**Florida's Great Hurricane**

Provides background on issues, people, organizations, statistics, and

publications related to hurricanes.

### **The Hurricanes of the Caribbean Sea and Adjacent Regions During the Sixteenth Century**

An examination of the relationship between human populations and the shifting sands of North Carolina's Outer Banks chronicles the geographic and ecological changes that taken place over time.

### **Air Pictorial**

### **Hurricanes of the Caribbean and Adjacent Regions, 1492-1800**

The hurricane that pummeled the northeastern United States on September 21, 1938, was New England's most damaging weather event ever. To call it "New England's Katrina" might be to understate its power. Without warning, the storm plowed into Long Island and New England, killing hundreds of people and destroying roads, bridges, dams, and buildings that stood in its path. Not yet spent, the hurricane then raced inland, maintaining high winds into Vermont and New Hampshire and uprooting millions of acres of forest. This book is the first to investigate how the hurricane of '38 transformed New England, bringing about social and ecological changes that can still be observed these many decades later. The hurricane's impact was erratic—some swaths of forest were destroyed while others nearby remained unscathed; some stricken forests retain their prehurricane character, others have been transformed. Stephen Long explores these contradictions, drawing on survivors' vivid memories of the storm and its aftermath and on his own familiarity with New England's forests, where he discovers clues to the storm's legacies even now. Thirty-Eight is a gripping story of a singularly destructive hurricane. It also provides important and insightful information on how best to prepare for the inevitable next great storm.

## **Laws of the State of New York**

The report is a historical investigations on the hurricanes that existed in the Caribbean Sea and adjacent regions in the past. It corresponds to the eighteenth century.

## **New Horizons**

## **Thirty-eight Years' Mission Life in Jamaica**

A history of hurricances as well as tornadoes and typhoons, with a discussion of their cause and nature and some survival advice.

## **Every Saturday**

## **Expect the Unexpected**

Called the greatest storms on the planet, hurricanes of the North Atlantic Ocean often cause tremendous social and economic upheaval in the United States, Mexico, and the Caribbean. And with the increasing development of coastal areas, the impact of these storms will likely increase. This book provides a comprehensive analysis of North Atlantic hurricanes and what they mean to society. It is intended as an intermediary between hurricane climate research and the users of hurricane information. Topics include the climatology of tropical cyclones in general and those of the North Atlantic in particular; the major North Atlantic hurricanes, focusing on U.S. landfalling storms; the prediction models used in forecasting; and societal vulnerability to hurricanes, including ideas for modeling the relationship between climatological data and analysis in the social and economic sciences.

## **The Works of Charles Dickens in Thirty-four [i.e. Thirty-eight] Volumes**

"[These books give] a chronology of the unit's activities, using documentary sources, JG 26 archives and veteran's own stories. Volume one covers the period from 1939 to 1942 and contains interviews with the veterans of the JG26 unit, Allied records, radio intelligence, national archives of Germany, the UK and USAF Historical Research Agency and post-war research, to provide a daily account of the unit's activities-- as only two of the 30 volumes of the unit's official diary survived the war. Volume two takes the JG26 from the beginning of 1943, when the American 8th Air Force first began to make its presence felt over occupied Europe, until the end of the war"--Publisher's description.

## **Galveston and the 1900 Storm**

The Galveston storm of 1900 reduced a cosmopolitan and economically vibrant city to a wreckage-strewn wasteland where survivors struggled without shelter, power, potable water, or even the means to summon help. At least 6,000 of the city's 38,000 residents died in the hurricane. Many observers predicted that Galveston would never recover and urged that the island be abandoned. Instead, the citizens of Galveston seized the opportunity, not just to rebuild, but to reinvent the city in a thoughtful, intentional way that reformed its government, gave women a larger role in its public life, and made it less vulnerable to future storms and flooding. This extensively illustrated history tells the full story of the 1900 Storm and its long-term effects. The authors draw on survivors' accounts to vividly recreate the storm and its aftermath. They describe the work of local relief agencies, aided by Clara Barton and the American Red Cross, and show how their short-term efforts grew into lasting reforms. At the same time, the authors reveal that not all Galvestonians benefited from the city's rebirth, as African Americans found themselves increasingly shut out from civic participation by Jim Crow segregation laws. As the centennial of the 1900 Storm prompts remembrance and reassessment, this complete account will be essential and fascinating reading for all who seek to understand Galveston's destruction and rebirth.

### **Report of the Meeting of the British Association for the Advancement of Science**

Research has taken over ten years as the authors have pieced together information gleaned from official records, surviving participants or relatives.

### **Report of the Annual Meeting**

"Hurricane Andrew, the Public Schools, and the Rebuilding of Community addresses the experience of the Dade County Public School - its teachers and students, administrators and staff - during the first school year following the storm. In particular, it examines the role of the schools in helping people cope with a disaster of the magnitude of Hurricane Andrew, and more specifically, with their role in rebuilding community."--BOOK JACKET.
