journey, this sometimes scattered mind-set is perfectly natural—and healthy. But often you need help cutting through the clutter. In *YOU: Having a Baby*, Dr. Mehmet Oz and Dr. Michael Roizen, *America's Doctors*, will help ease your tension by teaching you not only about what you can do but also why you should do it. They'll explore the biology of your body with amazing insights about a cutting-edge new field called epigenetics, which gives you the power to change the genetic destiny of your child. And they'll give you all the ins and outs of nutrition, exercise, hormones, fetal development, and many more pregnancy-related issues. Using their signature wit and wisdom, they'll test your knowledge, bust many myths, and reassure you that your maternal instincts are usually pretty darn good. After all, the doctors want the exact same thing as you do during this journey—a healthy baby (and a healthy mom). Be assured that *YOU: Having a Baby* will be one of your favorite passengers on this wonderful ride.
