Understanding our physical bodies, what they need, and what nature provides, lies at the basis of getting through a desert, jungle, or mountain climate or landscape. Book 2: The undead are all over the streets. The apocalypse has begun, and you're left to squander for food, fuel, weapons, or any tradable and usable goods to survive and not turn into a zombie yourself. Just in case an epidemic spreads across the globe and turns this dystopian fantasy into a reality, a guide has been constructed to help you prepare. Book 3: It's not a matter of if but of WHEN a zombie outbreak hits the world. When it does, you will be happy that you took the time to read this brief book of information, and you can rub it into all the zombies' faces, because they got bitten and turned into the undead in the blink of an eye. But not you! You'll know what to do! Book 4: The brain is the most important factor that determines our success. How well we handle the emotions caused by physical changes, how calm we can stay when panic hits our mind, and determined we are to persevere when times get tough; those are things we need to control before we focus on any mechanics. Book 5: If only we could control ourselves and direct our bodies to accomplish more; that's what this guide is all about. Too many people are not in charge of what they do and say. To be the master of your own self is one of life's true purposes. Book 6: It has become possible for a larger group of people: To travel the entire world with a single backpack, some items, and a limited amount of money. Some people still show off their income when travelling, but even with a low budget, "backpacking" is an affordable, doable way of living. And yes, you can also make money online while doing it. Book 7: Many people have no clue what to do when they're camping. When this is the case, it can turn into a boring, frustrating downgrade from a hotel room, or even your own home. But camping can be fun and interesting in a variety of ways. Learn to make the most of your experience in nature and become a super camper! Book 8: You've probably heard of the Illuminati, of the Denver Airport, or Area 51, but there are a lot more conspiracy theories out there. Some simply remained theories, and others turned out to be real. After all, not everybody makes things up from scratch, do they? Most theories are based on a fraction of truth and some are completely true. In this book, we will expand on some minor and major conspiracy theories that have been kept secret in dark places. Book 9: The Scout motto is "Be prepared." Still, a large group of people doesn't think it's a big deal to have a storage, know something about emergency kits, or prepare just in case well, a big hurricane floods the city or forest fire hits your hometown. Book 10: What if someone suddenly had an accident, was drowning, couldn't breathe, had a burning wound, or was bleeding to death? After you finish, you'll be fully equipped with the bare essentials, the things everyone should know if there is an emergency situation. Book 11: The world is a dangerous place. Muggers, robbers, thieves, rapists, and murderers roam the streets, and we're not even talking about simple dumb people who want to pick a fight or drank a little too much and lost their temper. Self-defense can be done with a clean conscience, and should be learned by anyone who finds him- or herself on the street, especially in the evenings.
